INVESTIGATION AND AUDIT DIVISION
PUBLIC UTILITIES COMMISSION OF OHIO

I am 64 years old and I bought and had built my all-electric home in 1997. I made the decision to live in an all-electric home based on the promise of a discounted rate that makes it affordable to heat/cool with 100 per cent electric. I had no reason to believe the all-electric rate could significantly increase since it was in place since the 1960s. I made plans to live the rest of my life "knowing" I could afford my electric bill.

In your work as a P.U.C.O., please keep in mind that First Energy has three advantages that I don't have. First Energy has money, people and the capacity to innovate. I have myself, my retirement income and my house that is no longer marketable.

If you fail to hold First Energy
accountable for its verbal and written
promises, thousands of senior citizens will
become financially vulnerable and unable
to maintain their independence.

Please help us.

Sincerely,

Kathleen Davidson
