MOTION TO INTERVENE

BY

DUKE ENERGY RETAIL SALES, LLC

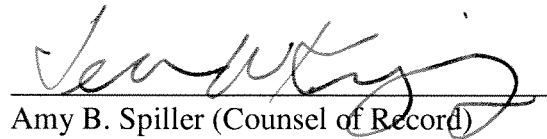

Now comes Duke Energy Retail Sales, LLC, (DER) and moves to intervene, as a full party of record, in the above-captioned proceedings, pursuant to R.C. 4903.221 and O.A.C. 4901-1-11. The issues in this proceeding relate to the Commission's review of a proposed standard service offer by The Dayton Power and Light Company (DP&L). The resolution of issues in this proceeding will directly impact the ability of suppliers to compete in the retail

market. DER, as a certified retail electric supplier, therefore has a real and substantial interest in this proceeding that is not adequately represented by existing parties.

Wherefore, for the reasons more fully set forth in the attached memorandum in support, DER respectfully requests that the Commission grant this motion to intervene.

Respectfully submitted,

DUKE ENERGY RETAIL SALES, LLC

Memorandum in Support

R.C. 4928.141 authorizes DP&L to file either a Market Rate Offer (MRO) pursuant to R.C. 4928.142 or an Electric Security Plan (ESP) pursuant to R.C. 4928.143. On March 30, 2012 DP&L filed its application for a MRO to become effective on January 1, 2013.

R.C. 4903.221(B) sets forth several criteria that the Commission is required to consider in ruling on applications to intervene. Those criteria are listed as follows:

- (1) The nature and extent of the prospective intervenor's interest;
- (2) The legal position advanced by the prospective intervenor and its probable relation to the merits of the case;
- (3) Whether the intervention by the prospective intervenor will unduly prolong or delay the proceedings;
- (4) Whether the prospective intervenor will significantly contribute to full development and equitable resolution of the factual issues.

The Commission has, itself, added additional detail to the intervention requirements through the promulgation of O.A.C. 4901-1-11. That rule, in section (A), requires that the Commission allow intervention by a person who has a "real and substantial interest in the proceeding" and who "is so situated that the disposition of the proceeding may . . . impair or impede [its] ability to protect that interest, unless the person's interest is adequately represented by existing parties." The rule goes on to list several factors that the Commission is required to consider in determining whether a potential intervenor meets that standard:

- (1) The nature and extent of the prospective intervenor's interest.
- (2) The legal position advanced by the prospective intervenor and its probable relation to the merits of the case.
- (3) Whether the intervention by the prospective intervenor will unduly prolong or delay the proceedings.
- (4) Whether the prospective intervenor will significantly contribute to full development and equitable resolution of the factual issues.

- (5) The extent to which the person's interest is represented by existing parties.

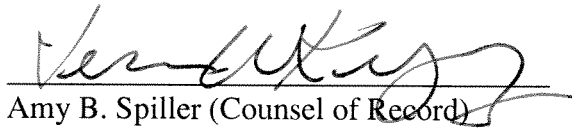

DER is a competitive retail electric services provider, certified to provide retail services in the territory of DP&L. Indeed, DER is providing both nonresidential and residential services in DP&L's certified territory at this time. It is critical to the ongoing business of DER that it be able to compete successfully for business in this area. Thus, intervention is important to its ability to protect its business interests.

Intervention by DER will not unduly prolong or delay this proceeding as Motions to Intervene are due to be filed in this case by April 20, 2012. DER would also respectfully suggest that its intervention will significantly contribute to the full development and equitable resolution of the factual issues, based on its experience in the marketplace and understanding of competitive needs in general. Its interests are not represented by existing parties.

DER therefore respectfully requests that the Commission grant its motion to intervene and that it be made a full party of record.

Respectfully submitted,

DUKE ENERGY RETAIL SALES, LLC
