2. General Regulations (Cont'd)

2.3 Obligations of the Customer (Cont'd)

2.3.12 Certification of Special Access Services As Interstate

(C) Verification Information

If a billing dispute arises or a regulatory commission questions the interstate classification of the Special Access Service, the Telephone Company will ask the customer to provide the data the customer uses to determine that interstate usage is greater than ten percent. The customer shall keep records of system design and functions from which the percentages of interstate and intrastate usage (and hence jurisdiction) can be ascertained. The customer shall supply the data within 30 days of the Telephone Company request.

2.3.13 Metropolitan Statistical Area Access Services

For the Metropolitan Statistical Areas (MSAs) in which the Telephone Company has received Phase II pricing flexibility, pursuant to Subpart H of Part 69 of the Commission's Rules. Section 21 of this Tariff governs the offering of service in these MSA's. Upon approval of Phase II pricing flexibility for a petitioned MSA, services purchased pursuant to Sections 6, 7, 26 and 27 under the various Pricing Plans as identified in Section 21.4(F), will then become subject to the rates in Section 21, Metropolitan Statistical Area Access Services.

2.3.14 VoIP – PSTN Traffic

This Section applies to VoIP-PSTN Traffic exchanged between the Telephone Company and the Customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. VoIP-PSTN traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user Customer of a service that requires Internet protocol-compatible Customer premises equipment. The Switched Access rate elements in this tariff for both usage and facilities apply to any VoIP-PSTN traffic.
