Comments:

Dear Commissioners:

Recently I learned of the new regulations for commercial trucks rated at 10,001 to 26,000 pounds through our local newspaper.

After downloading all the forms and regulations from your website I would hope the commission would seriously consider rescinding the new regulations. They are excessive and would add unneeded expense and time for small companies.

Our trucks rarely have more than 10 minutes drive time between jobs, 90% of our drivers time are on customer's properties performing a service. If my employee's work a 10 hour day, at most they are driving one hour.

If the law is not rescinded at least a delay in enforcement should be made. I would also suggest many regulations be more targeted to the drivers that do nothing but drive.

I do like the portion requiring people driving pickups, dump trucks, etc have company logos on them. I would dare say if someone starting pulling over the trucks, etc with trailers and such without commercial plates Ohio's unemployment probably isn't as high as we think.

Sincerely,

Joseph M. Popovic

President
