ie: All Electric Home Discount

1D-176-EL-ATA

Dear PUCO,

As a senior citizen in this ever changing economy, the stressful situations we have been put into, have been devastating. Many things are out of our hands, but the issue of increased electric utility rates by losing the "All Electric Home Discount" is unconscionable.

We were advised by the sales staff here at Columbia Park, a manufactured home community for 55 and older, when we bought our homes, that we will be receiving the "All Electric Home Discount". That discount has been in existence for over four decades. We can not afford to lose it. Many neighbors have had to leave Columbia Park due to uncontrollable financial circumstances.

As seniors we are not part of the greedy generation, we are only attempting to survive as we move forward in our lives since we moved to Columbia Park, sometimes referred to as "God's waiting room".

You have heard many stories over the last ten months or so about this issue. PUCO, please . . . we need you to consider us in your decision and need to have this "All Electric Home Discount" permanent.

Thank you,

Name Mary A. Stieglmeyer Date 1-14-11
Address 73 Periwinkle Ln.
City Obledo Twp. State Ohio Zip 44138

Additional comments The top caption above is
really true. I am on a fixed income
as well. My home is an All Electric
home, indeed the Discount, too.
I know everything is raising in prices
Food, Insurance, Rent, that's descrip-
tions, Our Social Security is not raising,
I am on a budget. I rarely make
unnecessary bills. I deny myself of
extra things I need.

Subject: Electric Rates

Dear PUCO Commissioners,

When I acquired my all-electric home in 2005 at the age of 65, I was unaware the electric rate was temporary.

Now I am very concerned that 3/4 of my Social Security check will go to the electric company if the discounted rate ends.

I urge you to please help permanently reinstate the all-electric discount so I can continue to live comfortably in my home.

Sincerely,

January 10, 2011

Dear Valerie Lemmie, Paul Centolella, Cheryl Roberto and Steven Lesser,

I am 66 years old and I built my all-electric home in 2001. I made the decision to live in an all electric home based on the promise of a discounted rate that makes it affordable to heat/cool with 100 percent electric. I had never before heated or cooled with this type of heat, but with the promise of the discounted rate for the duration of my ownership of the home, I went ahead with the purchase. I had no reason to believe the all-electric rate could be significantly increased because it has been in place since the 1960's. I made plans to live the rest of my life "knowing" I could afford my electric bill.

In your work as a Public Utilities Commissioner, please keep in mind that FirstEnergy has three advantages that I don't have. FirstEnergy has money, people and the capacity to innovate. I have myself, my retirement income and my house that is no longer marketable.

If you fail to hold FirstEnergy accountable for its verbal and written promises, thousands of senior citizens will become financially vulnerable and unable to maintain their independence. My wife and myself hope that we will be able to continue to afford to live in our home as a result of your decision.

Sincerely,

Douglas Reppert

Hunter, Donielle

From: Lloyd Amster [lma313@gmail.com]
Sent: Sunday, January 16, 2011 11:23 PM
To: Docketing
Subject: Case No. 10-176-ET-ATA the All-Electric Home Discount

I own an all electric home and am writing to support reinstating the discount: Case No. 10-176-EL-ATA.

The following need to be done as a permanent solution regarding the all-electric home discount:

1. A permanent, all-electric rate differential on generation and distribution charges for nine months of the year for all-electric heating, load management, and water heating customers that stays with the property upon transfer to a new owner, including homes, apartments, and condos. The rate differential should be equivalent to the pre-2007 declining block structure.
2. The rate differential should be given to EVERY property, even those currently excluded because they were built or converted to all-electric after Jan 1, 2007.
3. Overcharges made by FirstEnergy between May 2009 and May 2010 should be refunded in full.
4. FirstEnergy must NOT raise the rates of other ratepayers, but rather absorb the cost of this program which benefited FirstEnergy for the last 30 years. FirstEnergy made verbal and written promises to owners and builders alike to entice them to go all-electric, and they must not be allowed to break these promises and charge others for their breach of contract!

At the end of 2009 I owed a difference of \$500. My first bill in January, 2010 I owed a difference of \$300. In one month I owed a difference that was 60% of the entire previous 12 months.

You need to make them permanently re-instate the all electric discount and repay every penny of the money they received by renegeing on contracts and promises they made.

Sincerely,
Lloyd Amster
