RECEIVED-DOCKETING DIV  
2011 APR -4 PM 5:57

To Whom It May Concern:

I would like to know why you deemed it necessary to allow FirstEnergy to add to our electric bills the cost of high efficiency light bulbs? It is supposed to be a voluntary program, but it will cost me \$1.50 a month for the next three (3) years which amounts to an extra \$54.00 which will be coming out of my limited retirement income which I receive from Social Security. As I have been using the high efficiency light bulbs for over a year, paying for them myself, I do not feel it is my responsibility to defray the cost of FirstEnergy to provide these to their customers. It seems to me that you **DID NOT DO YOUR HOMEWORK** in researching their request!

Am waiting for your response to this issue.

Sincerely,

*Miss Sharonanne Vargo*

COMPLAINT DESCRIPTION:

I can't believe that this state is going to allow First Energy to make us pay a highly inflated price to purchase light bulbs which I already have. You must stop this communist insanity. Even the Democrats stopped this plan in 2009. What are we thinking?

Docketing Case No: 09-1949-EL-POR

Notes: If you are allowing First Energy to supply blubs and charge \$1.50 a month then you pay it. I for one will not take part and will not pay the \$1.50 a month. It is just another way for toledo edison to screw the poepel.

Please docket the attached in the case number above.

**Subject:** Case No. 10-176-EL-ATA the All-Electric Home Discount

I own an all electric home and am writing to support reinstating the discount: Case No. 10-176-EL-ATA.

The following need to be done as a permanent solution regarding the all-electric home discount:

1. A permanent, all-electric rate differential on generation and distribution charges for nine months of the year for all-electric heating, load management, and water heating customers that stays with the property upon transfer to a new owner, including homes, apartments, and condos. The rate differential should be equivalent to the pre-2007 declining block structure.
2. The rate differential should be given to EVERY property, even those currently excluded because they were built or converted to all-electric after Jan 1, 2007.
3. Overcharges made by FirstEnergy between May 2009 and May 2010 should be refunded in full.
4. FirstEnergy must NOT raise the rates of other ratepayers, but rather absorb the cost of this program which benefited FirstEnergy for the last 30 years. FirstEnergy made verbal and written promises to owners and builders alike to entice them to go all-electric, and they must not be allowed to break these promises and charge others for their breach of contract!

At the end of 2009 I owed a difference of \$500. My first bill in January, 2010 I owed a difference of \$300. In one month I owed a difference that was 60% of the entire previous 12 months.

You need to make them permanently re-instate the all electric discount and repay every penny of the money they received by renegeing on contracts and promises they made.

Sincerely,  
Lloyd Amster

Docketing Case No.:09-1948-EL-POR

Notes:

**COMPLAINT DESCRIPTION:**

I am outraged by your decision to approve Ohio Edison's Government mandated plan to distribute mercury laden light bulbs to its residential customers. You are forcing me to pay for something I never ordered and I will never use. The Government out lawd the use of mercury thermostats now they demand we use light bulbs with mercury and the PUCO thinks this is all right!! As a Senior Citizen I think this is just another political SCAM.

Please docket the attached in the case number above.

Akron, OH 44305

Docketing Case No.: 09-1948-EL-POR

Notes:

I just read the decision that PUCO has approved the energy reduction program by First Energy. I guess I will become a resident WITHOUT electricity. First, I will NOT pay for CFL lightbulbs that I do NOT need. Every light socket in my house that can have a CFL currently has a CFL bulb in it, and I already have an extra case of CFL bulbs for replacement. I will NOT pay for an unneeded service.

Second, I am NOT going to pay First Energy money each month so that they can give rebates to individuals for appliances, energy efficiency upgrades, and so forth.

Third, I am NOT going to pay because the State of Ohio told the electric companies that they have to reduce demand by a certain percentage. You may as well tell the companies they can charge us for services we don't receive.

First Energy makes an annual profit, there is no reason to pass this requirement on to the consumer. It is wrong, and another sign of the stupid individuals in our government that look out for businesses, not the taxpayers.

Please docket the attached in the case number above.

Docketing Case No.: 09-1948-EL-POR

Notes:

Why do I have to pay for light bulbs from First Energy that I can go to any store and buy much cheaper. The Federal Government has outlawed them so I will be forced to buy them, but I should not have to pay extra.

Please docket the attached in the case number above.

QUESTION DESCRIPTION:

In the 1960's a consumer bill of rights was established. It protected the consumer and gave them certain rights.

One such right was "The right to Service."

"To convenience, to be treated with courtesy and respect, to responsiveness to needs and problems and to refuse any service offered." First Energy is providing

the light bulbs to be placed in my home and are to be ran with electricty. Does this apply to the current situation? Is First Energy provinding a service?

Thank you Rick Teter
