Case No. 10-0176-EL-ATA

Re: CEI All-Electric Residential Customers

BACKGROUND:

Landmark RE Management, LLC ("Landmark") began rehabilitating historic buildings into apartments with first-floor commercial in the early 1990's. Please feel free to visit our website at www.landmarkmgt.com to view our completed projects.

Our first project was known as Grand Arcade Phase I, which we converted into approximately 54 apartment units with first-floor commercial and second-floor office use. Our original plan called for a central building system for heating and a central building system for hot water. Charges for heating, cooling and hot water would have been built into the rents. At that time, CEI, through its sales staff, came to us and proposed selling electricity to us in bulk which would then be distributed to each unit and metered separately. The bulk rate was a discounted rate which made it competitive to put individual electric heat in each unit and to heat hot water in each unit with a separate electric tank. We were convinced to put in this system and it exists today in the Grand Arcade Condominiums. When we did Grand Arcade Phase II, CEI had instituted an all-electric discounted rate for apartments. To be all-electric the heating and heating of hot water were required to be electric. The air-conditioning and lights would have been electric in any event. Therefore, Grand Arcade Phase II included electric heat and electric hot water heaters.

Our next project was the Perry Payne building located at 740 Superior Avenue in downtown Cleveland. Again, we elected to go with the all-electric rates, individual electric heat and individual electric hot water heaters in the units. We knew that electric heat and heating water would not have been competitive without the discounted all-electric rate. Since it would be a real problem if such rate were ever discontinued, we again discussed this with CEI. While we never got a commitment in writing from CEI that it would not eliminate the discounted all-electric rate, the CEI sales representatives told us and represented to us that all-electric rates have been used in homes since the 1970's and that a discounted all-electric rate would always be available even if the actual price of per kilowatt hour increased with inflation and costs.

Our next project was Water Street Apartments (formerly the Bardons & Oliver Building). Again, we elected to go with CEI and, CEI offered us a "marketing fee" of \$300 per unit or \$30,000 for 100 units by letter dated April 4, 1996 which sets forth their proposal with attached promotional material, which included operating cost comparisons. This was later revised to \$400 per unit or \$40,000 by letter dated August 7, 1996 and August 29, 1996. The correspondence between us and CEI is attached to this memo as Exhibit A.

You will note that we again raise the question of obtaining a guaranty that the discounted rates would last. CEI would not give us that guaranty in writing and indicated that, of course, the rates could go up when they filed for rate increases which they anticipated after five years. However, this was not to be an elimination of the discounted all-electric residential rate, but merely a reflection that as costs went up rates would have to go up correspondingly.

Our final project, Bridgeview Apartments, was completed and began occupancy in the year 2000. Again, CEI offered us \$100,000 as a "marketing fee" for an all-electric building. Their letter dated August 25, 1997 is attached as Exhibit B. By this time we had dealt with CEI over a period of approximately 10 years, receiving constant assurances that the all-electric discount rate would be perpetual since we were making major physical investments in the property which could not be retrofitted to an all-building system which used gas to heat the unit and its hot water. In this letter, CEI actually stated that their rates were likely to go down! It also only required a five-year commitment on our part.

Also attached as Exhibit C is a CEI letter with respect to the Osborn Building and some additional gas/electricity typical suite costs sent to us by CEI.

Attached as Exhibit D is an analysis of Downtown Cleveland residential properties prepared by the Downtown Cleveland Alliance, which shows which buildings are "all-electric" as a result of CEI's marketing efforts.

ALTERNATIVE SYSTEMS:

At the same time we and others in Downtown Cleveland were putting in all-electric apartments, based upon CEI's all-electric discounted rate, other building owners were making decisions to put in building-wide systems whereby heating and hot water heating were in a central system using gas and the shared cost were included in rent of the apartment. Installing these systems is something that must be done when the building is being rehabilitated and is somewhat less flexible to the owner since there is no way to determine individual usages. Further it is somewhat difficult to regulate during spring and fall when temperatures are changing and a switchover between cooling and heating occurs. The all-electric system had the advantages of individual metering for each individual unit and the individual apartment renter could control their energy costs through their own usage patterns. Our deciding factor was the assurance that the discounted all-electric rates would always continue so our energy costs would remain competitive.

CURRENT COMPETITIVE DISADVANTAGE:

CEI's recent action to raise rates, based upon what appears to be misrepresentations to the Ohio Consumer's Counsel and The Public Utilities Commission of Ohio about CEI's prior assurances to its customers and misleading water and heating usage analysis, has severely hurt those apartment/condominium buildings in Downtown Cleveland which relied upon the discounted all-electric rate. We have lost tenants and anticipate losing a substantial number more due to the rate increase and are certainly at a competitive disadvantage now with respect to those buildings which went with the gas/electric systems. With the all-electric residential

rate, the energy cost for both systems was competitive and really not a factor in individual tenants making up their mind. Now with winter heating bills doubling for many of our tenants, it will be the major deciding factor in an individual's decision to rent and/or buy a condominium in one building with all-electric heat and a competitive building next door with building-wide gas heat.

NO ONE IN THEIR RIGHT MIND HEATS SPACE OR HEATS WATER WITH ELECTRIC POWER WHEN GAS IS AVAILABLE. IT IS JUST TOO EXPENSIVE AT STANDARD ELECTRIC RATES.

Also attached to this letter as Exhibits E through H are actual electric bills for four (4) units: (i) Unit 230 in Bridgeview Apartments (1427 square feet); (ii) Unit 705 in Bridgeview Apartments (1237 square feet); (iii) Unit 113 in Water Street Apartments (884 square feet); and (iv) Unit 416 in Water Street Apartments (679 square feet). These bills show actual usage which is very high in winter due to electric heat and hot water heating. Since each bill shows the prior 12 months usage (but not cost), you can see historical usage. We hope this information will be useful in your analysis of the impact of this rate increase on these consumers.

CEI REPRESENTATIONS AND "SALES PITCH" TO US:

When the discounted all-electric rate was first introduced to us, we asked how CEI could possibly discount the rate to us. CEI's explanation was that this actually benefited CEI by spreading their load during the winter months and during evenings in the summer months by having heating and water heating electric energy use during those periods. Since their plants had to be built to sustain the heavy air-conditioning load during the hottest day of the summer, spreading their load in the winter and evening hours actually helped them more efficiently use the power they generated. Therefore, CEI was actually profiting itself from this arrangement with all-electric homes, and in our case, all-electric apartments. The discounted all-electric residential rate made electricity competitive in energy use with comparable gas/electric apartments and was the only reason to install electric heat and water heating in our buildings.

As I stated and as the correspondence between CEI and our company shows, CEI heavily marketed the all-electric apartment concept and provided all kinds of details and reasons why it would be competitive with a comparable gas/electric system and even included substantial incentives towards the cost of implementing this system upfront. Their representatives repeated their assurances that the all-electric discount rate had been around since the 1970's and certainly would never go away although there could be rate increases along with general increases in other electric rates.

PUCO ORDER ON CASE NO.: 10-0176-EL-ATA DATED MARCH 3, 2010:

Earlier this year, a hue and cry has been raised by all-electric homeowners and some of them have secured temporary relief due to intervention of the Ohio Consumer's Counsel, the Governor's office and the PUCO. Although the PUCO Order of March 3, 2010 clearly applies

April 6, 2010

Page 4

to all properties of "all-electric residential customers", CEI chose to ignore this and limit its application to anyone who owned a home or was in an all-electric residential rate apartment in 2007. Obviously, this does not work for apartment dwellers since the average occupancy of our apartments is 1-1/2 years. We have very few residents in our over 400 units who have been in the various apartments since 2007.

The PUCO Order clearly specified and directed relief to "all-electric residential customers" or "all-electric residential subscribers." This has been ignored by CEI which did file a half-measure that impacted some, but far from all, customers/subscribers. CEI's response was limited to 2007 customers only, not property owners or renters in properties which were induced to become all-electric and are now at a competitive disadvantage due to CEI's prior marketing and misrepresentations. Nowhere in the Finding and Order that I can find did the PUCO order CEI to limit its relief in either time (2007) or type of residential customer. ANY RELIEF MUST BE TO THE PROPERTY THAT HAS ELECTRIC HEAT OR HOT WATER TANKS AND NOT LIMITED TO THE CURRENT RESIDENT/SUBSCRIBER.

I am not an attorney who practices before the PUCO and understand that it is a specialized practice. Even so, I DO NOT UNDERSTAND HOW CEI CAN IGNORE YOUR ORDER WITH NO CONSEQUENCE. If we did not pay our electric bill to CEI (ignore it), our electric service would be turned off!

I request an opportunity to discuss my direct knowledge of CEI's behavior and representations to our company with an appropriate PUCO commissioner or staff at your earliest convenience. Our company and partners have invested about \$80,000,000 in all-electric residential properties in Downtown Cleveland.

Our apartment/condominium residents need relief now, and I respectfully request an enforcement action against CEI now to require it to fully comply with your order now.

Respectfully submitted,

LANDMARK RE MANAGEMENT, LLC

April 4, 1996

Mr. Robert Rains & Mr. Jonathan Carney
2001 Crocker Road
420 Gemini Tower 11
Cleveland, Ohio 44145

Dear Bob & John;

Please allow me to congratulate both of you on the recent grand opening of the **Perry-Payne Apartments** in the Warehouse District. I understand leasing is going strong at Perry-Payne and you are now beginning to shift attention to your next project: The **Bardon-Oliver Building** on West 9th Street.

As Bob and I discussed, the Bardon-Oliver Building will offer the opportunity to house 101 new apartment suites, when complete. I am anticipating the opportunity to work together once again on this new project, as we have at the Grand Arcade and Perry-Payne. As has been demonstrated over time, the all-electric concept is an attractive option for you as Builder/ Renovators as well as for your tenants in the downtown area.

I have included information regarding several Heating & Cooling issues of interest for your review for this project as well as other projects you may undertake in the future. Included are:

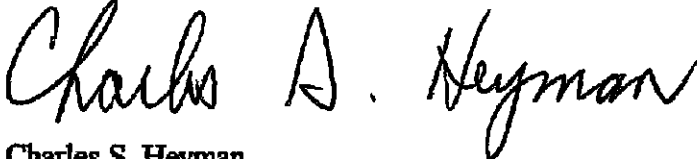

- * **Electric Heating & Cooling Options**
- * **Benefits review sheet for Electric Heating in Multi-Family applications**
- * **Illuminating Company Residential & Commercial Rates Summary Sheet**
- * **Heating & Cooling Operating Cost Comparisons**
- * **Information Sheets for: Electric Furnaces & Heat Pumps**
- * **Examples of Multi-Family Electric Heating Installations**
- * **Garage & Common Area Heating Information**

I am pleased to be able to offer **\$300 per suite** if The Bardon-Oliver Building is all-electric and uses Illuminating Company electric service for at least ten (10) years. Assuming 101 Residential Suites, the Marketing Assistance **total would be \$30,300**. This would again be payable in three (3) equal increments based on the following actions; 1) commencement of construction, 2) electric heating and cooling equipment installation and, 3) completion of the project as marked by the Residential electric meter installations.

