To Whom it May Concern:

It would seem that the increases in the water and sewer rates for our Senior Citizen Mobile Home Park in Olmsted Township could be more reasonable than what are being considered.

As everyone should be aware of the financial situation for groups of people like us, it seems like it is a goal to make life as difficult as possible. I know there are very few "well-off" people living in our park. We have survived many difficult situations in our life times, and this seems to be just one more way to make us lose sleep at night trying to figure out how we are going to pay our bills. We just hold our breath, and dread what is coming next.

Hopefully, there will be some real thought put into the decision regarding the rates that are being considered. It just leaves us wondering - "What do I do now?"

Sincerely,

Margie L. Lauer
