

8/22/2011

To Whom It May Concern:

EL-REN 09-1933 has been expanded from a previous capacity of 2.52 kW to a new capacity of 3.42 kW by addition of four SunPower 225w modules. This change did not require addition of further inverters. Please let me know if any further information is necessary to increase size of the John Scott Solar Array.