Acceptance of the terms of this agreement letter indicated by your signature below, acknowledges that The Cleveland Electric Illuminating Company will be the sole electric source provider for a period of not less than ten (10) years from the time of the last electric meter installation and that the building will retain it's all-electric status for a period of not less than ten (10) years, if The Illuminating Company ceases to be the sole electric source supplier and/or the Bardon-Oliver Building ceases to be all-electric within the agreed upon ten (10) year period, your signature below acknowledges your obligation to pay back any and all Marketing funds provided within a thirty (30) day period form the date of the change.

Bob and John, I look forward to working closely with you again on this project to assure another successful project!

Sincerely,

Charles S. Heyman
Multi-Family Project Specialist

Please indicate your acceptance of the proposal by signing in the space below.

ELECTRIC HEATING OPTIONS IN THE NEW CONSTRUCTION MULTI-FAMILY MARKET

New Construction Multi-Family builders are often faced with making decisions on how to heat & cool new buildings without having all of the facts relating to the benefits of electric heating & cooling options.

Frequently, electric heating & cooling offers builders, building managers & longterm residents the best alternatives for suite & common area heating & cooling.

Among the most popular electric heating & cooling options are:

- * Split System Air Source Heat Pumps*
- * Water Source Heat Pumps with boiler and cooling tower backup*
- * Ground Coupled Geothermal Heating & Cooling Systems*
- * Electric Furnace with Split System Air Conditioner*
- * Electric Through the Wall Heating & Cooling Units*
- * Air Conditioner Plus with gas Heating back up*
- * Electric Baseboard Heating for Common Areas*
- * Electric Wall Mounted Heaters for Common Areas & Garages*

The Illuminating Company stands ready to assist your new construction efforts by providing specific benefits that relate to each of the above listed systems as well as assistance locating quality HVAC distribution points and operating cost comparisons for specific equipment, if needed.

*For additional information call; 953-7715 and ask for Chad Heyman
Multi-Family Project Specialist.*

MULTI-FAMILY BUILDER

BENEFITS WITH

ELECTRIC HEATING

Multi-Family Apartment & Condominium Builders have many benefits available to them with the various Electric Heating options available. These benefits are especially true in the downtown building renovation apartment market. Briefly listed those benefits include:

- * LOW HEATING & COOLING EQUIPMENT INSTALLATION COST.
- * MORE LEASABLE SPACE SINCE NO GAS COMBUSTION AREA HAS TO BE SET ASIDE IN EACH SUITE.
- * ELECTRIC HEATING OFFERS HIGH EQUIPMENT ENERGY EFFICIENCIES AS COMPARED TO FOSSIL FUEL ALTERNATIVES.
- * CEI'S NEW MULTI-FAMILY DISCOUNT ELECTRIC RATE OFFERS BUILDERS THE OPPORTUNITY TO PROVIDE LOW COST UTILITY BILLS FOR THEIR TENANTS.
- * ELECTRIC HEATING OFFERS CLEAN INDOOR AIR WITH NO CARBON MONOXIDE CREATED BY BURNING GAS.
- * ELECTRIC HEATING OFFERS DOWNTOWN BUILDER/ RENOVATORS THE ABILITY TO AVOID STRICT ORDINANCES RELATED TO PIPING GAS THROUGHOUT THE BUILDING AS WELL AS COMBUSTION REQUIREMENTS.

All figures are shown in cents per kilowatt hour. The first 100 kilowatt hours are sold at a rate of 1.45 cents per kilowatt hour. All figures are shown in cents per kilowatt hour.

The Company is not responsible for any errors or omissions in this summary sheet. The Company is not responsible for any errors or omissions in this summary sheet. The Company is not responsible for any errors or omissions in this summary sheet.

ALL-ELECTRIC LARGE COMMERCIAL SERVICE SCHEDULE

Available on an optional basis to commercial and industrial customers for all-electric installations having demand equal to or in excess of 20 kW, where electricity is the sole source of energy except for incidental requirements and where, as determined by the Company, the kilowatthours required for permanently installed space heating and cooling and water heating represent at least one-half of the total annual base load energy requirements or the equivalent of 1,299 hours of the base load per year.

MONTHLY RATES:

<u>Kilowatt Demand Billing Charge</u>		<u>Dollars per kW</u>
For the first 50 kWd	13.71	12.39
For all excess over 50 kWd	12.52	11.29
<u>Reactive Demand Charge</u>		<u>Cents per rkVA</u>
For each rkVA of reactive billing demand	20.00	20.00
<u>Kilowatthour Charge</u>		<u>Cents per kWh</u>
For the first 40,000 kWh	06.51	03.14
For the next 60,000 kWh	04.70	02.54
For all excess	04.18	02.17

* NOTE: All Kilowatthour charges are subject to the current Fuel Clause charge which is adjusted twice per year, in March and September. The eight winter months of billing of the Company's rate schedule begins with the first bill received in October; the four summer billing months begin with the June bill.

THE CLEVELAND ELECTRIC ILLUMINATING

COMPANY

COMMERCIAL RATE SUMMARY

NOTE: All KWH costs are shown without the fuel cost since the fuel cost is subject to change every 6 months.

GENERAL COMMERCIAL SCHEDULE

This rate applies to any commercial or industrial customer having an electric demand of less than 30 KW during the current month and preceding eleven months.

MONTHLY RATES:

<u>Kilowatthour Charge</u>	<u>Summer</u>	<u>Winter</u>
	<u>Cents per kWh</u>	
For the first 500 kWh	13.148	11.754
For the next 7,000 kWh	12.399	11.041
For all excess	07.296	06.249

LARGE COMMERCIAL SCHEDULE

This rate applies to any commercial or industrial customer having a demand equal to or in excess of 30 kW during the current month or any of the preceding eleven months.

MONTHLY RATES:

<u>Kilowatthour Charge</u>	<u>Summer</u>	<u>Winter</u>

Serving The Best Location in the Nation

TYPICAL MULTI-FAMILY UTILITY OPERATING COST COMPARISON

Please review the operating cost summary provided below. Every effort has been given to provide an accurate and fair representation of all components of the energy operating cost picture. As you will see, the total electric option is strengthened by the discount electric rates and by overall equipment efficiencies.

The following assumptions were made in the development of the heating and cooling analysis:

- * R-19 wall insulation
- * R-30 ceiling insulation
- * double pane windows
- * 2 person occupancy
- * 1" insulation around slab perimeter of building

The heating analysis was conducted for a 1 bedroom suite on the first floor. Other size or location suites will have different heat loss totals. The important thing to remember is that although the totals may change, the relationship between electric and gas costs will remain constant.

The heat loss I arrived at for the 1 bedroom unit was 14,360 btuh. This will equate into an operating cost for heating that will be shown below.

Total suite operating cost comparisons include: heating, cooling, water heating, cooking and other "base" uses of electricity. The discount Rate The Illuminating Company offers for Total Electric apartment suites provides energy cost savings in areas other than just heating, cooling and water heating.

TOTAL SUITE OPERATING COST BREAKDOWN

	<u>ELECTRIC</u>	<u>NAT GAS</u>	<u>DIFFERENCE</u>
HEATING COSTS:	\$140.75 YEAR	\$187.09 YEAR	\$46.34
	HEAT PUMP	80% GAS FURNACE	
COOLING COSTS:	\$108.00 YEAR	\$132.00 YEAR	\$24.00
	HEAT PUMP	REG CENTRAL AIR	
WATER HEATING COSTS:	\$239.80 YEAR	\$82.13 YEAR	(\$157.67)
BASE USE COSTS:	\$650.52 YEAR	\$725.96 YEAR	\$75.44
SERVICE CHARGE	\$-0-	\$78.00 YEAR	\$78.00
RANGE & DRYER	\$80.00 YEAR	\$70.00 YEAR	(\$10.00)
<u>TOTAL COST:</u>	<u>\$1219.07 YEAR</u>	<u>\$1275.18 YEAR</u>	<u>\$56.11 YEAR</u>

INFORMATION & BENEFITS REGARDING THE ELECTRIC FURNACE

GENERAL DESCRIPTION

- * The Electric Furnace (also known as Air Handler) is an extremely reliable whole house heating system.
- * The Electric Furnace produces heat in the same way an electric toaster operates. Electric heating elements are warmed which produces warm, comfortable heat.
- * Heated air is moved throughout your home by a fan which moves the warmed air into the ductwork system.
- * The temperature coming off the heated elements is between 130-140 degrees F, which is comparable to the heat provided by natural gas furnaces.
- * Electric Furnaces can easily be installed in new apartment or condominium suites or can be added to existing buildings by a CARE contractor.

BENEFITS OF ELECTRIC FURNACES

- * Electric Furnaces come as stand alone units that can be installed in small mechanical rooms or closets within each suite. They also come in package systems with standard air conditioning. They can be "Through-The Wall" or "Split-Systems".
- * Benefits of electric furnaces begin with installed cost advantages to the builder or developer. Savings can amount to \$500 per suite or more in addition to the installed cost savings incurred when no flues, chases or gas piping is needed.
- * Reliability is another strong selling feature for the electric furnace. Electric furnaces enjoy life-expectancies of over 25 years with little or no maintenance needed on an annual basis.
- * Electric furnaces produce a "clean heat" since no outside air is needed for combustion and since no fossil fuels are burned no "by-products" of combustion are produced.
- * Electric furnaces operate at 100% efficiency as compared to 65-90% efficiency for natural gas furnaces.
- * Electric furnaces operate very quietly since there is no fuel burning to cause additional noise.

RESIDENTIAL ALL-ELECTRIC HEAT & COOL PUMPS

Residential Heat Pumps (also known as Heat & Cool Pumps) come in several makes, models, energy efficiencies and styles to suit any and all homeowner needs. All major heating and cooling equipment manufacturers make heat & cool pump equipment.

Over 300,000 Residential Heat & Cool Pumps are made and sold every year in the United States. Heat & Cool Pumps are popular in every section of the country; north and south, east and west. Homeowners and Multi-Family dwellers across the country enjoy the many benefits of the heat & cool pump.

