Please docket the attached in the case number above.

COMMENT DESCRIPTION:

I understand from an article in my local paper that you are considering a plan which will offer a discount on electric rates for companies which create jobs. The article also states that both businesses and residential rates will be increased to offset the discounts. I strongly disagree and oppose this proposal on many levels. New business often get tax breaks, they don't need what amounts to another. It will not help the small business operator and I will be paying more for my electric to subsidize a business.
