COMMENT DESCRIPTION:

I want my comments docketed in case nos. 11-346-EL-SSO & 11-348-EL-SSO. Please look at the big picture for AEP. I work for AEP, but maybe for not much longer. I live in Southeastern Ohio and AEP is a big supporter of our area financially. I have 8 power plants within an hour of my home. Most of the community either works for AEP or for a contractor that works for AEP. AEP is also a big supporter of our charitable donations around the area. You must look at other deregulated states and see the big picture. Deregulation hurts everyone. The other non-utility companies are not producing anything or supporting power lines. They are buying and reselling power. That is what's wrong with this country today. Stop the madness.

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business. Technician Date Processed 3/8/12

COMMENT DESCRIPTION:

Please include the comments in the docket for cases 11-346-EL-SSO & 11-348-EL-SSO.

To whom it may concern: I urge you to consider quick and positive action regarding AEP Ohio's recent petition mentioned in the above cases. As I understand the situation, AEP Ohio will be required to significantly reduce its operating budget, down to a bare minimum, as a result of your

decision to reconsider its recent filing. Every day that passes could mean drastic reductions in staff and significant losses to the state. As a result of this reduction, hundreds to thousands of jobs maybe lost in the city, including my son's job. Additionally, AEP Ohio supports the entire state by paying hundreds of millions in state taxes and purchasing billions of dollars in goods from Ohio-based suppliers. It would be a true loss to the state if AEP decided Ohio was not right for them. I urge you to consider their proposal, at least until a new, more realistic decision can be made, regarding the fate of AEP, its employees, and the many stakeholders of Ohio. Thank you,

A handwritten signature, possibly "C. Smith", in dark ink.

COMMENT DESCRIPTION:

I want my comments to be docketed in case nos. 11-346-EL-SSO & 11-348-EL-SSO.

I find it very disturbing the action PUCO has taken after having approved AEP's proposed rate plan. How can any utility company in the state of Ohio function under this level of uncertainty? The unprecedented action taken by the PUCO puts AEP at a severe disadvantage to its

competitors in this state and to the overall market as a whole. AEP stands to face huge losses if a lower-of-cost-or-market approach is taken. It simply would not be able to cover its operating expenses on its generating fleet if the market price is below its operating costs. I would like to include the text of a statement released by Standard & Poors after the rate reversal decision which reflects the very serious consequences such decisions could potentially have:

Feb 27 - Last week's retraction by Ohio regulators of its prior approval of a stipulated resolution to the difficult problem of managing a utility's transition to competition highlights the increased risk to bondholders during such transitions. The unexpected reversal, due to ratepayer resistance, came in a case involving American Electric Power Co. Inc.'s (BBB/Stable/A-2) Ohio utilities. As we have previously noted, this kind of uncertainty about when the transition to competition will be completed potentially exposes a utility to rates that reflect a "lower-of-cost-or-market" approach that can produce higher or asymmetrical risk for the company and its bondholders. (See "Assessing U.S. Utility Regulatory Environments," published Nov. 7, 2007). While we currently contemplate no rating or outlook changes for any Ohio-based utilities, we are closely monitoring the political and regulatory atmosphere in the state, and credit quality could erode for some utilities if any transition decisions compress the transition period, disallow recovery of prudently incurred costs, or lead to extended periods of suppressed returns and weakened credit metrics. (Caryn Trokie, New York Ratings Unit)

COMMENT DESCRIPTION:

Case nos. 11-346-EL-SSO & 11-348-EL-SSO - I humbling ask you to treat American Electric Power fairly on these cases and future rulings. I am a life long Ohioan and an IT Professional at AEP who has degrees from Kent State university as well The Ohio State University. I have deep roots in my local community including all of my immediate and extended family, my church, my childrens school system. I do not want to to relocate to another state that would value a Fortune 200 public company but I will.

COMMENT DESCRIPTION:

I would like my comments docketed in case nos. 11-346-EL-SSO & 11-348-EL-SSO I am asking that you take immediate and favorable action on AEP Ohio's petition. I support their request to set the capacity charge that alternative suppliers must pay to use AEP's generating assets at \$255/MWday until a final ESP has been approved. AEP's infrastructure investment for electricity deserves a reasonable payback, and I believe this petition allows for that.

COMMENT DESCRIPTION:

I would like my comments to be docketed in case nos. 11-346-EL-SSO & 11-348-EL-SSO. I am an employee of American Electric Power where my job is to control and where ever possible cut costs to AEP and subsequently AEP's customers. As a cost analyst in Generation's Engineering, Project and Field Services I and my department peers take enormous pride in our work, that is to control the costs of enormous generation maintenance projects that, in some cases, employee more than 2000. My days are spent implementing cutting edge cost control techniques that

ensure contractors employed by AEP work efficiently and in accordance to fair contract agreements. With those proven techniques I am able to save at least my yearly salary on a single project and in any given year I will be part of anywhere from 6 to 30 projects. Our department is staffed by bright, motivated and up and coming individuals with backgrounds in finance and engineering that are dedicated to ensuring AEP pays only what is necessary to those companies contracted to maintain and build a diverse generation fleet. Our department is at the forefront of the project controls discipline; our processes, tools and techniques are second to none. The question is what drives our dedication? Simply it is the culture poured from the top, Mr. Akins down to every employee in the company. In my life, I have never been part of such a talented and dedicated organization all working toward a common goal – that is to and in the words of our CEO “...focus on safety, reliability, cost control, and serving the customer.”

Unfair demands on AEP could force job cuts in area's like mine that are dedicated strictly to cost cuts and keeping customer costs to a minimum. I urge you to accept AEP Ohio's petition, and understand that AEP is doing everything in their power to keep rates fair and at the lowest cost to the customer.

PLEASE TAKE IMMEDIATE AND FAVORABLE ACTION ON AEP OHIOS PETITION.

This will result in many many job cuts if favorable action is not taken.. This will result in me having to move my family out of the state of Ohio. Having to move more than half of the 7000 jobs at AEP out of the state is CRAZY!

COMMENT DESCRIPTION:

Please docket my comments in case nos. 11-346-EL-SSO & 11-348-EL-SSO

The recent actions to revoke an agreed upon rate structure have me very concerned. This seems like regulation gone amok. As a lifetime Ohio resident and a member of the Columbus community, I am concerned that the PUCO and other regulators are making Ohio an unfriendly

place to do business. An editorial in the Columbus Dispatch on Tuesday March 6th stated it well: "Without action by the PUCO to give AEP the breathing space and rates it needs to continue to do business, electricity competition in the state could be harmed for years to come." I urge you to take appropriate action that is fair and rational. AEP is an important part of our state and local communities.

Thank you for your time and consideration.

Sincerely, Dave Rich Columbus, Ohio

COMMENT DESCRIPTION:

I want my comments to be docketed in case nos. 11-346-EL-SSO & 11-348-EL-SSO. I am an employee of American Electric Power and I am asking the PUCO to take immediate and favorable action on AEP Ohio's petition. I am an Ohio resident and a US citizen and I can not understand how a Government agency has the power to resind a legal binding agreement that would cripple a company, have a negative impact on Ohio's economy in the manner that the PUCO has. Again, I am asking the PUCO to take immediate and favorable action on AEP Ohio's petition. Thank you
Terri L Hamilton