The most popular version of the Heat & Cool Pump is the "Split-System Air to Air" version seen below.

**Basic Components of a Heat Pump System
(Air-to-Air, Split-System Shown)**

Benefits of all-electric living in The Illuminating Company area are indeed attractive. They include: year 'round comfort; clean, even heating since no gas is burned inside your home to create heat, your home requires less cleaning and dusting than homes with natural gas, fuel oil or propane heating systems. The Illuminating Company offers all-electric homeowners money-saving discount electric rates. These discounts combine with the energy efficiency of the Heat & Cool Pump to provide local homeowners and Multi-Family dwellers the least expensive method of heating.

EXAMPLES OF ELECTRIC HEATING IN EXISTING MULTI-FAMILY BUILDING RENOVATION AND NEW CONSTRUCTION

- * PERRY-PAYNE APTS: 100 SUITES WITH ELECTRIC FURNACES**
- * 425 LAKESIDE APARTMENTS: 53 SUITES WITH HEAT PUMPS**
- * THE GRAND ARCADE APARTMENTS: 78 SUITES WITH ELECTRIC FURNACES**
- * WORTHINGTON SQUARE APTS: 52 SUITES WITH HEAT PUMPS**
- * WINDMILL VILLAGE CONDOMINIUMS: 89 SUITES WITH AC PLUS SYSTEMS**
- * RIVERBEND CONDOMINIUMS: 64 SUITES WITH HEAT PUMPS**
- * DOVER FARMS APTS: 300 SUITES WITH AC PLUS SYSTEMS**
- * REMINGTON APTS: 284 SUITES WITH AC PLUS SYSTEMS**
- * KING JAMES CONDOMINIUMS: 234 SUITES WITH HEAT PUMPS**
- * CLUB WEST CONDOMINIUMS: 250 SUITES WITH WATER SOURCE HEAT PUMPS**

- * BOB SCHMITT HOMES: 300 PLUS SUITES WITH HEAT PUMPS**

Technical Brief

Residential Sector

Zoned Resistance Heating

Description

Zoned resistance heating is provided by independent or decentralized heating units, one unit typically being installed in each space to be heated. Because each unit is operated by its own thermostat, a system of such units can easily meet the different requirements of each space. They can provide whole house heating or task heating in conjunction with any control heating system. By contrast, most central systems are controlled by just one thermostat and maintain all spaces based only on conditions near the central thermostat. The zoned approach provides far more opportunity for energy savings in that zones not occupied can be controlled to a relatively low (e.g., 55°F) setting, without affecting comfort in occupied zones.

Specification

Numerous types of zoned heating units are available as shown in Figure 1. Some of those most commonly used are described below.

Baseboard heaters are mounted at the junction of a finished wall and the floor. They vary from four to nine inches high and usually come in sections ranging from two to ten feet long.

Available capacities range from 375-2500 watts. Most baseboard heaters rely on natural convection to transfer heat, but forced convection models (those which rely on a small fan) also are used extensively. Some units employ glass elements to increase the radiant heat produced by those portions of the

Baseboard Resistance
Convactor

Kickspace Heater

Radiant Wall Heater

Wall Unit

Ceiling Heater Unit

TYPICAL ZONED HEATING UNITS

enclosure which face the space in which they are located.

Hydronic heaters are baseboard units that use a small resistance element to heat a water and antifreeze solution contained in copper tubing. Both non-circulating and circulating units are available.

Draft barriers operate much like baseboard units, except that they are designed for wall mounting at or just below sill height. They are used as supplemental heating units to counteract downdrafts from windows.

Floor-insert units typically are employed to offset downdrafts from large glass areas, such as sliding glass doors. They are fully recessed into a floor with only the grill remaining visible. Heat is distributed by either natural or forced convection.

Wall-mounted heating units are most often used to supplement other heat sources. They are available in capacities ranging from 1500-4000 watts for 108, 240 and 277V, 60 Hz service.

Kickspace heaters are recessed units designed for mounting in kick spaces, such as those beneath kitchen cabinets. They are intended principally for residential applications.

Ceiling heaters are recessed units. They are most commonly installed in bathrooms and provide heat, heat and light, or heat, light and ventilation.

Ceiling heating panels house resistance or infrared heating elements inside gypsum board, glass, vinyl, steel or other material. They are designed for flush- or surface-mounting; panels that fit standard modular tee-bar ceilings also are available.

Electric heating cables are invisible and silent. They can be installed in either a ceiling or a floor. The ceiling cable employed is made of thermoplastic-insulated copper-alloy wire dissipating 2 3/4 watts per foot. The cables are manufactured in lengths of 75-1,800 feet.

Infrared heaters are used for both spot heating and area heating. They transfer energy directly by radiation, creating heat—and comfort—instantly without fans. The most common types of infrared heaters use metal-sheathed infrared radiation elements, reflector lamps or quartz tubes.

Application

Most conventional houses are suitable for application of zoned resistance heating because they have distinct areas that inhibit significant mixing of air throughout the structure. All-electric homes that already have baseboard electric resistance heat are good candidates for zoned control through individual thermostats. Zoned resistance heaters can also provide backup heating for heat pumps, solar space-heating systems, and the like. The addition of resistance heating is possible in existing houses with most types of heating system.

Availability

Zoned electric resistance heating equipment is readily available from electrical distributors and electrical contractors.

Cost

A zoned electric resistance heating system is less expensive on a first cost basis than any competitive central system. The equipment itself is less costly, and far less must be spent on materials and labor in that no ducts, pipes, flues or storage tanks are required.

Reliability

The resistance heating equipment is far more durable than any other type of competitive space heating equipment. Many units have no moving parts at all, and those that do rely on a small blower motor which usually will operate without trouble.

Customer Benefits

The principal customer benefit is low life cycle cost, achieved because the system is inexpensive to install, operate and maintain. Another significant benefit is excellent comfort achieved because comfort conditions can be set for the space involved and the people who are

using it. In areas affected by time-of-use and/or demand rates, zoned resistance heating offers maximum dollar savings potential.

Customer Acceptance

Zoned electric heating has been gaining in popularity primarily because it offers lower operating costs and dependence on an energy source which is highly dependable.

Utility Considerations

Resistance heating systems offer increased sales for utilities interested in strategic load growth, especially when zoned control is coupled with other local control and storage options. Heating only portions of the house also reduces total diversified demand. Depending on utility and customer variables, zoned resistance heating can reduce peak demand.

Utility Programs

At present there are no known utility programs relating to zoned electric resistance heating. However, the interest is growing and several utilities are studying the zoned electric resistance heating option.

Comments

More information on this subject is available from Zonal Electric Comfort Council, 2101 L Street, N.W., Suite 300, Washington, D.C.

THE CLEVELAND ELECTRIC ILLUMINATING COMPANY

P. O. BOX 5000 • CLEVELAND, OHIO 44101 • TELEPHONE (216) 622-8800

Serving The Best Location in the Nation

August 7, 1996

Water Street Associates, Ltd.
2001 Crocker Road
420 Gemini Tower 2
Cleveland, Ohio 44145

Dear Gentlemen;

Please allow me to congratulate you on the successful Grand Opening of the Perry-Payne Apartments in Cleveland's historic Warehouse District. I understand all or nearly all of the suites are currently leased, which is very positive.

We are now turning our mutual attention to the Bardon-Oliver Building a.k.a. The Water Street Apartments, located on West 9th and Lakeside in Cleveland. My understanding is that your intention is to build 101 new apartment suites into the existing Bardon-Oliver structure. I appreciate the opportunity to work closely with you again on this project.

As we have discussed in the past, there are two primary choices for electric heating & cooling, if you wish to have separate electric meters for each suite. Those choices are: split system Heat Pumps or Electric furnaces with split system Air Conditioners. There are other options for the general apartment market such as geothermal, electric baseboard heating with through-the-wall air conditioners to name two. However, for the Water Street Apartments, I recommend one of the two previously mentioned primary choices.

The Heat Pump option will offer your residents lower electric bills due to the efficiency of the Heat pump in the heating cycle. The down side of the Heat Pump option is the initial cost premium over the electric furnace/ air conditioner. The Electric Furnace/ Air Conditioner that you have used in the past offers several benefits: installation cost savings, lower long term maintenance costs than Heat Pumps and higher register temperatures in heating.

If operating costs have not been a problem in the past, then you may wish to consider installing the Electric Furnace/ Air Conditioner again. Another option would be to install the Heat Pumps on the north facing apartments & or the apartments located on the corners of the building, due to the higher heat loss/ gains in these suites. The higher energy efficiency of the Heat Pumps would help to offset any concerns about the utility costs your residents who live in these suites might have. Both choices qualify your residents for the all-electric discount apartment rate we offer.

I am pleased to provide a \$400 per suite Promotional Incentive for your use in exchange for your commitment that all 101 suites of the Water Street Apartments will be all-electric and will utilize The Illuminating Company electric service for no less than 10 years.

page 2 of 2

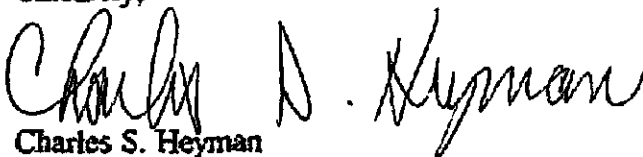

This Promotional Allowance totals \$40,400 for the 101 suites at the Water Street Apartments. The money would be remitted in three separate and equal installments based on the following actions: 1) signing of this agreement letter and the commencement of construction, and 2) the electric heating and cooling equipment installation and 3) completion of the project as marked by the final, permanent residential electric meter installations for the suites. This agreement includes any and all Commercial areas and Retail Space in the building. The Common areas may, at your option, be heated in a different manner. I was able to increase our normal level of support by "dipping" into our Marketing Advertising Fund. In exchange for this action, we need to agree that a small CEI logo will appear in each print ad you run for the initial lease up of the Water Street Apartments. I will provide the logo for your use.

It is the intention of The Illuminating Company not to raise our Electric Rates for a period of at least 5 years and at that time, to request a rate decrease from the PUCO. At this time, negotiations with Ohio Edison for a proposed merger are on-going, any language beyond our stated intentions regarding our rates is impossible.

Acceptance of the terms of this agreement letter indicated by your signature below, acknowledges that The Illuminating Company will be the sole source electric supplier for a period of not less than ten (10) years from the date of the last electric meter installation and that The Water Street Apartments will retain it's all-electric nature for at least the ten year time period. Your signature below acknowledges your obligation to pay back any and all Marketing Promotional funds provided within a thirty day period from the date of the change.

