Subject: Commercial Truck new regulations

09-223-TR-ORD

2010 NOV 23 PM 4: 01

Dear PUCO,

PUCO

We are a small landscaping company and a member for Ohio Landscaping, Assoc. Our company along with other companies in our area do not feel we will be ready for the new Commercial truck regulations that are to take place on January 1, 2011. We just recently heard of these changes and we do not have adequate time to be prepared. We also have strong concerns with the additional costs that our companies will have to be responsible for because of these changes. During these bad economic times we are finding it harder to stay in business and to force us to pay out additional money for this new regulation may just cause us to close up all together. Please reconsider this regulation and help our small companies during these hard economic times. Thank you for your time, we appreciate anything you can do to help small companies like ours.
