Public Utilities Commission of Ohio
Investigation and Audit Division

Memorandum

Date: 4/24/2012

Re: Robert Wade
3278 Kristin Ct

Columbus, OH 43231

Docketing Case No.: 11-346-EL-SSO

Notes: i just saw on the news about aep fighting the other electric companies lower rates i think every time you give aep rate increases you allow them to steal from us i have lived at my address for 6 years and i have had more outages on days without storms or rain wind anything you would think would cause an outage i believe aep now owns a monopoly controlling the cost of electricity we rely on you people to protect us from these companies companies but we wonder if they are somehow influencing your decisions by offering money to fund your other interest please don't allow this to happen we the public are really struggling out here thank you for your time

Please docket the attached in the case number above.

Message:
Dear Chairman Snitchler:

As a customer of AEP, I urge you to reject its proposal to limit my ability to save money on my electric bill by switching to another electric supplier.

By imposing excessive capacity fees on other suppliers, AEP's proposed Electric Security Plan would harm competition so it can protect its profits on the backs of customers like me. While nearly 2 million Ohioans are shopping every month with competitive retail suppliers, AEP is the only utility in Ohio that wants to place artificially inflated capacity charges on suppliers, reducing savings for customers.

We all know competition works. That's why we always shop for lower prices. We should let competition work for electricity too.

Please reject or modify AEP's revised Electric Security Plan and preserve my right to shop to save money on my electric bill.