This offer expires if construction is not complete by 12/31/98.

Sincerely,

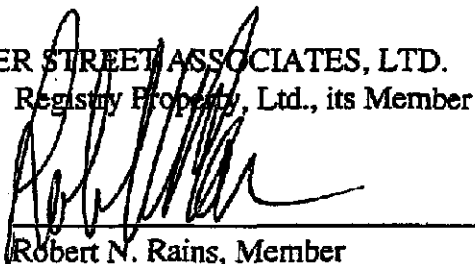

Charles S. Heyman
Multi-Family Project Specialist

Please indicate your acceptance of the proposal by signing in the space below.

WATER STREET ASSOCIATES, LTD.

By: Registry Property, Ltd., its Member

By:

Robert N. Rains, Member

Dated: 11/6/96

August 29, 1996

Mr. Robert N. Rains
2001 Crocker Road
420 Gemini Tower 11
Cleveland, Ohio 44145

Dear Mr. Rains:

As always, it is a pleasure working closely with you to assure that another of the downtown Cleveland properties you purchase and renovate into apartment suites, is successful.

The purchase of the Osborne Building and the other 3 properties in or near the Historic Gateway Neighborhood and the Playhouse Square area represents an exciting expansion of your efforts away from the Historic Warehouse District to other parts of the Cleveland downtown area!

Please allow me to provide the following proposal for the use of Centerior Energy (The Illuminating Company) electric service and for the buildings to be built as all-electric. Our strong background together suggests this project will continue for this and future projects of yours as well.

As I mentioned on the phone the other day, due to the location and size (185 suites) of this latest project, I am in the position of increasing the level of our involvement in this project from the past level \$300 per suite to a total of \$400 per suite or \$74,000 for the 185 suites for a commitment of utilizing Centerior Energy electric service for at least 5 years and that the buildings (apartment suites) be built as all-electric. I am able to offer this higher amount in part due to our interest in ensuring that activity in the HGN area continues to expand. Your involvement will help to solidify the overall apartment construction efforts in the area.

By way of review, the benefits of building all-electric with Centerior are:

- * lower construction costs
- * the above mentioned CEI rebates
- * more leasable space as all HVAC & water heating equipment can be located in a ceiling closet
- * a majority of downtown apartment buildings are all-electric
- * high quality CEI electric service installation for building
- * CEI engineers & service personnel work closely with your construction staff to ensure a safe, quality installation of electric facilities.
- * lower equipment costs
- * no code problems due to combustion air
- * no gas piping throughout building

page 2 of 2

By way of review, your residents benefit with all-electric, CEI electric:

- * low monthly electric bills
- * safe, reliable electric service
- * all-electric money-saving discount apartment rate
- * clean, safe electric heating & cooling provides year around comfort
- * electric heating and cooling as well as electric appliances provide enhanced indoor air quality since no gas by-products are produced
- * reduced monthly hassle since only one utility bill is received instead of 2 which increases residents free time.
- * 24 hour customer service assistance
- * 12 month budget billing option

Bob, I believe it is in our best interest to work closely together again on this latest project! If you agree that Centerior Energy will be your sole electric supplier for no less than 5 years and that you will build the Osborne Building and the entire 185 apartment suites as all-electric, please sign below. Your signature on this form acknowledges your acceptance of this deal, if for any reason Centerior Energy ceases to be the sole electric supplier or if the building is no longer all-electric, your signature on this agreement form acknowledges your responsibility to return any and all marketing funds provided by Centerior Energy within 30 days of the change taking place.

I look forward to working with you on this and future projects.

Sincerely,

Charles S. Heyman
Multi-Family Project Specialist

Robert N. Rains

Date

WATER STREET APARTMENTS GRAND OPENING SPONSORSHIP

Based on the positive relationship we have developed over time and the fact that we both stand to benefit from a successful Grand Opening effort, I am suggesting we "partner" in our mutual efforts to assure that Water Street Apartments open to "standing room only" results! I believe if we pool our resources we will be able to better any previous attempts in the area for garnering positive publicity for an apartment opening.

We will be able to offer \$3,000 to support the Grand Opening efforts at Water Street Apartments. This money can be used for entertainment, invitations, or other expenses related to the Grand Opening. In exchange for this level of support, I would like to request the following:

- * Mention in any Grand Opening correspondence of The Illuminating Company's support of the Grand Opening.
- * A place on the podium for a Centerior speaker.
- * The ability to place Point of Leasing material throughout the building.
- * Your assurance to pursue editorial copy in various media with a mention of The Illuminating Company's support and involvement, along with the benefits of the various electric use items throughout the Water Street Apartments (i.e. electric heating, cooling, appliances, etc.)
- * The ability to sponsor an "Industry Day" at Water Street Apartments during the Grand Opening (perhaps the day after the main Grand Opening while everything is still in place). This benefits your efforts as much as Centerior since it brings an entirely different group of potential residents on site. Invitees would include builders, realtors, HVAC contractors, etc.
- * 300 Invitations to the Grand Opening to circulate throughout our Company.
- * The ability to set up a display area (15 x 15) in a prominent area during the Grand Opening and for Industry Day.

If due to the size of the planned events, you find it necessary to pursue an additional "co-sponsor" of the event, I will understand as long as I have the ability to consult on the selection.

I will also actively pursue any additional means of promoting the event and Water Street Apartments. I will also work closely with the Public Relations firm you select to assure we are using our mutual resources to their fullest extent. If the above agreement meets with your approval, please indicate by signing below. I look forward to this event and our continued good working relationship!

I can confidently assure you Bob, that this offer, when combined with our previous deal for Water Street Apartments, is more substantial than anything I have ever offered in the past.

I look forward to working with you on this event and in the future!

BRIDGEVIEW APARTMENTS
CORRESPONDENCE**

August 25, 1997

Mr. Robert Rains
Mr. John Carney
2001 Crocker Road
420 Gemini Tower II
Westlake, Ohio 44145

Re: Otis Terminal Building

Dear Bob and John:

Please allow me to offer my congratulations on your efforts to date regarding the Otis Terminal building! The Otis Terminal Building is the one great unoccupied building left untouched and unrenovated in the Historic Warehouse District. Your track record assures me of the successful completion of yet another downtown apartment renovation project!

Along those lines, please allow me to provide this proposal for your consideration and signature. Although we have reviewed the benefits of the electric lifestyle several times in the past, I have included a brief list below:

- * safe and flameless
- * individual suite heating and cooling control
- * individual electric meters mean residents pay their own bills
- * electric appliances operate without a flame and are therefore cleaner operating than gas appliances which enhances the indoor air quality for breathing and reduces the needed maintenance for painting, etc.
- * *electric heating provides a constant temperature in the spring, fall and winter months.*
- * all-electric apartment residents receive our discount electric rate
- * all-electric residents are eligible for our year round budget billing which reduces the uncertainty of utility bills and allows for better financial planning
- * building all-electric allows for critical construction cost savings for you as the developer/owner

I have also included a sheet that outlines the benefits you as a developer will enjoy with CEI electric service. Our discount electric rate for all-electric apartments makes us competitive with CRP and East Ohio Gas for the utility business. I have included a rate summary sheet for our rates as well as the most recent rate sheet for CRP. While their "base rates" have not changed since 1985, their "fuel" component has gone up dramatically. The current fuel clause is \$0.0297/kwh. Combined with their current base rates, they are actually higher cost than we are!

CRP does not offer any "discount rates." As you will note, our current rate (which is scheduled to go down over time) is lower than CRP.

Assuming 250 apartment suites in the Otis Terminal building, I am prepared to offer **\$100,000 for all-electric construction**. This includes all residential suites (but excludes common areas and retail spaces) located in the Otis Terminal building. This money should be used to help advertise the availability of all-electric apartment suites or to help purchase electric equipment. As in the past, the payments would be structured for the initial 1/3 to be paid just after the commencement of construction, the second 1/3 would be paid upon receipt of the electric heating/cooling equipment and the final 1/3 would be paid upon final electric meter installation.

Your acceptance of this agreement acknowledges your obligation to repay any and all marketing funds provided for the Otis Terminal, within thirty (30) days, if the all-electric nature of the building changes or if the *Illuminating Company electric service ceases to be used exclusively* for a period of not less than five (5) years after the final electric meters are installed.

This offer is valid only if all construction is complete by June 30, 1999. Bob and John, I look forward to working with you on yet another successful downtown apartment renovation. We understand your acquisition may not be consummated, in which event this agreement shall be terminated.

Sincerely,

Charles S. Heyman

1. Building uses an electrically driven boiler central heating system. Approximately 7 new construction units on the roof of the building received all-electric rate. All other units did not receive electric rate before, but rates have gone up. Commercial units

2. Building went into service post 1/1/2007 and was not eligible

3. Units are all electric but are serviced by Cleveland Public Power

4. Electrically driven heat-pump system, building went into service post 1/1/2007 and was not eligible

5. Buildings went online prior to the all-electric rate being offered

6. Phase 1 completed prior to the rate being offered. Phase 2 received all-electric rate

Definitions

Actual Reading - A reading we take from your electric meter.

Bypassable Generation and Transmission Related Component - Charges associated with the costs for purchased power and to deliver the power through the transmission system. These are the charges that a customer would avoid for that billing period if the customer switched to a Certified Retail Electric Service provider.

Cost Recovery Charges - Charges paid by all customers to recover previously incurred costs.

Customer Charge - The fixed monthly charge for basic distribution which partially covers costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - A charge (including taxes) for moving electricity over electric distribution lines to your home or business. Formerly, Delivery Charge.

Due Date - The date the bill must be paid by to avoid a late payment charge.

Economic Development Component - Charges paid by all customers to recover costs related to economic development support.

Estimated Reading - On the months we do not read your meter, we calculate your bill based on your past electrical use. If you

would like to read your own meter to avoid estimated bills, call us for meter reading cards or access our Web site listed below.

Kilowatt (KW) - 1,000 watts of electricity.

Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.

Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.

Price to Compare (PTC) - A certified retail electric service provider's price for generation and transmission must be lower than your price to compare for you to save money with that provider.

Residential Distribution Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all usage over 500 kWh during the winter billing period.

Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Important Information**Questions or Complaints**

To receive information about your Illuminating Company bill, various charges, rate schedules or for a written explanation of the Price to Compare:

Write: The Illuminating Company, 76 S. Main St., A-RPC, Akron, OH 44308-1890

Call Customer Services: 1-800-686-3101

(Monday - Friday, 8:00 a.m. - 6:00 p.m.)

