Docketing Case No.: AEP rate CASE

Notes:

Please docket the attached in the case number above.

Customer email:

I have been following your "secret" negotiations with the manufacturers representatives of our state. When I read that their rates were going down at the expense of small business I wondered what that meant. Well now I know, my distribution rate went up almost 300% from \$150 to \$430. I'm glad to know that someones rate went down. I may as well turn my security lights off and let people steal our stuff. It's cheaper than electricity. Very disappointed in this latest round of negotiations. You allowed to many companies to get the shaft. I hope our manufacturing base grows substantially and we export more product because the companies that don't do those things are paying dearly for it.
