Docketing Case No.: 11-05-2010

PUCO

RECEIVED-DOCKETING DIV
2010 NOV 22 AM 8:47

I built my all electric home in 1979 based on the incentive of discounts by the electric company. I have been asked to convert to gas over the years. Ten years ago I replaced my heat pump with a high end heat pump/AC unit based on discounted electricity. Today, every appliance we have is electric. We have done everything possible to lower our rate, including insulation, conservation, and running devices at off peak hours. Please continue the discounts that we were promised (by the electric company) for being "all electric." Finally, I went to a meeting on November 17, that was supposed to be held at 6pm, in the Timmons School (Chagrin Falls), and nobody from the PUCO showed up. Nothing has been rescheduled for Geauga County. I hope this helps make a case for continued discounts. There has been some inconvenience over the years for being "all electric." However, we have been willing to do what would help us, and have been satisfied with the cost. Keep discounting!

Notes:

Please docket the attached in the case number above.