Visit our Web site: www.firstenergycorp.com

You may be asked to provide:

Your phone number: 1-216-288-3343

Your account number: 11 00 29 8225 3 0

Your premise number: 1170100535

For Your Protection

All of our employees wear Photo I.D. badges.

Always ask for an employee's I.D. before letting anyone in your home. If you are still not sure, please call.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TTY at 1-800-686-1570 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers'

Counsel for assistance with complaints and utility issues at

1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.plcoco.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-686-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

ELECTRONIC CHECK CONVERSION - When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8081.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

***** DISCONNECTION NOTICE *****

Your electric bill payment is past due. Your service may be disconnected unless payment of \$ 116.95 is made by 12/31/2009. If service is disconnected, you will be required to pay a reconnection fee of \$35.00 and may be required to pay a security deposit to have power restored. You may be eligible for the Percentage of Income Payment Plan or other extended payment plan. See enclosed information. Failure to pay charges for competitive retail electric service may also result in the cancellation of your contract with the competitive retail electric service provider and return you to The Illuminating Company's standard-offer generation service. The amount due does not include charges for nontariffed products or services but may include charges for competitive retail electric service. Failure to pay charges for other nontariffed products or services may result in loss of those products or services. This provision is applicable only on accounts issued a consolidated bill for electric service. The due date on this notice does not change the due date of any previous notice sent to you for a past due amount. If you have questions, or if you want a list of our authorized payment agent locations, please call us at 1-800-686-6901. You may also call this number for information about our medical certification program.

Please do not write any comments, questions or address changes on the front or the back of the payment remittance stub. We use an automated payment processing system, so any words written on this form will not be recorded or read. If you'd like to contact us, please call us using the toll-free number on page 2 of this bill, or visit our web site: firstenergycorp.com.

Best wishes for a joyous holiday season from all of us at The Illuminating Company.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

The Public Utilities Commission of Ohio has approved changes to the Company's Net Energy Metering Rider. Customers with on-site generation fueled by solar, wind, biomass, landfill gas or hydropower, or use a micro turbine or a fuel cell may request net metering as described in this rider, Sheet No. 93 of our tariff. Customers adding generating equipment connected to their home or business wiring must comply with the technical specifications referred to in Sheet No. 95 of our tariff, Interconnection Service. Copies of both of these tariff documents are available from our website at www.FirstEnergyCorp.com and by calling 1-800-589-3101.

As part of our Ohio Renewable Energy Credits (REC) Program, we'll be entering into agreements with residential customers to purchase RECs generated from customers' approved renewable energy projects, such as solar and wind projects. For more information, check the inserts in next month's bill or visit firstenergycorp.com and search on "Ohio Residential REC."

Cost Recovery Charges - Charges paid by all customers to recover previously incurred costs.
Customer Charge - The fixed monthly charge for basic distribution which partially covers costs for billing, meter reading, equipment, and service line maintenance.
Distribution Related Component - A charge (including taxes) for moving electricity over electric distribution lines to your home or business. Formerly, Delivery Charge.
Due Date - The date the bill must be paid by to avoid a late payment charge.
Economic Development Component - Charges paid by all customers to recover costs related to economic development support.
Estimated Reading - On the months we do not read your meter, we calculate your bill based on your past electrical use. If you

would like to read your own meter to avoid estimated bills, call us for meter reading cards or access our Web site listed below.
Kilowatt (KW) - 1,000 watts of electricity.
Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.
Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.
Price to Compare (PTC) - A certified retail electric service provider's price for generation and transmission must be lower than your price to compare for you to save money with that provider.
Residential Distribution Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all usage over 500 kWh during the winter billing period.
Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Important Information**Questions or Complaints**

To receive information about your Illuminating Company bill, various charges, rate schedules or for a written explanation of the Price to Compare:

Write: The Illuminating Company, 76 S. Main St., A-RPC, Akron, OH 44308-1890

Call Customer Services: 1-800-599-3101

(Monday - Friday, 8:00 a.m. - 6:00 p.m.)

Visit our Web site: www.firstenergycorp.com

You may be asked to provide:

Your phone number: 1-216-288-3343

Your account number: 11 00 29 8225 3 0

Your premise number: 1170100535

For Your Protection

All of our employees wear Photo I.D. badges.

Always ask for an employee's I.D. before letting anyone in your home. If you are still not sure, please call.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TTY at 1-800-686-1570 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers' Counsel for assistance with complaints and utility issues at 1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.pickoec.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-686-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

ELECTRONIC CHECK CONVERSION - When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8081.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

*****DISCONNECTION NOTICE*****

Your electric bill payment is past due. Your service may be disconnected unless payment of \$ 169.35 is made by 11/02/2002. If service is disconnected, you will be required to pay a reconnection fee of \$35.00 and may be required to pay a security deposit to have power restored. You may be eligible for the Percentage of Income Payment Plan or other extended payment plan. See enclosed information. Failure to pay charges for competitive retail electric service may also result in the cancellation of your contract with the competitive retail electric service provider and return you to The Illuminating Company's standard-offer generation service. The amount due does not include charges for nontariffed products or services but may include charges for competitive retail electric service. Failure to pay charges for other nontariffed products or services may result in loss of those products or services. This provision is applicable only on accounts issued a consolidated bill for electric service. The due date on this notice does not change the due date of any previous notice sent to you for a past due amount. If you have questions, or if you want a list of our authorized payment agent locations, please call us at 1-800-688-0901. You may also call this number for information about our medical certification program.

If termination of service would be especially dangerous to your health or the health of someone in your household, please contact our office regarding certification of the related medical condition by a licensed physician, physician's assistant, clinical nurse specialist, certified nurse practitioner, certified nurse-midwife or local board of health physician so that service can be maintained.

When contacting a Certified Retail Electric Service Provider, please provide the customer numbers below.
Call The Illuminating Company at 1-800-569-3101 with questions on these charges.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

Effective September 1, 2008, the Distribution Related Component will change due to the approval for accelerated recovery of deferred distribution costs. This accelerated recovery will benefit customers by shortening the deferral recovery period and by reducing the total carrying costs passed along to customers. This accelerated recovery charge will be in effect during the non-summer months through May 2011. However, because of the normal transition to lower non-summer rates, the average residential customer will experience a total bill decrease of about 4%.

When contacting a Certified Retail Electric Service Provider, please provide the customer numbers below.
Call The Illuminating Company at 1-800-589-3101 with questions on these charges.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TTY at 1-800-686-1570 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers' Counsel for assistance with complaints and utility issues at 1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.pickccc.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-686-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

For your safety and the safety of our crews, when using a generator follow the manufacturer's installation and operation instructions. Never connect a generator directly to your electrical system without an isolation device installed by an electrician. Otherwise, a fire could start or an employee restoring your power could be seriously injured. We suggest plugging lights/appliances in the outlets on the generator unit.

For a brochure describing your customer rights and obligations, please call our Customer Service phone number.

When contacting a Certified Retail Electric Service Provider, please provide the customer numbers below.
Call The Illuminating Company at 1-800-589-3101 with questions on these charges.

Definitions

Actual Reading - A reading we take from your electric meter.
Bypassable Generation and Transmission Related Component - Charges associated with the costs for purchased power and to deliver the power through the transmission system. These are the charges that a customer would avoid for that billing period if the customer switched to a Certified Retail Electric Service provider.
Cost Recovery Charges - Charges paid by all customers to recover previously incurred costs.
Customer Charge - The fixed monthly charge for basic distribution which partially covers costs for billing, meter reading, equipment, and service line maintenance.
Distribution Related Component - A charge (including taxes) for moving electricity over electric distribution lines to your home or business. Formerly, Delivery Charge.
Due Date - The date the bill must be paid by to avoid a late payment charge.
Economic Development Component - Charges paid by all customers to recover costs related to economic development support.
Estimated Reading - On the months we do not read your meter, we calculate your bill based on your past electrical use. If you

would like to read your own meter to avoid estimated bills, call us for meter reading cards or access our Web site listed below.
Kilowatt (KW) - 1,000 watts of electricity.
Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.
Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.
Price to Compare (PTC) - A certified retail electric service provider's price for generation and transmission must be lower than your price to compare for you to save money with that provider.
Residential Distribution Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all usage over 500 kWh during the winter billing period.
Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Important Information**Questions or Complaints**

To receive information about your Illuminating Company bill, various charges, rate schedules or for a written explanation of the Price to Compare:

Write: The Illuminating Company, 76 S. Main St., A-RPC, Akron, OH 44308-1890

Call Customer Services: 1-800-588-3101

(Monday - Friday, 8:00 a.m. - 6:00 p.m.)

Visit our Web site: www.firstenergycorp.com

You may be asked to provide:

Your phone number: 1-216-288-3343

Your account number: 11 00 29 8225 3 0

Your premise number: 1170100535

For Your Protection

All of our employees wear Photo I.D. badges.

Always ask for an employee's I.D. before letting anyone in your home. If you are still not sure, please call.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TTY at 1-800-686-1570 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers' Counsel for assistance with complaints and utility issues at 1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.pickoec.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-686-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

ELECTRONIC CHECK CONVERSION - When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8081.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

Definitions

Actual Reading - A reading we take from your electric meter.

Customer Charge - The fixed monthly charge for basic distribution which partially covers costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - A charge (including taxes) for moving electricity over electric distribution lines to your home or business. Formerly, Delivery Charge.

Due Date - The date the bill must be paid by to avoid a late payment charge.

Estimated Reading - On the months we do not read your meter, we calculate your bill based on your past electrical use. If you would like to read your own meter to avoid estimated bills, call us for meter reading cards or access the Web site listed below.

Generation Credit For Shopping - The credit you receive on your bill when you choose an alternate electric supplier.

Generation-Related Component - Charges associated with the production of electricity.

Kilovolt Amperes (KVA) - Volts times amperes divided by 1000. Actual measured power used for circuit sizing.

Kilowatt (KW) - 1,000 watts of electricity.

Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.

Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.

Price to Compare (PTC) - An alternative supplier's price for generation and transmission must be lower than your

price to compare for you to save money with that supplier.

Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Transmission-Related Component - The amount the utility or supplier charges for operating and maintaining the electric transmission system.

Important Information

Questions or Complaints

To receive information about your Illuminating Company bill, various charges, rate schedules or for a written explanation of the Price to Compare:

Write: The Illuminating Company, 76 S. Main St., A-RPC, Akron, OH 44308-1890

Call Customer Services: 1-800-589-3101

(Monday - Friday, 7:30 a.m. - 7:00 p.m.)

