Case # 10-176-EL-ATA

6

Nov. 20, 2010

Dear Sir,

When I gave my testimony at the PUCO's public hearing on Mon., Oct. 25, 2010, in Sandusky, OH, I told you of the paperwork that the Ohio Edison representative, Bill Miese, gave me to share with my mother, Dorothy R. Riedy and my sister, Kathleen Jo Riedy, to entice us to purchase Ohio Edison's new technology of geothermal heating for the new house we were building at 205 E. Bogart Rd., Sandusky, OH. At my testimony, I did not have extra copies of the paperwork with me to give you. However, I have made copies for you and they are enclosed.

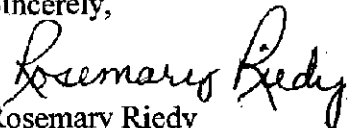

In the first set of enclosed papers, you can see it has the name of an Ohio Edison client, Baumgardner, Jerry B, his address, as well as facts and figures that only a representative of Ohio Edison had access to. There is no way an average person, such as myself, could acquire this data in 1994 without the help of an Ohio Edison employee. Further, all writing on these papers (except of the phrase "Geo pulls 2,000 W") was done by Mr. Meise, the Ohio Edison employee, who I had many conversations with about Ohio Edison's geothermal heating technology prior to purchasing their technology. You can see the calculations Mr. Meise did to show us the cost savings this particular customer, Mr. had from one year to the next by choosing Ohio Edison's geothermal heating system. Mr. Meise further enticed us by explaining we would have similar cost savings due to the "optional heat" rating Ohio Edison would place us on and that this "optional heat" cost savings rate would be permanent so when we decided to sell our house, this "optional heat" rate would go with the home and thus it would be a selling point for our house.

The next paper is a copy of the paper given to me by my builder who forwarded it onto me from Windau Heating Co., the company that installed my geothermal heating system in 1994. It proves I installed the geothermal heating system, per Mr. Meise recommendation, to be in compliance to receive the Ohio Edison permanent "optional heat" rating.

The third set of papers is a copy of one of my beginning electric bills in 1994 and a copy of my last electric bill in 2009. The copies prove I was on the guaranteed permanent "optional heat" rating as I complied with all contracted requirements between Ohio Edison and myself from 1994 until 2009 when Ohio Edison broke the contract and took my guaranteed permanent "optional heat" rating away.

If there is anything else I can do to help you to make Ohio Edison comply to their contract of guaranteeing the permanent "optional heat" rate, please feel free to contact me.

Sincerely,

  
Rosemary Riedy  
205 E. Bogart Rd.  
Sandusky, OH 44870-6401
