

Case No.: 11-1303-EL-REN

**A. Name of Renewable Generating Facility:** Shady Maple Farm Market, Inc.

*The name specified will appear on the facility's certificate of eligibility issued by the Public Utilities Commission of Ohio.*

**Facility Location**

Street Address: 1324 Main Street

City: East Earl      State: PA      Zip Code: 17519

**Facility Latitude and Longitude**

Latitude: 40° 7'7.68"N      Longitude: 76° 2'4.20"W

*There are internet mapping tools available to determine the latitude and longitude, if you do not have this information.*

*If applicable, U.S. Department of Energy, Energy Information Administration Form EIA-860 Plant Name and Plant Code.*

EIA-860 Plant Name:

EIA Plant Code:

**B. Legal Name of the Facility Owner**

*Please note that the facility owner name listed will be the name that appears on the certificate. The address provided in this section is where the certificate will be sent.*

*If the facility has multiple owners, please provide the following information for each on additional sheets.*

---

**Legal Name of the Facility Owner:** Weaver Realty Company II, LP

Legal Name of Facility Owner Representative (First Name, MI, Last Name): Glenn A.

Weaver, Jr.

Title: Controller

Organization: Shady Maple Companies

Street Address: 1324 Main Street

City: East Earl      State: PA      Zip Code: 17519

Phone: 717-354-4981      Fax: 717-354-4982

Email Address: gweaver@shady-maple.com

Web Site Address: www.shady-maple.com

---

**C. List the name, address, telephone number and web site address under which the Applicant will do business in Ohio.**

Legal Name of Facility Owner Representative (First Name, MI, Last Name): Glenn A. Weaver, Jr.

Title: Controller

Organization: Shady Maple Companies

Street Address: 1324 Main Street

City: East Earl State: PA Zip Code: 17519

Phone: 717-354-4981 Fax: 717-354-4982

Email Address: gweaver@shady-maple.com

Web Site Address: www.shady-maple.com

**D. Name of Generation Facility Operating Company:**

Name of Generation Facility Operating Company: Shady Maple Farm Market, Inc.

Legal Name of Contact Person (First Name, MI, Last Name): Glenn A. Weaver, Jr.

Title: Controller

Organization: Shady Maple Companies

Street Address: 1324 Main Street

City: East Earl State: PA Zip Code: 17519

Phone: 717-354-4981 Fax: 717-354-4982 Email Address: gweaver@shady-maple.com

Web Site Address (if applicable): www.shady-maple.com

---

**E. Regulatory/Emergency contact**

Legal Name of Contact Person (First Name, MI, Last Name):Mike Kohr

Title: Project Manager - PV Installer

Organization: Meadow Valley Electric, Inc.

Street Address: 2010 W. Main Street

City: Ephrata State: PA Zip Code: 17522

Phone: 717-738-2451 Fax: 717-738-7346

Email Address: mikek@mvegroup.com

Web Site Address: www.mvegroup.com

## **F. Certification Criteria 1: Deliverability of the Generation into Ohio**

Ohio Revised Code (ORC) Sec. 4928.64(B)(3)

*The facility must have an interconnection with an electric utility.*

Check which of the following applies to the facility's location:

No The facility is located in Ohio.

Yes The facility is located in a state geographically contiguous to Ohio (Indiana, Kentucky, Michigan, Pennsylvania, or West Virginia).

No The facility is located in the following state:

*If the renewable energy resource generation facility is not located in Ohio, Indiana, Kentucky, Michigan, Pennsylvania, or West Virginia, you are required to submit a study by one of the regional transmission organizations (RTO) operating in Ohio, either PJM or Midwest ISO, demonstrating that the power from the facility is physically deliverable into the state of Ohio. The study may be conducted by someone other than the RTO provided that the RTO approves the study. This study must be appended to the application as an exhibit.*

## **G. Certification Criteria 2: Qualified Resource or Technology**

*You should provide information for only one resource or technology on this application; please check and/or fill out only one of the sections below. If you are applying for more than one resource or technology, you will need to complete a separate application for each resource or technology.*

**G.1.** For the resource or technology you identify in Sections G.4 - G.13 below, please provide a written description of the system.

