Case 10-176-EL-ATA

TO: PUCO
November 22, 2010

Dear Members:

When we were considering purchasing our mobile home, one of the major advantages was the fact that it was an all electric home, which we liked, plus the fact that the cost of electricity would be discounted. Living on fixed income this was a "plus" to say the least. Now the PUCO is going to deny they "lured" us in with empty promises. Shame on you PUCO

We beseech you to continue the discounted rates on electric service for all-electric homes after the May, 2011 date.

We live strictly on Social Security, with no pension, IRA or other income, which is the same situation for many seniors today. We simply cannot afford drastic increases in our electric bills.

Respectfully submitted by:
