Instructions for Preparing Tax Year 2012 Annual Report U-NG (Natural Gas Company)

Ohio Department of Taxation, Public Utility Tax Section, PO Box 530, Columbus, OH 43216-0530

General Instructions:

The Annual Report U-NG is for reporting all taxable property. All of the information requested is essential for the Tax Commissioner to determine the true value and taxable value of all taxable property, and to apportion the taxable value among the various taxing districts in the state. Each taxpayer is responsible for the accurate and complete reporting of all taxable property and any other information the Tax Commissioner considers necessary - including copies of Annual Reports filed with the Public Utilities Commission of Ohio (PUCO) and/or the Federal Energy Regulatory Commission (FERC). The County and Taxing District Recap and the Current Gas Stored Underground in Ohio are considered a part of the Annual Report. They must be properly completed and filed with the Report. Both are included as separate attachments with the Annual Report. (See County and Taxing District Recap Section of instructions). Failure to Accurately report all taxable property may result in a penalty of up to 50% of the taxable value of the property that was not accurately reported. You may also be subject to a \$50 per month penalty not to exceed \$500.

The instructions below are to assist the taxpayer in completing the various schedules in the Annual Report. They are not a substitute for the law, nor should they be construed in any manner as relieving a taxpayer from its statutory obligations. Unless otherwise specified, all questions, statements and schedules must be completed. If there is nothing to report, enter the word "None". Make sure to Round all amounts on the report to the Nearest Dollar.

An Annual Report will not be accepted if it is incomplete, illegible or displays information in a manner other than prescribed. Annual Reports that are rejected will be subject to a late filing penalty if not corrected and resubmitted by the filing deadline.

The reports are available on the Ohio Department of Taxation's Internet site at www.tax.ohio.gov/ and are also available via E-mail upon request. The Reports are in an Excel spreadsheet format and are protected. If you need assistance with the spreadsheets or have any questions concerning the preparation of the Annual Report, contact the Public Utility Tax Section at (855) 466-3921 or fax (614) 752-2496.

Terms:

"taxpayer" means companies defined as public utilities, whether regulated by the Public Utility Commission of Ohio or not, R.C. 5727.01.

"lien day" means the close of business on December 31.

"federal regulatory agency" means the Federal Energy Regulatory Commission (FERC).

"Ohio property" means all real and tangible personal property that was owned, or leased pursuant to a sale and leaseback transaction, and physically located and used in business in the state of Ohio.

"sale and leaseback transaction" means a transaction in which a public utility or interexchange telecommunications company sells any tangible personal property to a person other than a public utility or interexchange telecommunications company and leases that property back from the buyer - R.C. 5727.01(I).

"tax year" refers to the year for which property is subject to assessment.

"vintage year" refers to the calendar year in which taxable property was first capable of being used by the taxpayer required to report such property.

"used in business" includes property capable of use and part of a system capable of use whether being used or not, and leasehold improvements that if removed would not damage the real property. Stand-Alone Computers (SAC)

Beginning with tax year 2003, there is a new true value schedule for stand-alone computers. Stand-alone computers include computers, as well as related hardware, software and peripheral equipment, used for general business purposes such as data processing, payroll, tracking sales data, maintaining accounting information and tracking orders. Stand-alone computers do not include computers used as part of the manufacturing process or to provide public utility services or point of sale equipment. Computers used in these processes will continue to be valued using the true value schedule for that process.
