2. RULES AND REGULATIONS (cont'd)

2.12. Determination of Jurisdiction of Mixed Interstate and Intrastate Dedicated Transport Service (cont'd)

2.12.1. Jurisdictional Reports (cont'd)

- D. Effective on the first day of January, April, July, and October of each year, the Customer may update the jurisdictional reports that require a projected interstate percentage. The Customer shall forward to the Company, to be received no later than twenty (20) calendar days after the first of each such month, a revised report showing the interstate percentage of use for the past three (3) months ending the last day of December, March, June, and September, respectively, for each service arranged for interstate and intrastate use. The revised report will serve as the basis for the next three (3) months' billing and will be effective on the bill date in the following month (i.e., February, May, August, and November) for that service. No prorating or back billing will be done based on the report. If the Customer does not supply the report, the Company will assume the percentage to be the same as that provided in the last quarterly report. For those cases in which a quarterly report has never been received from the Customer, the Company will assume the percentage to be the same as that provided in the order for service as set forth in Section 2.12.1(A), preceding.
- E. The Customer shall keep sufficient detail from which the percentage of interstate use can be ascertained and upon request of the Company make the records available for inspection. The Company will initiate such request no more than once per year. The Customer shall supply the data within thirty (30) calendar days of the Company request.
- F. The Customer may provide an additional percentage of interstate use for Entrance Facility and Direct Trunked Transport subject to the reporting requirements previously listed in this section. The percentage of interstate use may be provided per individual facility or at the billing account level. Should the Customer not provide a percentage of interstate use, the Company will use the reported Feature Group D aggregated percentage of interstate use.

D. Switched Transport Multiplexing

(1). Common Multiplexing

Common Multiplexing is assessed on a per minute basis at the access tandem for all switched access minutes that are transported over Tandem-Switched Transport between the end office and the access tandem. The Common Multiplexing charge applies whenever the Tandem Switching rate applies, except when switched access is provided in conjunction with a cellular carrier, which is directly connected to the access tandem.

(2). Dedicated Multiplexing

Dedicated Multiplexing is applied to Direct Transport Facilities and is assessed on a monthly basis.

3.1.3. Other Rate Categories

A. 800 Data Base Access Service

(1). Customer Identification and Delivery Charge

The 800 Data Base Access Service Customer Identification Charge applies for the identification of the appropriate Customer and for the delivery of the dialed 800 ten-digit number. The charge is assessed to the Customer on a per query basis and may include an area of service which may range from a single NPA/NXX to an area consisting of all LATAs and NPAs in the State of Ohio.

1. DEFINITION OF TERMS (cont' d)Due Date

The date on which payment is due.

End Office

The wire *center* from which the end user receives dial tone from the Company.

End Office Switch

A Switch that provides the first point of connection between an End User and the Public Switched Telephone Network (PSTN), that sets up and takes down voice-grade communications paths between an End User and other parties on the PSTN, and that exchanges SS7-compatible signaling with other switches on the PSTN. The "first point of connection" means there is no other Switch performing these functions between it and the End User, regardless of how the End User obtains its connection to that switch.

Switched Access

Non-dedicated Access between the Customer's POP and the end office of the Company for origination or termination of service.

Tariff

The current Intrastate Access Services Tariff and effective revisions thereto filed by the Company with the Commission.

VoIP-PSTN Non-Toll Traffic

VoIP-PSTN Traffic that originates (in the case of traffic terminated to a Company end user) or terminates (in the case of traffic originated from a Company end user) at a location within the local calling area of the Company's end user, or, for traffic exchanged between the Company and a Commercial Mobile Radio Service ("CMRS") Provider, VoIP-CMRS traffic that, at the beginning of the call, originates and terminates within the same Major Trading Area.

(N)

VoIP-PSTN Toll Traffic

VoIP-PSTN Traffic that originates (in the case of traffic terminated to a Company end user) or terminates (in the case of traffic originated from a Company end user) at a location outside the local calling area of the Company's end user.

VoIP-PSTN Traffic

Any traffic exchanged between the Company and a Customer that is a telecommunications carrier in Time Division Multiplexing (TDM) format that originates and/or terminates in Internet Protocol (IP format). Telecommunications traffic originates and/or terminates in IP format if it originates from or terminates to an end-user customer of a service that requires Internet protocol-compatible customer premises equipment.

The term "Customer(s)"..., including but not (C) limited to End Users, Interexchange Carriers (ICs) and other telecommunications carriers or providers originating or terminating Toll VoIP-PSTN Traffic.

Should the Customer not provide a percentage of interstate use, the Company will use the reported Feature Group D aggregated percentage of interstate use.
- G. VoIP-PSTN Traffic Report For Switched Access Service, the Customer may, at its option, provide the Company with a Customer Percent VoIP Usage (CPVU) report projecting the percentage of access minutes that will originate (in the case of traffic terminating to a Company end user) or terminate (in the case of traffic originating to a Company end user) in IP format, as specified in the definition of "VoIP-PSTN Traffic" in Section 1, preceding. This CPVU shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. Such reports, if submitted, shall state the CPVU as a whole number percentage.

G. (cont'd)

- (1) The Customer may update the CPVU on the same schedule, and in the same manner, as updates to the projected interstate percentage pursuant to section 2.3.3(E), preceding. If the Customer does not update the report, the Company will assume the CPVU to be the same as that provided in the last quarterly report.
- (2) The Company will determine an ABT Percent VoIP Usage (APVU) factor representing the percentage of the Company's total access minutes in the State that ABT originates or terminates on its network in IP format. This APVU shall be based on information such as the number of the Company's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.
- (3) The Company will calculate a combined Percent VoIP Usage (PVU) factor based upon the APVU and CPVU factors, using the following formula (where APVU and CPVU are expressed as decimal percentages; e.g., a CPVU of 20% is expressed as 0.20):
$$PVU = CPVU + (1 - CPVU) \times APVU$$
- (4) The Company will apply any CPVU factor submitted by the Customer no later than April 15, 2012, retroactively to January 1, 2012; after this initial period, however, any new CPVU submitted by the Customer will be applied prospectively only.
- (5) For those cases in which a quarterly report has never been received from the Customer, the Company will set the PVU equal to the APVU.
- (6) The Customer shall keep sufficient detail from which the CPVU, if supplied, can be ascertained. Not more than twice in any year, the Company may ask the Customer to verify the CPVU factor furnished to the Company, and the Customer may ask the Company to verify the APVU factor. The party so requested shall comply, and shall provide within 30 days of the request records and other information reasonably sufficient to determine the respective CPVU and/or APVU factor.

3.1.3 Rates Applicable to VoIP-PSTN Traffic

- (A) This Section applies to all VoIP-PSTN Traffic that uses the Company's intrastate access services, in the absence of a separate agreement between the Company and the Customer governing such traffic.
- (B) The Company will use the PVU factor, as determined pursuant to Section [X], preceding, to determine what portion, if any, of intrastate Switched Access Service provided by the Company to the Customer pursuant to this Tariff constitutes VoIP-PSTN Traffic.
- (C) Notwithstanding any other provisions of this Tariff, the rates applicable to origination or termination of VoIP-PSTN Toll Traffic shall be equal to the Company's interstate access charges for origination or termination of comparable interstate traffic, as stated in the Company's interstate access tariff on file with the Federal Communications Commission and as in effect at the time the service is provided.
- (D) If the PVU factor is not available and/or cannot be implemented in the Company's billing system by January 1, 2012, then once the factor is available and can be implemented the Company will adjust the Customer's bills to reflect the PVU retroactively to January 1, 2012.