Shady Maple -Truck Garage

Customer Name: Shady Maple (Contact Glenn Weaver)

Phone:717-354-4981 X:789

Address:1324 Main Street East Earl, PA 17519

Email:gweaver@shady-maple.com

Installer: Meadow Valley Electric, Inc.

Total PV Capacity (DC - KW):88.595

Anticipated Annual Output (MWh/yr): 95.583

Annual Shading Impact %:100

Location of solar system (roof, ground, other): Roof

Module Manufacturer: Trina

Model and Rating:TSM-235 PA05

Inverter Manufacturer: Satcon

Model Name and Number: PVS-75

# of Modules: (377)

# of Inverters: (1)

Grid-Tied (y/n): Y Battery Backup (y/n):N

Array Orientation (South=180):175.1 PV Array Tilt (degrees):5

Utility Grade Meter Manufacturer and Make: E-mon #208200R KIT

Utility Grade Meter Serial Number (if installed):11011981

System start Date: 2/7/2011

Current Utility Co.: PP&L

Sunshine PSP Number: N/A

**G.2.** Please include a detailed description of how the output of the facility is going to be measured and verified, including the configuration of the meter(s) and the meter type(s).

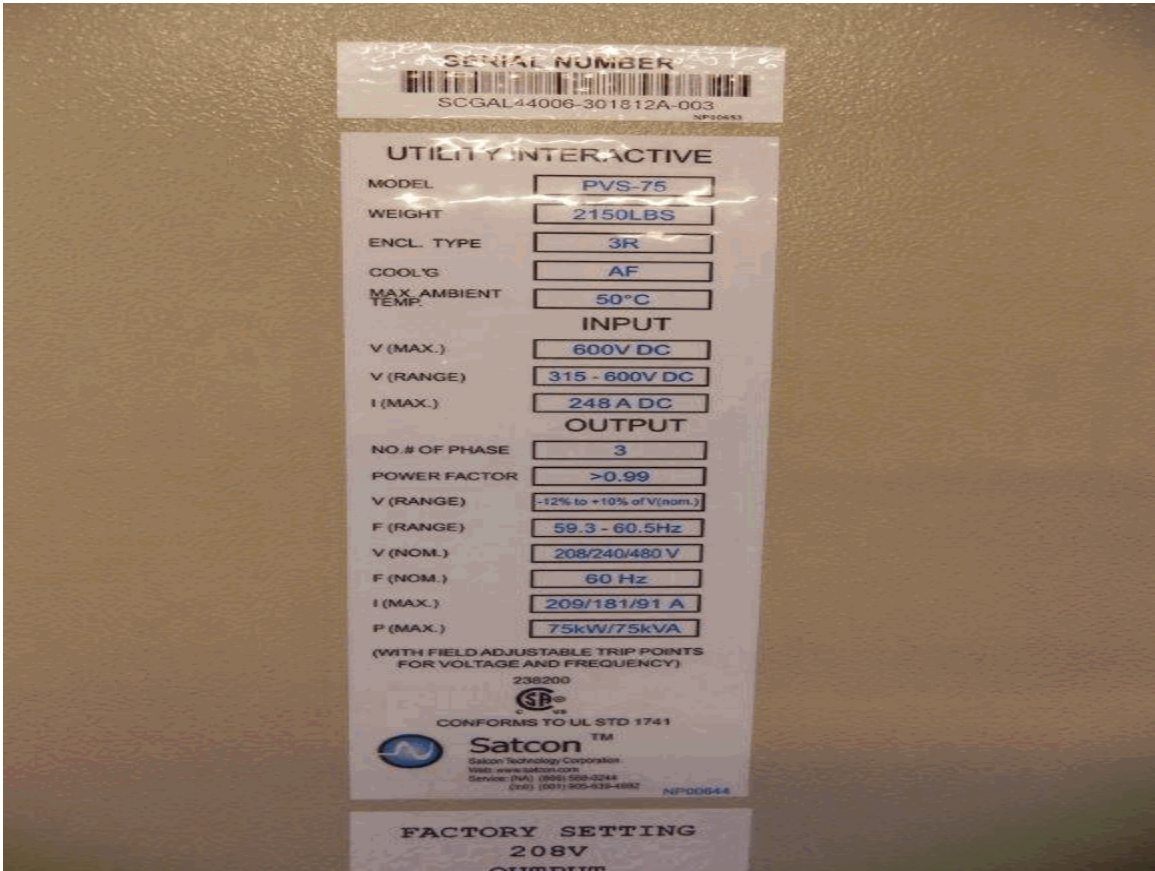

See G1 above for detailed information on the PV system, as provided by our PV Installer, Meadow Valley Electric, Inc. The solar PV system kwh output will be measured via an E-Mon D-Mon meter which is "revenue grade" for accuracy and certified to IEEE/ANSI C12.20, C12.1, and C12.16 National accuracy standards. The Accuracy is +/- 1% from 1% to 100% of the rated load. They are also approved by the CEC (California Energy Commission) and New York City for RSP program. They are UL/CUL and CSA approved.

**G.3.** Please submit digital photographs that depict an accurate characterization of the renewable generating facility. Please indicate the date(s) the photographs were taken. For existing facilities, these photographs must be submitted for your application to be reviewed. For proposed facilities or those under construction, photographs will be required to be filed within 30 days of the on-line date of the facility.

February 07, 2011

February 07, 2011