Visit our Web site: www.firstenergycorp.com

You may be asked to provide:

Your phone number: 1-216-288-3343

Your account number: 11 00 29 8225 3 0

Your premise number: 1170100535

For Your Protection

All of our employees wear Photo I.D. badges.

Always ask for an employee's I.D. before letting anyone in your home. If you are still not sure, please call.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TDD/TTY at 1-800-686-1570 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers'

Counsel for assistance with complaints and utility issues at 1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.pickccc.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-686-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

ELECTRONIC CHECK CONVERSION - When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8081.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

*****DISCONNECTION NOTICE*****

Your electric bill payment is past due. Your service may be disconnected unless payment of \$ 226.25 is made by 03/05/2009. If service is disconnected, you will be required to pay a reconnection fee of \$9.00 and may be required to pay a security deposit to have power restored. You may be eligible for the Percentage of Income Payment Plan or other extended payment plan. See enclosed information. Failure to pay charges for competitive retail electric service may also result in the cancellation of your contract with the competitive retail electric service provider and return you to The Illuminating Company's standard-offer generation service. The amount due does not include charges for nonratified products or services but may include charges for competitive retail electric service. Failure to pay charges for other nonratified products or services may result in loss of those products or services. This provision is applicable only on accounts issued a consolidated bill for electric service. The due date on this notice does not change the due date of any previous notice sent to you for a past due amount. If you have questions, or if you want a list of our authorized payment agent locations, please call us at 1-800-888-9901. You may also call this number for information about our medical certification program.

This month's bill reflects the Public Utilities Commission of Ohio's recent ruling authorizing a charge for increased purchased power expense.

Messages******* REMINDER NOTICE *******

When this bill was prepared, your account had an unpaid balance. If you have already made this payment, thank you. If not, please promptly pay the overdue amount. Call us if you have questions or for information on payment arrangements.

The Earned Income Tax Credit (EITC) is a tax credit for certain lower-income families and individuals. For information and to determine if you qualify, simply dial 1-800-829-1040 or visit www.irs.gov/individuals.

In response to the Public Utilities Commission of Ohio's March 3, 2010 order, effective March 17, 2010, qualifying residential customers will receive an additional 4.2 cent/kilowatt-hour (kWh) credit on all usage during the non-summer billing periods (Sept. - May), which is in addition to the existing 1.9 cent/kWh credit for all usage over 500 kWh each billing period during the non-summer billing periods. The new Residential Generation Credit will appear as a separate line item on your bill and is designed to provide bill impacts commensurate with rates that were in effect in December 2008. The utility will continue to provide this new credit even if you switch to an alternative generation supplier. The credit does not affect your Price to Compare. If you recently received a higher-than-expected bill and would like to make installment payments, please call us at 1-800-720-3600 to discuss available payment options.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TTY at 1-800-686-1570 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers' Counsel for assistance with complaints and utility issues at 1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.pickocc.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-686-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

ELECTRONIC CHECK CONVERSION - When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8081.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

Messages

The Earned Income Tax Credit (EITC) is a tax credit for certain lower-income families and individuals. For information and to determine if you qualify, simply dial 1-800-829-1040 or visit www.irs.gov/individuals.

The Transmission and Ancillary Service Charge, which recovers transmission costs related to mandates from the Federal Energy Regulatory Commission, has changed effective January 1, 2010. As a result, the amount of a standard residential customer's bill (using 750 kWh/month) will DECREASE by approximately 1.4% or \$1.37 per month.

Charges from The Illuminating Company this billing period

Price to Compare Message
Your current PRICE TO COMPARE for generation and transmission from The Illuminating Company is listed below. For you to save, a supplier's price must be lower. To obtain an "Apples to Apples" comparison of available competitive electric supplier offers, visit the PUCO web site at www.PUCO.ohio.gov .
Residential Service - 1720100512 4.96 cents per kWh

See other pages for additional information and telephone numbers

Definitions

Actual Reading - A reading we take from your electric meter.

Bypassable Generation and Transmission Related Component - Charges associated with the costs for purchased power and to deliver the power through the transmission system. These are the charges that a customer would avoid for that billing period if the customer switched to a Certified Retail Electric Service provider.

Cost Recovery Charges - Charges paid by all customers to recover previously incurred costs.

Customer Charge - The fixed monthly charge for basic distribution which partially covers costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - A charge (including taxes) for moving electricity over electric distribution lines to your home or business. Formerly, Delivery Charge.

Due Date - The date the bill must be paid by to avoid a late payment charge.

Economic Development Component - Charges paid by all customers to recover costs related to economic development support.

Estimated Reading - On the months we do not read your meter, we calculate your bill based on your past electrical use. If you

would like to read your own meter to avoid estimated bills, call us for meter reading cards or access our Web site listed below.

Kilowatt (KW) - 1,000 watts of electricity.

Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.

Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.

Price to Compare (PTC) - A certified retail electric service provider's price for generation and transmission must be lower than your price to compare for you to save money with that provider.

Residential Distribution Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all usage over 500 kWh during the winter billing period.

Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Important Information**Questions or Complaints**

To receive information about your Illuminating Company bill, various charges, rate schedules or for a written explanation of the Price to Compare:

Write: The Illuminating Company, 76 S. Main St., A-RPC, Akron, OH 44308-1890

Call Customer Services: 1-800-589-3101

(Monday - Friday, 8:00 a.m. - 6:00 p.m.)

Visit our Web site: www.firstenergycorp.com

You may be asked to provide:

Your phone number: 1-216-781-8510

Your account number: 11 00 22 2602 5 8

Your premise number: 1720100512

For Your Protection

All of our employees wear Photo I.D. badges.

Always ask for an employee's I.D. before letting anyone in your home. If you are still not sure, please call.

We welcome the opportunity to work with you and will try to answer your questions. ***** DISCONNECTION NOTICE *****

Your electric bill payment is past due. Your service may be disconnected unless payment of \$ 174.45 is made by 02/01/2010. If service is disconnected, you will be required to pay a reconnection fee of \$35.00 and may be required to pay a security deposit to have power restored. You may be eligible for the Percentage of Income Payment Plan or other extended payment plan. See enclosed information. Failure to pay charges for competitive retail electric service may also result in the cancellation of your contract with the competitive retail electric service provider and return you to The Illuminating Company's standard-offer generation service. The amount due does not include charges for nontariffed products or services but may include charges for competitive retail electric service. Failure to pay charges for other nontariffed products or services may result in loss of those products or services. This provision is applicable only on accounts issued a consolidated bill for electric service. The due date on this notice does not change the due date of any previous notice sent to you for a past due amount. If you have questions, or if you want a list of our authorized payment agent locations, please call us at 1-800-886-9901. You may also call this number for information about our medical certification program.

******* REMINDER NOTICE *******

When this bill was prepared, your account had an unpaid balance. If you have already made this payment, thank you. If not, please promptly pay the overdue amount. Call us if you have questions or for information on payment arrangements.

The Public Utilities Commission of Ohio has approved changes to the Company's Net Energy Metering Rider. Customers with on-site generation fueled by solar, wind, biomass, landfill gas or hydropower, or use a micro turbine or a fuel cell may request net metering as described in this rider, Sheet No. 93 of our tariff. Customers adding generating equipment connected to their home or business wiring must comply with the technical specifications referred to in Sheet No. 95 of our tariff, Interconnection Service. Copies of both of these tariff documents are available from our website at www.FirstEnergyCorp.com and by calling 1-800-589-3101.

As part of our Ohio Renewable Energy Credits (REC) Program, we'll be entering into agreements with residential customers to purchase RECs generated from customers' approved renewable energy projects, such as solar and wind projects. For more information, check the inserts in next month's bill or visit firstenergycorp.com and search on "Ohio Residential REC."

Looking for improved security? Replacing paper bills and statements with electronic versions allows you to reduce the flow of personal information from unsecured mailboxes, where it can be a target for theft. Visit www.firstenergycorp.com to learn more.

Effective September 1, 2009, the Distribution Related Component will change due to the approval for accelerated recovery of deferred distribution costs. This accelerated recovery will benefit customers by shortening the deferral recovery period and by reducing the total carrying costs passed along to customers. This accelerated recovery charge will be in effect during the non-summer months through May 2011. However, because of the normal transition to lower non-summer rates, the average residential customer will experience a total bill decrease of about 4%.

Charges from The Illuminating Company with this bill include:

For your safety and the safety of our crews, when using a generator follow the manufacturer's installation and operation instructions. Never connect a generator directly to your electrical system without an isolation device installed by an electrician. Otherwise, a fire could start or an employee restoring your power could be seriously injured. We suggest plugging lights/appliances in the outlets on the generator unit.

For a brochure describing your customer rights and obligations, please call our Customer Service phone number.

Looking for a safe and secure way to access and pay your bill online? Sign up for eBill Electronic Billing. For more information on this and our payment options, visit www.firstenergycorp.com

Pursuant to Ohio law, it is illegal for your electric meter and associated equipment to be tampered with to obtain unauthorized use of electricity. As specified in the Ohio Revised Code, persons found guilty of stealing electricity or tampering may be subject to jail sentences up to five years and fines up to \$10,000. Meter tampering is dangerous and could result in serious personal injury or damage to property. Ohio Law requires this message.

For your safety, if your service has been disconnected, do not attempt to reconnect it. While this is illegal and could result in prosecution, removing a meter base or touching any of the wires can also cause death or serious injury through arcs of electricity, explosions or fire. Meters are only to be accessed by authorized utility personnel. To have your service reconnected, please call us to make the necessary arrangements.

If termination of service would be especially dangerous to your health or the health of someone in your household, please contact our office regarding certification of the related medical condition by a licensed physician, physician's assistant, clinical nurse specialist, certified nurse practitioner, certified nurse-midwife or local board of health physician so that service can be maintained.

Time to clean off your desk? Go paperless with eBill Electronic Billing and enjoy the convenience of viewing your monthly electric bill online. Plus, we will send you an e-mail reminder when your bill is ready. Visit firstenergycorp.com to learn more.

Messages

Pursuant to Ohio Law, the Universal Service Fund rider rate has been adjusted effective with this bill.

REMINDER: Please pay the entire amount of your electric bill each month by the due date to avoid being assessed a late payment charge, which is equal to 1.5% of your total amount due.

The PUCO has approved changes to the Company's Interconnection Tariff. Customers adding generating equipment connected to their home or business wiring must comply with the technical specifications referred to in Sheet No.95, Interconnection Service. Customers with on-site generation fueled by solar, wind, biomass, landfill gas, or hydropower, or who use a micro turbine or a fuel cell may request net metering as described in Sheet No. 93, Net Energy Metering Rider. Copies of these documents are available at firstenergycorp.com.

