**APPLICATION FOR APPROVAL OF
REVISED BILL FORMAT**

Now comes the Applicant, Pike Natural Gas Company (Pike), and, in compliance with the Commission's February 23, 2012 Entry ("Entry") in this case, requests approval for the bill format proposal herein, pursuant to the Rule 4901:1-13-11(D), Ohio Administrative Code. In support of its Application, Pike states as follows:

1. Pike is an Ohio company engaged in the business of supplying natural gas to consumers in Ohio, and, as such, is a public utility as defined by Sections 4905.02 and 4905.03 of the Ohio Revised Code and is subject to the jurisdiction of the Public Utilities Commission of Ohio ("Commission").
2. In its Entry, the Commission ordered companies to file revised bill formats consistent with certain revised rules in this docket within thirty days of the Entry. The proposed changes, reflected on the back of the bill, reflect the rule revisions made by the Commission.
3. A sample Pike's proposed bill format is attached as Exhibit A.
4. The Application does not result in a rate increase.

5. Pike requests Commission approval to use its current bill format until its current bill stock is exhausted. The proposed bill format would become effective for the first billing cycle after the current bill stock is exhausted.
6. Rule 4901:1-13-11(D), Ohio Administrative Code, provides that "[a] gas or natural gas company proposing any new bill format shall file its proposed bill format with the commission for approval. If the commission does not act upon an application for a new bill format within forty-five days, the proposed bill format shall automatically be approved on the forty-sixth day."
7. WHEREFORE, Pike respectfully requests approval of this Application to revise Pike's bill format consistent with the provisions of Rule 4901:1-13-11(D), Ohio Administrative Code, to become effective on the first billing cycle after its current bill stock is exhausted.

Respectfully submitted,