**The Applicant is applying for certification in Ohio for a facility using one of the following qualified resources or technologies (Sec. 4928.01 ORC):**

**G.4 \_\_ SOLAR PHOTOVOLTAIC**

**G.4a** Total PV Capacity (DC): 88.5950

**G.4b** Total PV Capacity (AC): 75.0000

**G.4c** Expected Capacity Factor: 1.0789

*Capacity factor is the ratio of the energy produced to the maximum possible at full power, over a given time period. Capacity factor may be calculated using this formula:*

*Projected annual gross generation (kWh or MWh) **divided by** [the nameplate capacity (in kW or MW) times 8760]*

**G.4d** Anticipated annual output in kWh/yr: 95,583.0000

**G.4e** Location of the PV array: Yes Roof No Ground No Other  
Description:

**G.4f** Total number of Modules and/or size of the array: 377

**G.4.1 PV Modules**

For each PV module, provide the following information:

**G.4.1.a** Manufacturer: Trina

**G.4.1.b** Model and Rating: TSM-235PA05

**H. Certification Criteria 3: Placed-in-Service Date** (Sec. 4928.64. (A)(1) O.R.C.)

The Renewable Energy Facility:

No has a placed-in-service date before January 1, 1998; (month/day/year):

Yes has a placed-in-service date on or after January 1, 1998; (month/day/year): 2/7/11

No has been modified or retrofitted on or after January 1, 1998; (month/day/year):

Please provide a detailed description of the modifications or retrofits made to the facility that rendered it eligible for consideration as a qualified renewable energy resource. In your description, please include the date of initial operation and the date of modification or retrofit to use a qualified renewable resource. Please include this description as an exhibit attached to your application filing and identify the subject matter in the heading of the exhibit.

No Not yet online; projected in-service date (month/day/year):

**H.1** Is the renewable energy facility owner a mercantile customer? No

ORC Sec. 4928.01 (19) "Mercantile customer" means a commercial or industrial customer if the electricity consumed is for nonresidential use and the customer consumes more than seven hundred thousand kilowatt hours per year or is part of a national account involving multiple facilities in one or more states.

