Q. Please state your name and business address.

A. Dr. Howard B. Fleeter, Partner, Driscoll & Fleeter, 60 E. Broad St, Suite 350,
Columbus Ohio 43215.

Q. What is your occupation?

A. I am an economist and partner in a consulting firm which specializes in economic
analysis and public policy research.

Q. Please describe your educational and professional background.

A. I received a BA in Economics from Northwestern University in 1983, an MA in
Economics from the University of California Berkley in 1986, and a PhD in Economics
from the University of California Berkley in 1990.

I served as an assistant professor in The Ohio State University's School of Public Policy
and Management from 1989 through 1999. While on the faculty at Ohio State, I taught
master's level courses in Public Sector Microeconomics, Public Finance, State and Local
Government Finance, Financial Management/Capital Budgeting, and Fiscal
Administration. I also taught doctoral level courses in Policy Modeling and Research
Colloquium.

I served as an assistant professor in the School of Education at the University of
Massachusetts Amherst from 1999 through 2001, where I taught graduate level courses
in Public School Finance, Economics of Education and Introduction to Policy Studies.

1 I have been in my current position as a partner with Driscoll and Fleeter since 2002. In
2 that position, my business partner and I conduct research for the Education Tax Policy
3 Institute ("ETPI"). ETPI is a non-profit and non-partisan organization which provides
4 research relating to changes in taxes and other policies which impact education and
5 other local government services in Ohio.

6 My Brief Vita is attached as Exhibit HBF-1.

7 **Q. What reputation have you gained on school funding issues?**

8 A. While on the faculty at The Ohio State University I authored the report "*Equity,*
9 *Adequacy and Reliability in Ohio School Finance*" (1992). This report was requested by
10 Governor George Voinovich and was prepared for the Governor's Education
11 Management Council. The findings of this report were directly cited in the *DeRolph I*
12 decision (1997) by the Ohio Supreme Court. I have engaged in the review and
13 development of Ohio school finance policy on an ongoing basis for the past 20 years,
14 working with Governors Voinovich, Taft and Strickland. I am widely regarded as the
15 leading expert on school finance in the state of Ohio.

16 **Q. On whose behalf are you testifying?**

17 A. I am testifying on behalf of the following school organizations: Buckeye Association of
18 School Administrators ("BASA"), Ohio Association of School Business Officials
19 ("OASBO"), Ohio School Boards Association ("OSBA") and Ohio Schools Council
20 ("OSC"). The four organizations are collectively referred to as the "Schools" and are
21 intervenors in this case.

1 **Q. Have you previously testified before the Public Utilities Commission of Ohio?**

2 A. No, I have not.

3 **Q. What is the purpose of your testimony in this case?**

4 A. The purpose of my testimony is to quantify the impact of the Fiscal Year 2012-2013 Ohio
5 Biennial State Budget on Ohio's public school districts.

6 **Q. What materials have you reviewed or tasks have you performed in preparation of
7 your testimony?**

8 A. As part of our ongoing work with the ETPI, Driscoll & Fleeter analyzed the Fiscal Year
9 2012-2013 Ohio Biennial State Budget in order to assess the impact of changes to state
10 and federal funding for Ohio's public school districts. This analysis included reviewing
11 budget language and funding levels. The analysis performed for ETPI is attached as
12 Exhibit HBF-2.

13 **Q. Can you quantify the state funding reductions to Ohio's public schools for Fiscal
14 Year 2012-2013?**

15 A. Yes. Our analysis shows that state funding for Kindergarten through Twelfth Grade
16 education was reduced by \$240 million from fiscal year 2011 to fiscal year 2012 and by
17 an additional \$199 million from fiscal year 2012 to fiscal year 2013.

18 In addition, Ohio public school districts received \$457 million in unrestricted Federal
19 "Foundation" stimulus funding in fiscal year 2011. This amount was reduced to zero in
20 fiscal year 2012 and fiscal year 2013.

1 As a result, Ohio public school districts received \$697 million less state and federal
2 funds for general operating purposes in fiscal year 2012 as compared to fiscal year 2011.
3 In fiscal year 2013, Ohio public school districts received \$896 million less than in fiscal
4 year 2011. Consequently, over the course of the fiscal year 2012-2013 biennium, Ohio's
5 public school districts received **\$1.593 billion** less in funding for general operating
6 purposes than they would have received had fiscal year 2011 general purpose funding
7 levels been maintained.

8 Ohio's public school districts also experienced additional reductions due to the
9 elimination of other federal funds that had been provided in fiscal year 2011. Exclusive
10 of the \$457 million in Foundation federal stimulus money in fiscal year 2011, Ohio
11 public school districts received about \$2.8 billion in other federal funds in that fiscal
12 year. By fiscal year 2013, federal funds had decreased to just over \$2 billion. Over the
13 course of the fiscal year 2012-2013 biennium, Ohio's public school districts received
14 about **\$1.225 billion** less in federal funds (exclusive of the loss of the federal Foundation
15 stimulus money) than they would have received had fiscal year 2011 federal funding
16 been maintained for fiscal year 2012 and fiscal year 2013.

17 Total funding losses from both State and federal sources over the biennium will mean
18 that Ohio school districts will receive about **\$2.8 billion** less in total State and federal
19 funds over the two year period than they would have received under a continuation of
20 fiscal year 2011 funding levels.

1 Q. Does this conclude your testimony?

2 A. Yes.
