Docketing Case No.: Case # 10-0176-EL-ATA

Notes:

The removal of the promised heating discount will cause a direct hardship to our family. We built this home 15 yrs ago and chose electric heating due to the discount. We did not install ductwork in the house because we chose baseboard heaters. We are left with no alternative to heat because of the lack of ductwork. We do not have access to gas therefore must use electric, propane or oil. We also cannot change our appliances without incurring a major expense. This heating rate reduction is the reason we chose electric. If this promised rate reduction is removed it will create a hardship as we are left with no alternatives. These were taken away when the company promised a heating discount and we promised to use all electric appliances. We are close to retirement and this will create a definite hardship due to our lack of choices. thank you
