From: Sue Daugherty, Director

Subject: Keep the All-Electric Discount

I am attaching a letter from one of your constituents, an 82 year old electrician (retired) who is feeling very threatened by the issue before the PUCO that could result in First Energy not honoring its all-electric discount as First Energy used in its marketing practices.

Our agency is a geriatric social service. We advocate for older people of Erie County and their ability to maintain their independence. Lack of money is the root of all vulnerability. Vulnerable senior citizens lose their ability to maintain their independence. **Don't let First Energy create a vulnerable population.**

Please use your influence as a PUCO Commissioner to see that First Energy honors its words that it used when it solicited individuals and developers to rely solely on electric as its source of energy. **Quite simply, it's the right thing to do!**

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.

Dear Sir.

I do hope you can get
the POCO to uphold the
all Electric discount you
was promised.

I am 82 years old and I
built my all electric home
about thirty eight years ago

I have been a electrician
all my life. it is not
the cheap way to go but
it is clean quiet and very
nice. no smoke or smell
of gas. 100% safer than
gas, oil. I can see no
other that can be better
than electric.

my house would also
no longer (marketable)
Sincerely

David F. Fletcher Sr.
