Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Robert Underwood

Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Sonja Hunter

Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Chao Lin

Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Allen Yoho

Message:
Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Carolyn Gardner

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Derek Reeves

Message:
Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Also on a personal note, I provide most of the income in my household. As well as support my own community. If I lose my position here at American Electric Power I will lose my home, my ability to send my child to college, the income to support local businesses and American Made products. I am the type of person that chooses wisely in purchasing, I don't even shop at stores that provide NON-American products. I give to local agencies with the income that I make to support the homeless and children in need. American Electric Power also gives to local food banks and supports organizations that otherwise could not afford to help our community if it did not receive the support from American Electric Power. I have wondered if anyone has began to think of if there was a major storm, how long would it take another company to get here and "turn the lights back on" when we have people right here that live in this area and supports our communities that are willing to miss holidays (and have done so many times) with their own families to provide that service to the public as well as other areas within and out of our territories. I see other companies just pushing themselves into being the "middle man" just to make a buck and not considering how much effort and sacrifice we as individual employees have given over the years. This is not a good choice to allow these types of companies take what we have built and make it their own. Not only is it unfair but it is UNAMERICAN.

Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Kenneth Howsen

Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Phuoc Chung

Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Edward Schnell
