COMMENT DESCRIPTION:

I would like my comments to be docketed in case nos. 11-346-EL-SSO & 11-348-EL-SSO.

On February 27, AEP Ohio filed a motion for relief and expedited action with the PUCO to halt the financial losses sustained as a result of the Commission's decision on February 23 to revoke its approval of the company's ESP plan, which the Commission had approved on December 14

and modified on January 23. AEP has requested that the Commission set the capacity charge that alternative suppliers must pay to use AEP's generating assets at \$255/MWday until a final ESP has been approved.

I am asking that you take immediate and favorable action on AEP Ohio's petition

Docketing Case No.:11-346-el-sso

Notes:

Upon receiving an exceptionally high electric bill for the second month in a row--especially since I read that the PUCO recinded permission for AEP Ohio to raise rates--I called AEP Ohio to see what was happening. I learned that the return to last year's rates would not take effect until March. Not much I can do about that. I also learned that AEP Ohio and other distributors were trying to have all their rates the same in Ohio. Well, The over 110% increase in the distribution rates about did our small business in. I know a sawmill in McArthur with 40 employees closed. I strongly urge the PUCO NOT to allow such an increase. Small businesses in SE Ohio are already under great financial restraints with the amount of money we can generate. Please consider this when allowing any kind of increase. Most sincerely, Jo Anne L'Heureux, Owner--Athens Boarding Kennel

Docketing Case No.: 11-346-EL-SSO

Notes:

>I am very disturbed by the rate increase proposed by American Electric Power. The information I have read says that American Electric Power had record-breaking profits last year, and yet they want a rate increase. I live in an all electric home and with the rate increase that we had for December, 2011, my electric bill was higher than I have ever had, even with the mild winter and I was not even home for 10 days during that month. I also did not put up outside Christmas lights, so the bill with the rate increase was simply too high. I do not feel that they deserve to have a rate increase after record breaking profits in 2011. This increase will be very harmful to families, especially with the gasoline prices skyrocketing. This increase will also harm small businesses that cannot afford to keep paying higher prices. Please consider the impact this increase will have on hard working families that are not wealthy, but just trying to make ends meet, and reject American Electric Power's request. Thank you. Linda Yoho
