**Subject:** AEP Small Business rate increase

**Message:** I just received my AEP bill for my small business which showed a 300% increase in the distribution charge. AEP indicated this was due to the negotiated PUCO agreement in December in which large business' at the table received price decreases while small business were not represented and will now bear the brunt of this. At that time you indicated you did not want to be involved. I hope you will reconsider your stand on this as many of us with small businesses and esecially those who shopped for alternative energy suppliers are now being punished for those choices. I have no problem with increasing costs being shared fairly with all users. You have made a lot comments on promoting a business friendly climate in Ohio and I think you are on the right track. Don't forget that the majority of business in Ohio is done by small business. Ken Davis
