Dear Chairman Snitchler:

RECEIVED-SOCKETING DIV  
2012 MAY -1 PM 4:09  
PUCO

As a customer of AEP, I urge you to reject its proposal to limit my ability to save money on my electric bill by switching to another electric supplier.

By imposing excessive capacity fees on other suppliers, AEP's proposed Electric Security Plan would harm competition so it can protect its profits on the backs of customers like me. While nearly 2 million Ohioans are shopping every month with competitive retail suppliers, AEP is the only utility in Ohio that wants to place artificially inflated capacity charges on suppliers, reducing savings for customers.

We all know competition works. That's why we always shop for lower prices. We should let competition work for electricity too.

Please reject or modify AEP's revised Electric Security Plan and preserve my right to shop to save money on my electric bill.

Memorandum

Date: 5/1/2012

Re: Kurt Ohlrich  
2040 Industrial Dr

Findlay, OH 45840

Docketing Case No.: 11-346-EL-SSO & 11-348-EL-SSO

Notes:

Rowmark is a plastic manufacturing company headquartered in Findlay, Ohio. Our products are shipped all over the world and we are battling in the marketplace with global competition for sales of our products. It is essential to be able to hold down our costs included power during these challenging economic times. The current situation with AEP is of significant concern to our business. This complaint corresponds with case numbers 11-346-EL-SSO and 11-348-EL-SSO. It is our understanding AEP-Ohio is still requesting Commission approval of EXCESSIVE CAPACITY FEES (\$255 per megawatt day) for the post June 1st, 2012 period, so while competitive markets have revealed a price of ~\$16 per megawatt day, AEP continues to expect shopping customers to pay a PREMIUM that is fast-approaching a 1500% mark-up. All things considered, if AEP's request is granted by the PUCO, such an unfavorable outcome will effectively eliminate shopping opportunities for the foreseeable future. At a time when there may never be a better opportunity to shop and save on electric spend behind AEP's service territories, the collective efforts of AEP and the PUCO exhibit a determination for eliminating that opportunity, which is perplexing to say the least. There was absolutely no justification for the Commission to grant AEP EXCESSIVE CAPACITY FEES (\$255 per megawatt day) on an interim basis (i.e. through May 31st, 2012), but to learn now that AEP expects more of the same for a much longer-term, is nothing short of AEP requesting a MONOPOLY. Words cannot adequately describe how inherently flawed this proposition is at face-value, but please understand AEP customers do not intend to stand idly by and allow the Commission to continue putting forth ANTI-COMPETITIVE decisions; nor should Ohio's certified retail electric suppliers. It is difficult to comprehend why

AEP's unregulated marketing arm (AEP Retail Energy) is being extended the opportunity to compete in other Ohio service territories (i.e. Duke, DP&L, and FirstEnergy), whereas AEP is currently being granted protection from certified suppliers trying to compete in its service territories? This political nonsense needs to come to an end, and it needs to end now! Customers should be granted access to market-prices for capacity; hence, the purpose for deregulating Ohio's electricity markets. Respectfully, Kurt Ohlrich / Rowmark, LLC

Please docket the attached in the case number above.

- Company: AEP
- Name on account: Sandra Waggoner
- Service address: 1528 Plum Creek Drive Findlay, Ohio 45840
- Service phone: 4196349911
- Account Number: 07940175131

COMPLAINT DESCRIPTION:

I would like to complain about Ohio paying more than our fair share to AEP's gross margins. Why are they receiving record profits when those of us on a fixed income are being priced out to the market of independent living. Something has to change for individuals to be able to live above the poverty line! I am tired of this monopoly which is being supported by the PUCO and bringing hardship to Ohioans. Please help by setting fair and reasonable rates to allow Ohioans to compete in the world!

Dear Chairman Snitchler:

As a customer of AEP, I urge you to reject its proposal to limit my ability to save money on my electric bill by switching to another electric supplier.

By imposing excessive capacity fees on other suppliers, AEP's proposed Electric Security Plan would harm competition so it can protect its profits on the backs of customers like me. While nearly 2 million Ohioans are shopping every month with competitive retail suppliers, AEP is the only utility in Ohio that wants to place artificially inflated capacity charges on suppliers, reducing savings for customers.

We all know competition works. That's why we always shop for lower prices. We should let competition work for electricity too.

Please reject or modify AEP's revised Electric Security Plan and preserve my right to shop to save money on my electric bill.