THE ILLUMINATING COMPANY
PO. BOX 3638
AKRON OH 44309-3638

Definitions

Actual Reading - A reading we take from your electric meter.

Bypassable Generation and Transmission Related Component -

Charges associated with the costs for purchased power and to deliver the power through the transmission system. These are the charges that a customer would avoid for that billing period if the customer switched to a Certified Retail Electric Service provider.

Cost Recovery Charges - Charges paid by all customers to recover previously incurred costs.

Customer Charge - The fixed monthly charge for basic distribution which partially covers costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - A charge (including taxes) for moving electricity over electric distribution lines to your home or business. Formerly, Delivery Charge.

Due Date - The date the bill must be paid by to avoid a late payment charge.

Economic Development Component - Charges paid by all customers to recover costs related to economic development support.

Estimated Reading - On the months we do not read your meter, we calculate your bill based on your past electrical use. If you

would like to read your own meter to avoid estimated bills, call us for meter reading cards or access our Web site listed below.

Kilowatt (KW) - 1,000 watts of electricity.

Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.

Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.

Price to Compare (PTC) - A certified retail electric service provider's price for generation and transmission must be lower than your price to compare for you to save money with that provider.

Residential Distribution Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all usage over 500 kWh during the winter billing period.

Residential Generation Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all billing period usage during the winter billing period.

Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Important Information**Questions or Complaints**

To receive information about your **Illuminating Company** bill, various charges, rate schedules or for a written explanation of the Price to Compare:

Write: The Illuminating Company, 76 S. Main St., A-RPC, Akron, OH 44308-1890

Call Customer Services: 1-800-589-3101

(Monday - Friday, 8:00 a.m. - 6:00 p.m.)

Visit our Web site: www.firstenergycorp.com

You may be asked to provide:

Your phone number:

Your account number: 11 00 59 4467 1 3

Your premise number: 1650098433

For Your Protection

All of our employees wear Photo I.D. badges.

Always ask for an employee's I.D. before letting anyone in your home. If you are still not sure, please call.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TTY at 1-800-686-1570 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers' Counsel for assistance with complaints and utility issues at 1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.pickocc.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-686-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

ELECTRONIC CHECK CONVERSION - When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8081.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

Message

The Earned Income Tax Credit (EITC) is a tax credit for certain lower-income families and individuals. For information and to determine if you qualify, simply dial 1-800-829-1040 or visit www.irs.gov/individuals.

In response to the Public Utilities Commission of Ohio's March 3, 2010 order, effective March 17, 2010, qualifying residential customers will receive an additional 4.2 cent/kilowatt-hour (kWh) credit on all usage during the non-summer billing periods (Sept. - May), which is in addition to the existing 1.9 cent/kWh credit for all usage over 500 kWh each billing period during the non-summer billing periods. The new Residential Generation Credit will appear as a separate line item on your bill and is designed to provide bill impacts commensurate with rates that were in effect in December 2008. The utility will continue to provide this new credit even if you switch to an alternative generation supplier. The credit does not affect your Price to Compare. If you recently received a higher-than-expected bill and would like to make installment payments, please call us at 1-800-720-3600 to discuss available payment options.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

The Earned Income Tax Credit (EITC) is a tax credit for certain lower-income families and individuals. For information and to determine if you qualify, simply dial 1-800-829-1040 or visit www.irs.gov/individuals.

The Transmission and Ancillary Service Charge, which recovers transmission costs related to mandates from the Federal Energy Regulatory Commission, has changed effective January 1, 2010. As a result, the amount of a standard residential customer's bill (using 750 kWh/month) will DECREASE by approximately 1.4% or \$1.37 per month.

Definitions

Actual Reading - A reading we take from your electric meter.

Bypassable Generation and Transmission Related Component - Charges associated with the costs for purchased power and to deliver the power through the transmission system. These are the charges that a customer would avoid for that billing period if the customer switched to a Certified Retail Electric Service provider.

Cost Recovery Charges - Charges paid by all customers to recover previously incurred costs.

Customer Charge - The fixed monthly charge for basic distribution which partially covers costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - A charge (including taxes) for moving electricity over electric distribution lines to your home or business. Formerly, Delivery Charge.

Due Date - The date the bill must be paid by to avoid a late payment charge.

Economic Development Component - Charges paid by all customers to recover costs related to economic development support.

Estimated Reading - On the months we do not read your meter, we calculate your bill based on your past electrical use. If you

would like to read your own meter to avoid estimated bills, call us for meter reading cards or access our Web site listed below.

Kilowatt (KW) - 1,000 watts of electricity.

Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.

Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.

Price to Compare (PTC) - A certified retail electric service provider's price for generation and transmission must be lower than your price to compare for you to save money with that provider.

Residential Distribution Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all usage over 500 kWh during the winter billing period.

Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Important Information**Questions or Complaints**

To receive information about your Illuminating Company bill, various charges, rate schedules or for a written explanation of the Price to Compare:

Write: The Illuminating Company, 76 S. Main St., A-RPC, Akron, OH 44308-1890

Call Customer Services: 1-800-589-3161

(Monday - Friday, 8:00 a.m. - 6:00 p.m.)

Visit our Web site: www.firstenergycorp.com

You may be asked to provide:

Your phone number:

Your account number: 11 00 59 4467 1 3

Your premise number: 1650098433

For Your Protection

All of our employees wear Photo I.D. badges.

Always ask for an employee's I.D. before letting anyone in your home. If you are still not sure, please call.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TTY at 1-800-686-1570 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers' Counsel for assistance with complaints and utility issues at 1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.pickcoco.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-686-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

ELECTRONIC CHECK CONVERSION - When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8081.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

Messages

As a customer in the Equal Payment Plan program, your account has been reviewed and your payment amount adjusted to better match your actual usage. Starting next month, your payment amount will be \$118.00.

Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8081.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

The Public Utilities Commission of Ohio has approved changes to the Company's Net Energy Metering Rider. Customers with on-site generation fueled by solar, wind, biomass, landfill gas or hydropower, or use a micro turbine or a fuel cell may request net metering as described in this rider, Sheet No. 93 of our tariff. Customers adding generating equipment connected to their home or business wiring must comply with the technical specifications referred to in Sheet No. 95 of our tariff, Interconnection Service. Copies of both of these tariff documents are available from our website at www.FirstEnergyCorp.com and by calling 1-800-589-3101.

As part of our Ohio Renewable Energy Credits (REC) Program, we'll be entering into agreements with residential customers to purchase RECs generated from customers' approved renewable energy projects, such as solar and wind projects. For more information, check the inserts in next month's bill or visit firstenergycorp.com and search on "Ohio Residential REC."

Charges from The Illuminating Company this billing period

When contacting a Certified Retail Electric Service Provider, please provide the customer numbers below.

Call The Illuminating Company at 1-800-589-3101 with questions on these charges.

Definitions

Actual Reading - A reading we take from your electric meter.

Bypassable Generation and Transmission Related Component - Charges associated with the costs for purchased power and to deliver the power through the transmission system. These are the charges that a customer would avoid for that billing period if the customer switched to a Certified Retail Electric Service provider.

Cost Recovery Charges - Charges paid by all customers to recover previously incurred costs.

Customer Charge - The fixed monthly charge for basic distribution which partially covers costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - A charge (including taxes) for moving electricity over electric distribution lines to your home or business. Formerly, *Delivery Charge*.

Due Date - The date the bill must be paid by to avoid a late payment charge.

Economic Development Component - Charges paid by all customers to recover costs related to economic development support.

Estimated Reading - On the months we do not read your meter, we calculate your bill based on your past electrical use. If you

would like to read your own meter to avoid estimated bills, call us for meter reading cards or access our Web site listed below.

Kilowatt (KW) - 1,000 watts of electricity.

Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.

Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.

Price to Compare (PTC) - A certified retail electric service provider's price for generation and transmission must be lower than your price to compare for you to save money with that provider.

Residential Distribution Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all usage over 500 kWh during the winter billing period.

Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Important Information**Questions or Complaints**

To receive information about your Illuminating Company bill, various charges, rate schedules or for a written explanation of the Price to Compare:

Write: The Illuminating Company, 76 S. Main St., A-RPC, Akron, OH 44308-1890

Call Customer Services: 1-800-589-3101

(Monday - Friday, 8:00 a.m. - 6:00 p.m.)

Visit our Web site: www.firstenergycorp.com

You may be asked to provide:

Your phone number:

Your account number: 11 00 59 4467 1 3

Your premise number: 1650098433

For Your Protection

All of our employees wear Photo I.D. badges.

Always ask for an employee's I.D. before letting anyone in your home. If you are still not sure, please call.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TTY at 1-800-686-1570 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers' Counsel for assistance with complaints and utility issues at 1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.pickocc.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-686-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

ELECTRONIC CHECK CONVERSION - When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8081.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

If termination of service would be especially dangerous to your health or the health of someone in your household, please contact our office regarding certification of the related medical condition by a licensed physician, physician's assistant, clinical nurse specialist, certified nurse practitioner, certified nurse-midwife or local board of health physician so that service can be maintained.

Charges from The Illuminating Company will be billed

To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

Effective September 1, 2009, the Distribution Related Component will change due to the approval for accelerated recovery of deferred distribution costs. This accelerated recovery will benefit customers by shortening the deferral recovery period and by reducing the total carrying costs passed along to customers. This accelerated recovery charge will be in effect during the non-summer months through May 2011. However, because of the normal transition to lower non-summer rates, the average residential customer will experience a total bill decrease of about 4%.

Definitions

Actual Reading - A reading we take from your electric meter.

Bypassable Generation and Transmission Related Component - Charges associated with the costs for purchased power and to deliver the power through the transmission system. These are the charges that a customer would avoid for that billing period if the customer switched to a Certified Retail Electric Service provider.

Cost Recovery Charges - Charges paid by all customers to recover previously incurred costs.

Customer Charge - The fixed monthly charge for basic distribution which partially covers costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - A charge (including taxes) for moving electricity over electric distribution lines to your home or business. Formerly, Delivery Charge.

Due Date - The date the bill must be paid by to avoid a late payment charge.

Economic Development Component - Charges paid by all customers to recover costs related to economic development support.

Estimated Reading - On the months we do not read your meter, we calculate your bill based on your past electrical use. If you

would like to read your own meter to avoid estimated bills, call us for meter reading cards or access our Web site listed below.

Kilowatt (KW) - 1,000 watts of electricity.

Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.

Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.