Has the mercantile customer facility owner committed to integrate the resource under the provisions of Rule 4901:1-39-08 O.A.C? No

If yes, please insert/submit a copy of your approved application as an exhibit to this filing.

## I. Facility Information

**I.a** The nameplate capacity of the entire facility in megawatts (MW): 0.0886

**I.b** If applicable, what is the expected heat rate of resource used per kWh of net generation:  
BTU/kWh

**I.1** For each generating unit, provide the following information:

<u>Unit In-Service</u> <u>Date</u>	<u>Unit Nameplate</u> <u>Capacity (MW)</u>	<u>Projected Gross</u> <u>Annual Generation</u>	<u>Expected Annual</u> <u>Capacity Factor %</u>	<u>Number of</u> <u>Generating Units</u>
2/7/11	0.0886	95.5830	100.0000	1

## J. Regional Transmission Organization Information

In which Regional Transmission Organization area is your facility located:

Yes Within Geographic Area of PJM Interconnection, L.L.C.

No Within Geographic Area of Midwest ISO

No Other (specify):

## K. Attribute Tracking System Information

Are you currently registered with an attribute tracking system: No

In which attribute tracking system are you currently registered or in which do you intend to register (*the tracking system you identify will be the system the PUCO contacts with your eligibility certification*):

Yes GATS (Generation Attribute Tracking System)

No M-RETS (Midwest Renewable Energy Tracking System)

Other (specify):

**K.1** Enter the generation ID number you have been assigned by the tracking system:

*If the generation ID number has not yet been assigned, you will need to provide this number to the PUCO within 15 days of the facility receiving this number from the tracking system).*

## L. Other State Certification

Is the facility certified by another state as an eligible generating resource to meet the renewable portfolio standards of that state? No

**L.1** If yes, for each state, provide the following information:

<u>Name of State</u>	<u>State Certification Agency</u>	<u>State Certification Number</u>	<u>Date Issued</u>
----------------------	-----------------------------------	---	--------------------

## M. Type of Generating Facility

Please check all of the following that apply to the facility:

No Utility Generating Facility:

No Investor Owned Utility

No Rural Electric Cooperative

No Municipal System

No Electric Services Company (competitive retail electric service provider certified by the PUCO)

Yes Distributed Generation with a net metering and interconnection agreement with a utility.  
Identify the utility: PPL Electric Utilities

No Distributed Generation with both on-site use and wholesale sales.  
Identify the utility with which the facility is interconnected:

No Distributed Generation, interconnected without net metering.  
Identify the utility with which the facility is interconnected:

## **N. Meter Specifications**

### **Metering Requirements**

*If the renewable energy resource generating facility is 6 kW or below, the output may be measured with either an inverter meter or a utility grade meter.*

*All facilities that are larger than 6 kW must measure the output of the facility with a utility grade meter. Facilities that are larger than 6 kW and that are not measuring output with a utility grade meter will not be certified. OAC 4901:1-40-04 (D)(1)*

*Please only report on the meter or the meters used to measure the output from the facility which will be reported to the attribute tracking system.*

**N.a** The meter(s) that are measuring output from the facility are:

No Inverter Meter(s)

Yes Utility Grade Meter(s)

**N.1** Please provide the following information for each meter used in your system.

**N.1.a** Manufacturer: E-Mon, LLC

**N.1.b** Serial Number: 11011981

**N.1.c** Type: E-Mon D-Mon #208200R KIT

**N.1.d** Date of Last Certification: February 07, 2011

Attach a photograph of the meter(s) with date image taken. The meter reading(s) must be clearly visible in the photograph.

**N.1.e** Report the total meter reading number at the time the photograph was taken and specify the appropriate unit of generation (e.g., kWh): 0 kwh

February 07, 2011

**O. Start date from which the facility may begin reporting generation towards the creation of Renewable Energy Credits (RECs)**

The start date from which an attribute tracking system will begin to count generation data toward the creation of renewable energy credits will be the date of certificate issuance in the state of Ohio, unless the facility satisfies one of the criterion established in the Commission's June 17, 2009 Entry on Rehearing issued in Case No. 08-888-EL-ORD.

