Notes:

A comment on all electric home. When we built our home in 1997 a rep. from ohio edison came out and showed us electric bills from comparably sized houses with electric heat , told us about the discounted rate we would receive which would not go away and that ohio edison would give 1000.00 dollars toward the installation payable to the heating contractor which they did. Why would we go all electric , because of the promised rate discount. Charles Riley
