

Response to Inquiry
Case No. 11-4242-EL-REN Owens Community College 50kw Wind Turbine

Question: concerning the response provided in Section O. You requested a recognition date of October 30, 2009, on the basis that the facility was a participant in an attribute tracking system. However, in response to Section K, the application indicates that this facility is not currently registered in an attribute tracking system. Given this apparent inconsistency, it seems that either Section K or section O of the application would need revised. Please clarify.

Answer: I should not have selected the option that the facility is currently a participant in an attribute tracking system (GATS). The facilities state date was October 30th 2009. The GATS account has not been created yet for this facility. When it is, the facility start date will be 10/30/2009.
