COMPLAINT DESCRIPTION:

This is about the Vassell Substation Project that AEP will be building right behind my house. A forty acre Substation. The noise from this Substaion and the Electric lines are going to be unbearable!! We had a friend who checked out a simalar Substation in Indianapolis and she said she was .3 miles from it and the humming was very loud, and it was in the middle of the day, sun shinning a beautiful day out. The lady she talked to who lived right beside of the Substation told her that the Humming never stops!! I am very sensitive to noise and light, I will not be able to sleep with all that noise going on in back of my house. AEP's layout of the Substation shows it 800 ft. from our property, but two AEP officials has told me that it would be 550 ft. from our property. The transmission lines (electric lines) are 150 ft. from our

property line then they angle out about half way another 200 ft.

We have a beautiful water front property!!! We were planning on staying here the rest of our lives!! We've worked hard to get everthing the way we wanted it. We've put so much money and hard work into this place. Now AEP is destroying it all. I feel they should be responsible for relocating us. Our Appraisel of our home came out at \$300,000. It would cost us double that to reproduce the same thing we have.

I'm hoping the Siting Board will help us to settle out of court with AEP!!!

Thank you, Bill and Linda Rinehart