In that Entry, the Commission found it to be appropriate to recognize the creation of RECs back to July 31, 2008, the date in which the Ohio alternative energy portfolio standard law became effective, provided that "The facility was a participant in an existing attribute tracking system during that time or had a meter in place which can accurately demonstrate generation levels from July 31, 2008 forward." (June 17, 2009 Entry on Rehearing at 34.)

(1) Existing attribute tracking system:

- a. For facilities that are currently participating in an attribute tracking system, it is not sufficient to merely be registered with the tracking system; you also must be reporting generation data.
- b. If the facility was a participant in an existing attribute tracking system, please state the specific start date that will be used to recognize historical RECs.

(2) Meter which can accurately demonstrate generation levels from July 31, 2008:

- a. For facilities which have had a meter in place, accurately demonstrating generation levels must include documentation from an electric remote monitoring and reporting system, from the specified start date, and recorded on at least a monthly basis.
- b. If the facility had a meter that accurately demonstrates generation levels, please state the specific start date, and attach documentation from the remote monitoring and reporting system.

If the facility was a participant in an existing attribute tracking system, please state the specific start date, in accordance with the tracking system's rules, that will be used to recognize historical RECs:

If the facility had a meter that accurately demonstrates generation levels, please state the specific start date, and below insert documentation from the remote monitoring and reporting system:

February 07, 2011

Also, in the Commission's Entry on Rehearing, the Commission explained that consistent with its policy on double counting, the Commission "will not retroactively recognize any past RECs which have been sold or otherwise consumed." (June 17, 2009 Entry on Rehearing at 34.)

Has any of the generation of the facility been tracked as RECS that have been sold or otherwise consumed? No

Shady Maple Farm Market (673654)

System Size	Operating Status	Energy Produced	Active Events	Location
311.14 kW	<span style="color: green;">●</span> NORMAL	TODAY 392.17 kWh THIS WEEK -- kWh THIS MONTH 18.62 MWh LIFETIME 22.52 MWh	0 <a href="#">view</a>	<a href="#">get directions</a> 1324 Main Street East Earl, PA 17519 United States

## Environmentals

Greenhouse Gases Avoided by use of renewable energy	Environmental Benefits since Fri Mar 18 2011 11:29:21	Weather as of Fri Mar 18 2011 11:29:21
Carbon Dioxide -- lbs	The greenhouse gases that 4.72 passenger cars emit over 1 year	Cum. Irradiance 137.13 kWh/m² Irradiance 697.63 Wh/m²
Nitrogen Oxide 66 lbs	The energy to power 173.25 computers for 1 year	Ambient Temp. 77.49 °F Cell Temp. 111.81 °F
Sulfur Dioxide 261 lbs	The energy to operate a TV for 156,533.88 hours	

**To whom it may concern:**

At Shady Maple Farm Market, Inc. (in East Earl, PA) we had solar panels installed at 5 different locations on our complex, which all feed into our 1 PPL Electric Utilities account. Therefore, the "Facility Name" on each EL-REN application will be the same, but I am registering each "group" of PV panels separately since they came online at different times and are connected to different inverters and meters. The system description I provide on each application will identify each location, but here is a summary by Ohio Case #:

1. Case #11-0072: Rental Barn roof, which has 96 panels connected to 2 inverters.
  - a. Certified as of 3/9/11
2. Case #11-1303: Truck Garage roof, which has 377 panels connected to 1 inverter.
3. Case #11-1304: Farm Market – Standing Seam Roof, which has 351 panels connected to 1 inverter.
4. Case #11-1305: Farm Market – Flat Roof, which has 351 panels connected to 1 inverter.
5. Case #11-1306: Weaverland Foods roof, which has 247 panels connected to 1 inverter.

Thank You!

Glenn Weaver, Controller
