Notes:

Mr. Todd Snitchler,, sending this email about The All Electric Homeowners in N. Ohio (CKAP) vs. First Energy. Believe me I realize that in fact this is one of many emails I have sent to your office concerning this matter. This is a very crucial time for over a hundred thousand homeowners, but I just want to remind you of the trickle effect this will be on all our our home values and the communities where our homes are located. Tax revenues from our real estate taxes that go to schools etc etc etc will dwindle in the years to come. Alot of real estate people already are stirring there customers away from all electric homes because of the publicity about electric rates we will be facing in the future if we dont get a favorable decision from your office. My wife and I love our electric home and I wish someone would tell First Energy that fact. I dont want to convert to gas because our homes vwere constructed for electric and who's got the money to convert to gas. New water heater and gas furnace is over \$8000.00 in my house let alone running a gas line to my home when and if it will ever happen in my subdivision. It's plan and simple the fact that if I do convert its like buying a Ford Mustang with a Chevrolet Corvette engine,, would you buy a car like that let alone a home like that?? I dont think so,, can you see how it important your decision is for us Thxs Robert Basile

Please docket the attached in the case number above.
