TARIFF FORMAT

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the PUCO. For example, the 4th revised Page 14 cancels the 3rd revised Page 14.

 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
- D. Check Sheets** - When a tariff filing is made with the PUCO, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some sheets.)

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)**3.5 Calculation of Distance**

Usage charges for all mileage sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call.

The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points.

The distance between the Wire Center of the Customer's equipment and that of the destination point is calculated by using the "V" and "H" coordinates found in BellCore's V&H Tape and NECA FCC Tariff No. 4.

- Step 1:** Obtain the "V" and "H" coordinates for the Wire Centers serving the Customer and the destination point.
- Step 2:** Obtain the difference between the "V" coordinates of each of the Wire Centers. Obtain the Difference between the "H" coordinates.
- Step 3:** Square the differences obtained in Step 2.
- Step 4:** Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5:** Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6:** Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the Wire Centers.

Formula =

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

SECTION 1 - INSTITUTIONAL SERVICES**1.1 Institutional Operator Assisted Calling****1.1.1 General**

Institutional operator assisted service allows Inmates to place Collect Calls through an automated call processing system. The call processing system prompts the Inmate and the called party such that the call is completed without live operator assistance. Calls are placed on a collect-only basis to the called party.

A number of special blocking and screening capabilities are available with institutional operator services provided by Legacy. These capabilities allow Institutions to control Inmate access to telecommunications services, reduce fraudulent use of the Company's services, and eliminate harassing calls to persons outside the Institution.

For services provided to Inmates of Institutions, the following special conditions apply:

- A Calls to "900", "976" or other pay-per-call services are blocked by Legacy.
- B At the request of the Institution, Legacy may block inmate access to toll-free numbers (e.g., 800, 888) and dialing sequences used to access other carriers or operator service providers (e.g., 950-XXXX, 10XXXX).
- C At the request of the Institution, Legacy may block Inmate access to "911", "411", or local operators reached through "0-" dialing.
- D At the request of the Institution, Legacy may block Inmate access to specific telephone numbers.
- E Availability of Legacy's service may be restricted by the Institution to certain hours and/or days of the week.
- F At the request of the Institution, no notices or signage concerning the Company's services will be posted with its instruments. Information concerning Legacy's services is provided to the administration of each Institution where the Company's services are offered. Inmates may obtain information regarding rates and charges by requesting such information from the Institution's administration.
- G At the request of the Institution, Legacy may impose time limits on local and long distance calls placed using its services.
- H At the request of the Institution, equipment may be provided which permits monitoring of inmate calls by legally authorized government officials.
