ie: All Electric Home Discount

Dear PUCO,

As a senior citizen in this ever changing economy, the stressful situations we have been put into, have been devastating. Many things are out of our hands, but the issue of increased electric utility rates by losing the "All Electric Home Discount" is unconscionable.

We were advised by the sales staff here at Columbia Park, a manufactured home community for 55 and older, when we bought our homes, that we will be receiving the "All Electric Home Discount". That discount has been in existence for over four decades. We can not afford to lose it. Many neighbors have had to leave Columbia Park due to uncontrollable financial circumstances.

As seniors we are not part of the greedy generation, we are only attempting to survive as we move forward in our lives since we moved to Columbia Park, sometimes referred to as "God's waiting room".

You have heard many stories over the last ten months or so about this issue. PUCO, please . . . we need you to consider us in your decision and need to have this "All Electric Home Discount" permanent.

Thank you,

Additional comments This year I will be 85 & I have never used anything other than all Electric. I have a hard time keeping up with prescription medicine, billos, food. at this time of my life I am happy to be in a community where I can live out the rest of my life safe & happy. Please let us keep the all electric discount. I do not want to have to give up my home & friends that is all I have left now. Thank you.

I'm going to be 85 this year. On a fixed income. My bill is high enough on all electric 170⁰⁰ to 210⁰⁰ per mo in winter. If any higher I will have to give up food and medicine.

I've lived here for 22 years knowing I had the all-electric rates.

At our park and ages to all the most are needs are. Hope you can keep us comfortable the rest of days.

P.S. *Thanks and God Bless. I don't have a computer or cell or etc. Oven used only at X-mas.*

Additional comments When we moved into our all electric home in 1989 we were told about the discount, it was great! Now in the last year or so we are having problems with our large bill. My wife is having more health problems & our insurance is no longer paying ^{ALL OUR} bills, so we are in a bind with our money! So please give us back our discount!

I am over a year without my electric bill,
I have my microwave, stove, radio, and
air conditioning plugged in but no use. Can't
do that much. I have a refrigerator and furnace.
I am living in many ways to pay the bills.
The All Electric Home Discount needs to be
continued permanently to help all who are
struggling to pay their bills. Please
think of us in your decision making.

Dear Steven Lesser,

I am an 80 year old widow.
When I first became interested in
this home — I questioned the
cost of living in an all electric
home, I was told that I would
receive a special electric rate
because of using all electric.

Now I am worried, very worried
that I will not be able to
stay here if that rate promise
is broken.

Please, please hold First
Energy to their promise of
lower rates for all electric
homes.

Let us senior citizens relax
a little and enjoy our few
remaining years in our
homes.

Sincerely,
Donna J. Hub

Subject: Case No. 10-176-ET-ATA the All-Electric Home Discount

I own an all electric home and am writing to support reinstating the discount: Case No. 10-176-EL-ATA.

The following need to be done as a permanent solution regarding the all-electric home discount:

1. A permanent, all-electric rate differential on generation and distribution charges for nine months of the year for all-electric heating, load management, and water heating customers that stays with the property upon transfer to a new owner, including homes, apartments, and condos. The rate differential should be equivalent to the pre-2007 declining block structure.
2. The rate differential should be given to EVERY property, even those currently excluded because they were built or converted to all-electric after Jan 1, 2007.
3. Overcharges made by FirstEnergy between May 2009 and May 2010 should be refunded in full.
4. FirstEnergy must NOT raise the rates of other ratepayers, but rather absorb the cost of this program which benefited FirstEnergy for the last 30 years. FirstEnergy made verbal and written promises to owners and builders alike to entice them to go all-electric, and they must not be allowed to break these promises and charge others for their breach of contract!

At the end of 2009 I owed a difference of \$500. My first bill in January, 2010 I owed a difference of \$300. In one month I owed a difference that was 60% of the entire previous 12 months.

You need to make them permanently re-instate the all electric discount and repay every penny of the money they received by renegeing on contracts and promises they made.

Sincerely,
Lloyd Amster
