**Re: XO Communications Services, Inc, P.U.C.O. Tariff No. 4 Revision Final Pages  
Case No. 11-5747-TP-ATA**

To Whom It May Concern:

Please find enclosed an electronic copy of revisions to XO Communications Services, Inc. ("XO"), P.U.C.O. Tariff No. 4, Case No. 11-5747-TP-ATA final tariff pages.

The following pages are included with this filing:

**8th Revised Page 1**  
**1st Revised Page 35**  
**1st Revised Page 40**  
**3rd Revised Page 55**  
**1st Revised Page 55.1**

Also, enclosed is an additional copy of this letter and a self-addressed stamped envelope. Please date stamp this copy and return in the enclosed envelope. If you have any questions, please contact me at 703-547-2635 or [daniel.ostroff@xo.com](mailto:daniel.ostroff@xo.com).

Sincerely,

/s/

INTRASTATE ACCESS SERVICES

---

**SECTION 2 - TERMS AND CONDITIONS (CONT'D.)****2.22 Service Provider Number Portability, (Cont'd.)****2.22.3 Responsibilities of the Telecommunication Carrier, (Cont'd.)**

The Telecommunication Carrier is solely responsible to provide equipments and facilities that are compatible with the Company's service parameters, interfaces, equipment and facilities. The Telecommunication Carrier is required to provide sufficient terminating facilities and services at the terminating end of an SPNP call to adequately handle all traffic to that location and is solely responsible to ensure that its facilities, equipment and services do not interfere with or impair any facility, equipment or service of the Company or any of its end-users. In the event that the Company determines in its sole judgment that Telecommunication Carrier will likely impair or is impairing, or interfering with any equipment, facility or service of the Company or any of its end-users, the Company may either refuse to provide SPNP service or terminate it in accordance with other provisions of the Company's tariff.

The Telecommunication Carrier is responsible for providing an appropriate intercept announcement service for any telephone numbers subscribed to SPNP service for which it is not presently providing local exchange service or terminating to an end-user.

The Telecommunication Carrier is responsible for designating to the Company at the time of its initial service request for SPNP service one for the following options for the handling and processing of Collect, third party, and other operator handled non-sent paid calls from or to SPNP assigned telephone numbers: (1) the Connecting-Carrier may request that the Company block all such calls; (2) the Telecommunication Carrier may accept billing from the Company for such calls; or (3) the Telecommunication Carrier may negotiate a separate, detariffed billing and collection agreement with the Company establishing the calling handling, processing and billing responsibilities of the parties.

INTRASTATE ACCESS SERVICES

---

**SECTION 3 - SWITCHED ACCESS SERVICE (CONT'D.)****3.3 Rate Categories (Cont'd.)****3.3.2 Switched Transport**

The Switched Transport rate category establishes the charges related to the transmission and tandem switching facilities between the customer designated premises and the end office switch(es) where the customer's traffic is switched to originate or terminate the customer's communications. The Switched Transport rate category also includes transport between an end office which serves as host for a remote switching system or module (RSS or RSM) and the RSS or RSM.

Tandem-Switched Transport is composed of the following rate elements:

1. The Tandem-Switched Termination element includes the non-distance sensitive portion of Switched Transport, and is assessed on a per access minute of use basis.
2. The Tandem-Switched Facility element includes the distance sensitive portion of Switched Transport and is assessed on a per access minute of use per mile basis.
3. The Tandem-Switching element includes the access tandem switching associated with Tandem-Switched Transport traffic and is assessed per access minute switched through the tandem

**Common Trunk Port**

The Common Trunk Port used by multiple Customers provides for the termination of common transport trunks in common end office trunk ports in conjunction with tandem routed traffic. The Common Trunk Port rate is assessed on a usage sensitive basis on tandem routed switched access. This rate will also be assessed on all minutes of use originating or terminating as a RSS/RSM.

**Local Transport-Entrance Facility**

A Local Transport-Entrance Facility provides the communications path between a Customer's premise and the Company serving wire center of that premises for the sole use of the customer. The Local Transport-Entrance Facility category is comprised of a DS1 or DS3 rate. A Local Transport-Entrance Facility is required whether the customer's premises and the serving wire center are located in the same or different buildings.

**3.3.3 End Office Switching**

The End Office Switching rate category establishes the charges related to the use of end office switching equipment, the terminations in the end office of end user lines, the terminations of calls at Company Intercept Operators or recordings, the Signaling Transfer Point (STP) costs, and the SS7 signaling function between the end office and the STP.

**3.3.4 Toll-Free 8XX Data Base Query**

Toll Free Data Base Access Service is a service offering that utilizes originating trunk side Switched Access Service to deliver Toll Free calls to the Company's Interexchange Carrier Customers. The service provides for the forwarding of end user dialed Toll Free calls to a Company Service Switching Point which will initiate a query to the database to perform the Customer identification and delivery function. The call is forwarded to the appropriate Interexchange Carrier Customer based on the dialed Toll-Free number. Records exchange, rating and billing for Toll Free Data Base Access Service is subject to the provisions of the Multiple Exchange Carrier Access Billing Guidelines (MECAB). The 800 Database charge, which consists of a single, fixed rate element, applies on a per query basis.
