PUCO

The Public Utilities Commission of Ohio

Regarding Case No. 11-3789-WS-CSS

In answer to the Motion to dismiss of July 14,2011

In the complaint filed originally I said water quality "Poor", since no one uses our Water from Ohio American Water in this area, they really only have employees Checking it on occasion. I in-

Tend to bring a 2 month old filter to show what is arriving at my home.

The usual attorney run around requesting dismissal avoids the breakdown I

Long requested as far as numbers on the billing. I have provided the matching Billing for the same usage one year apart and the increase is still 13.8% increase To our area "C" which was given an 8.51% increase. As I have said all along all I want is an actual breakdown justifying that amount.

To me this is the same run around they displayed when they came forward with

A request for 23% increase for 3 consecutive years. We fought them then and

will

Continue to fight this being blown off for legitimate information. This is probably

One of the worst run utilities in the country. Their prices are outrageous. We

Should get our water from Columbus. Their quality and prices are fair.
