I am writing this note in accordance of what was stated in the paper that you want to increase are rates 17% that is awful. As people on fixed incomes cannot afford this. We was not as lucky as some people that have made lots of money in these days. I feel this is awful to do this to people the way the economy is. I feel if you need to have

"It costs so little to teach a child to love, and so much to teach him to hate."

Fisher Plutagan

price increase. Decrease  
the amount you  
pay your American  
Power workers.  
They could save you  
millions of dollars  
if you would even  
decrease their pay  
2.00 an hour. When  
a lot of people don't even  
make \$16.00 an hour.  
You cannot pay your  
bills & such on that  
pay. Try to live like  
that for a change  
then you would  
understand that you  
CANNOT increase 17%.

I believe meters should  
be read every month  
also. That is only

"Education is not complete unless it is built on  
character."

— Father Flanagan

far to the customer.  
So I disagree  
on price increase.

Please listen to the  
people who cannot  
afford that at all.

Thanks!

*"I like to think of education as an organization of knowledge  
into human excellence."*

— Father Hanagan
