SECTION 2 - SERVICES**2.1 APPLICATION OF RATES****2.1.1 INTRODUCTION**

The regulations set forth in this section govern the application of rates for services contained in other sections of this Tariff. An application for service, whether made orally, in writing, or by use of service, establishes a contract between the Company and the Customer pursuant to the terms and conditions included within this Tariff. Neither the contract nor any rights acquired thereunder may be assigned or in any manner transferred to a third party by the Customer, without the Company's written approval.

2.1.2 CHARGES BASED ON DURATION OF USE

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- A. Calls are measured in durational increments identified for each service. All calls held for a fraction of a measurement increment are rounded-up to the next whole measurement unit.
- B. Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing for operator service person-to-person calls starts with completion of the connection to the person called or an acceptable substitute, or to the PBX station called.
- C. Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.
- D. Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call and will be billed according to applicable eastern standard or eastern daylight savings time.

SECTION 2 - SERVICES**2.1 APPLICATION OF RATES (CONT'D)****2.1.3 RATES BASED UPON DISTANCE**

Where charges for a service are specified based upon distance, the following rules apply:

Distance between two points is measured as airline distance between the rate centers of the originating and terminating telephone lines. The rate center is a set of geographic coordinates, as references in the Local Exchange Routing Guide issued by Bellcore, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated 800 or WATS access line), the Company will apply the rate center of the Customer's main billing telephone number. The airline distance between any two rate centers is determined as follows:

- A. Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced Bellcore document.
- B. Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.
- C. Square each difference obtained in step (b) above.
- D. Add the square of the "V" difference and the square of the "H" difference obtained in step (c) above.
- E. Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.
- F. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.
- G.

CUSTOMER NOTICE

The following customer notice was included in all customers' bills dated May 1, 2011.

Notice of tariff filing with the Public Utilities Commission of Ohio

Beginning on 5/19/2011, the prices, service descriptions, and the terms and conditions for services other than local flat rate service that you are provided by CIMCO, a division of Comcast Business Services will no longer be on file at the Public Utilities Commission of Ohio (PUCO).

This modification does not automatically result in a change in the prices, terms or conditions of those services to which you currently subscribe. CIMCO, a division of Comcast Business Services must still provide a customer notice at least fifteen days in advance of rate increases, changes in terms and conditions and discontinuance of existing services.

Since these services will no longer be on file with the Commission, this means that the agreement reached between the customer and the company will control new services or changes in service. For any new services or changes in service, it will be important that you carefully review and confirm the price, terms and conditions.

If you have any questions about this matter, please call CIMCO, a division of Comcast Business Services at the toll free number, 877.691.8080, or visit us at www.cimco.net/legal. You may also visit the consumer information page on the PUCO's website at puc.ohio.gov for further information.