Price to Compare (PTC) - A certified retail electric service provider's price for generation and transmission must be lower than your price to compare for you to save money with that provider.

Residential Distribution Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all usage over 500 kWh during the winter billing period.

Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Important Information**Questions or Complaints**

To receive information about your Illuminating Company bill, various charges, rate schedules or for a written explanation of the Price to Compare:

Write: The Illuminating Company, 76 S. Main St., A-RPC, Akron, OH 44308-1890

Call Customer Services: 1-800-589-3101

(Monday - Friday, 8:00 a.m. - 6:00 p.m.)

Visit our Web site: www.firstenergycorp.com

You may be asked to provide:

Your phone number:

Your account number: 11 00 59 4467 1 3

Your premise number: 1650098433

For Your Protection

All of our employees wear Photo I.D. badges.

Always ask for an employee's I.D. before letting anyone in your home. If you are still not sure, please call.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TTY at 1-800-686-1570 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers'

Counsel for assistance with complaints and utility issues at

1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.pickocc.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-686-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

ELECTRONIC CHECK CONVERSION - When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8081.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

This is your last bill of the current budget season. The Amount Due on this bill is the amount that will bring your account balance to zero before the new budget season begins.

Starting next month, your Equal Payment Plan amount due will be \$93.00. During the budget season, this amount will be reviewed quarterly and adjusted if necessary.

For your safety and the safety of our crews, when using a generator follow the manufacturer's installation and operation instructions. Never connect a generator directly to your electrical system without an isolation device installed by an electrician. Otherwise, a fire could start or an employee restoring your power could be seriously injured. We suggest plugging lights/appliances in the outlets on the generator unit.

For a brochure describing your customer rights and obligations, please call our Customer Service phone number.

When contacting a Certified Retail Electric Service Provider, please provide the customer numbers below.

Call The Illuminating Company at 1-800-589-3101 with questions on these charges.

To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

Pursuant to Ohio law, it is illegal for your electric meter and associated equipment to be tampered with to obtain unauthorized use of electricity. As specified in the Ohio Revised Code, persons found guilty of stealing electricity or tampering may be subject to jail sentences up to five years and fines up to \$10,000. Meter tampering is dangerous and could result in serious personal injury or damage to property. Ohio Law requires this message.

For your safety, if your service has been disconnected, do not attempt to reconnect it. While this is illegal and could result in prosecution, removing a meter base or touching any of the wires can also cause death or serious injury through arcs of electricity, explosions or fire. Meters are only to be accessed by authorized utility personnel. To have your service reconnected, please call us to make the necessary arrangements.

If termination of service would be especially dangerous to your health or the health of someone in your household, please contact our office regarding certification of the related medical condition by a licensed physician, physician's assistant, clinical nurse specialist, certified nurse practitioner, certified nurse-midwife or local board of health physician so that service can be maintained.

Kilovolt Amperes (KVA) - Volts times amperes divided by 1000. Actual measured power used for circuit sizing.

Kilowatt (KW) - 1,000 watts of electricity.

Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.

Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.

Price to Compare (PTC) - An alternative supplier's price for generation and transmission must be lower than your price to compare for you to save money with that supplier.

Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Transmission-Related Component - The amount the utility or supplier charges for operating and maintaining the electric transmission system.

Important Information

Questions or Complaints

To receive information about your Illuminating Company bill, various charges, rate schedules or for a written explanation of the Price to Compare:

Write: The Illuminating Company, 76 S. Main St., A-RPC, Akron, OH 44308-1890

Call Customer Services: 1-800-588-3101

(Monday - Friday, 7:30 a.m. - 7:00 p.m.)

Visit our Web site: www.firstenergycorp.com

You may be asked to provide:

Your phone number:

Your account number: 11 00 59 4467 1 3

Your premise number: 1650098433

For Your Protection

All of our employees wear Photo I.D. badges.

Always ask for an employee's I.D. before letting anyone in your home. If you are still not sure, please call.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TDD/TTY at 1-800-686-1570 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers' Counsel for assistance with complaints and utility issues at 1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.pickoc.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-686-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

ELECTRONIC CHECK CONVERSION - When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8081.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.

As a customer in the Equal Payment Plan program, your account has been reviewed and your payment amount adjusted to better match your actual usage. Starting next month, your payment amount will be \$153.00.

Spring's warm weather often produces thunderstorms, which can cause service interruption. Please stay away from downed power lines. If you see one, please call us.

When contacting an Alternate Electric Supplier, please provide the customer numbers below.

Call The Illuminating Company at 1-800-589-3101 with questions on these charges.

Definitions

Actual Reading - A reading we take from your electric meter.

ypassable Generation and Transmission Related Component - Charges associated with the costs for purchased power and to deliver the power through the transmission system. These are the charges that a customer would avoid for that billing period if the customer switched to a Certified Retail Electric Service provider.

Cost Recovery Charges - Charges paid by all customers to recover previously incurred costs.

Customer Charge - The fixed monthly charge for basic distribution which partially covers costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - A charge (including taxes) for moving electricity over electric distribution lines to your home or business. Formerly, Delivery Charge.

Due Date - The date the bill must be paid by to avoid a late payment charge.

Economic Development Component - Charges paid by all customers to recover costs related to economic development support.

Estimated Reading - On the months we do not read your meter, we calculate your bill based on your past electrical use. If you

would like to read your own meter to avoid estimated bills, call us for meter reading cards or access our Web site listed below.

Kilowatt (KW) - 1,000 watts of electricity.

Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.

Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.

Price to Compare (PTC) - A certified retail electric service provider's price for generation and transmission must be lower than your price to compare for you to save money with that provider.

Residential Distribution Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all usage over 500 kWh during the winter billing period.

Residential Generation Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all billing period usage during the winter billing period.

Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Messages

The Earned Income Tax Credit (EITC) is a tax credit for certain lower-income families and individuals. For information and to determine if you qualify, simply dial 1-800-829-1040 or visit www.irs.gov/individuals.

In response to the Public Utilities Commission of Ohio's March 3, 2010 order, effective March 17, 2010, qualifying residential customers will receive an additional 4.2 cent/kilowatt-hour (kWh) credit on all usage during the non-summer billing periods (Sept. - May), which is in addition to the existing 1.9 cent/kWh credit for all usage over 500 kWh each billing period during the non-summer billing periods. The new Residential Generation Credit will appear as a separate line item on your bill and is designed to provide bill impacts commensurate with rates that were in effect in December 2008. The utility will continue to provide this new credit even if you switch to an alternative generation supplier. The credit does not affect your Price to Compare. If you recently received a higher-than-expected bill and would like to make installment payments, please call us at 1-800-720-3600 to discuss available payment options.

The Earned Income Tax Credit (EITC) is a tax credit for certain lower-income families and individuals. For information and to determine if you qualify, simply dial 1-800-829-1040 or visit www.irs.gov/individuals.

The Transmission and Ancillary Service Charge, which recovers transmission costs related to mandates from the Federal Energy Regulatory Commission, has changed effective January 1, 2010. As a result, the amount of a standard residential customer's bill (using 750 kWh/month) will DECREASE by approximately 1.4% or \$1.37 per month.

Definitions

Actual Reading - A reading we take from your electric meter.

Unrecoverable Generation and Transmission Related Component - Charges associated with the costs for purchased power and to deliver the power through the transmission system. These are the charges that a customer would avoid for that billing period if the customer switched to a Certified Retail Electric Service provider.

Cost Recovery Charges - Charges paid by all customers to recover previously incurred costs.

Customer Charge - The fixed monthly charge for basic distribution which partially covers costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - A charge (including taxes) for moving electricity over electric distribution lines to your home or business. Formerly, Delivery Charge.

Due Date - The date the bill must be paid by to avoid a late payment charge.

Economic Development Component - Charges paid by all customers to recover costs related to economic development support.

Estimated Reading - On the months we do not read your meter, we calculate your bill based on your past electrical use. If you

would like to read your own meter to avoid estimated bills, call us for meter reading cards or access our Web site listed below.

Kilowatt (KW) - 1,000 watts of electricity.

Kilowatt-hour (kWh) - The unit of measure for the electricity you use over time. For example, you use one kilowatt-hour of electricity to light a 100-watt light bulb for ten hours.

Late Payment Charge - A late charge added to the overdue amount if you do not pay your bill by the due date.

Price to Compare (PTC) - A certified retail electric service provider's price for generation and transmission must be lower than your price to compare for you to save money with that provider.

Residential Distribution Credit - A credit for customers billed on a qualifying rate (as of 4/30/09), applied to all usage over 500 kWh during the winter billing period.

Transition Charge - This charge provides for the recovery of a portion of the investment made in the electric system prior to deregulation and costs incurred related to the transition to full electric generation competition.

Important Information**Questions or Complaints**

To receive information about your Illuminating Company bill, various charges, rate schedules or for a written explanation of the Price to Compare:

Write: The Illuminating Company, 76 S. Main St., A-RPC, Akron, OH 44308-1890

Toll Customer Services: 1-800-589-3101

(Monday - Friday, 8:00 a.m. - 6:00 p.m.)

Visit our Web site: www.firstenergycorp.com

You may be asked to provide:

Your phone number: 1-216-633-7127

Your account number: 11 00 58 2283 6 9

Your premise number: 1610098517

For Your Protection

All of our employees wear Photo I.D. badges.

Always ask for an employee's I.D. before letting anyone in our home. If you are still not sure, please call.

We welcome the opportunity to work with you and will try to answer your questions. If your complaint is not resolved after you have called your electric supplier and/or The Illuminating Company, or for general utility information, residential and business customers may call the Public Utilities Commission of Ohio for assistance at 1-800-686-7826 (toll free), or for TTY at 1-800-688-1670 (toll free), from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.

Residential customers may also contact the Ohio Consumers' Counsel for assistance with complaints and utility issues at 1-877-742-5622 (toll free) from 8:00 a.m. to 5:00 p.m. weekdays, or at www.pickocc.org.

Energy Assistance: Contact HEAP at 1-800-282-0880 (TDD/TTY 1-800-886-1557) Monday - Friday between 8:00 a.m. and 5:00 p.m.

ELECTRONIC CHECK CONVERSION - When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. Funds may be withdrawn from your account as soon as the same day we receive your payment and your check will not be returned from your financial institution. If you have questions about this program, or if you do not wish to participate, call 1-866-283-8061.

Our representatives can answer your questions, describe the charges on your bill, explain how to make sure your bill is correct, and provide information on rate schedules and energy efficiency. To learn more about The Illuminating Company's customer services, visit our Web site at www.firstenergycorp.com.
