Dear Ms. Jenkins:

On January 27, 2011, the Commission clarified its intent concerning the distribution of the SEET credit ordered in the 10-1261-EL-UNC docket. The Commission clarified that reasonable arrangement customers who receive service under a discount rate supported by delta revenue recovery are not entitled to both the discount rate and a SEET credit.

Enclosed as Attachment A is a copy of Columbus Southern Power Company's compliance tariffs, which are being electronically filed in accordance with the Commission Opinion and Order dated January 11, 2011 in Case No. 10-1261-EL-UNC as clarified on January 27, 2011. These tariffs implement the Commission-ordered refund, are effective immediately for billing in the first cycle of February 2011 and are scheduled to expire with the last billing cycle of December 2011. Any necessary over/under reconciliation will be addressed in the subsequent fuel adjustment clause.

Please file a copy of Columbus Southern Power Company's tariff filing in Case No. 89-6003-EL-TRF. One copy of Columbus Southern Power Company's tariff filing should also be placed in Case No. 10-1261-EL-UNC. Please also distribute two copies of this filing to the Rates and Tariffs, Energy and Water Division of the Commission's Utilities Department. The Company will update its tariffs previously filed electronically with the Commission's Docketing Division.

Also enclosed as Attachment B is a schedule that reflects the supporting calculations for the new rider rate.

Sincerely,

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.
