Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Thomas Householder

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. It is only fair that AEP receives the same treatment as other utilities who moved to a competitive markets years ago. The requested transition time will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Please seriously review and consider my request. AEP wants to do the right thing for its customers and continue being able to serve affordable, reliable and safe electricity when and where it is needed. Thank you for your consideration.

Sincerely,

Jerra Thomas-Schlagheck

Message:
Dear PUCO Commissioners:

Thanks for taking the time to read my thoughts on the situation.

I'd like to take a minute to explain the situation in simple terms.

AEP has been the low cost electricity provider in Ohio for many, many years. We've done it with our coal fired generation, providing cheap electricity for over a million customers - some of whom count on cheap electricity in order to survive.

Because of this, the PUCO asked AEP to remain regulated. AEP obligingly remained regulated.

Then, there was a downturn in the economy and a sudden glut of electricity. Market prices dropped precipitously. Suddenly, AEP's regulated rates looked expensive - so the commission asked AEP to transition to market.

This is completely reasonable, and should be done for everyone's benefit - including AEP's! When Ohio is completely market driven, we will all reap the benefits - and pay the costs - of having a market based pricing system.

Without raising the specter of other utilities that have been allowed extremely protracted timelines to transition to market, AEP has proposed a plan that will allow them to transition quickly and gracefully, with a minimal amount of pain for the employees and the consumers. AEP is offering the state a fair break.

In light of this, I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

I won't invoke the spirit of my four year old by jumping up and down and screaming that denying this transition plan isn't fair - life isn't fair. But denying the plan is not in the best interests of the consumers, because a weak AEP means that we would be one utility closer to a monopoly in Ohio. And the job of the Commission is to protect the consumers - by keeping competition healthy, while making sure the lights stay on. Denying this plan - or even making severe modifications to it - is an abdication of responsibility on the part of the commission.

Thank you for your consideration.

Sincerely,
Edward Fitzgibbon

Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Kevin Clark

Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. Dear PUCO Commissioners:

I urge you to support AEP Ohio's Electric Security Plan filings in Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM.

The Public Utilities Commission of Ohio repeatedly asked AEP Ohio to delay its move to a competitive market. At the time, regulators did so because it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, AEP Ohio has agreed to move to a competitive market.

Other utilities in Ohio , like First Energy, were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is not fair.

Sincerely,

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Christopher Graham

Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Mary Childress

Message:
Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Amanda Butler

Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Michael Waite

Message:
Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Richard Palmer

Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
John Huneck

Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Jay Hoffman

Dear PUCO Commissioners:

I urge you to support AEP Ohio's modified Electric Security Plan (Case Numbers 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM). These plans support fair competition that will offer reliable electric service at the lowest reasonable rates while protecting Ohio jobs.

The Public Utilities Commission of Ohio repeatedly has asked AEP Ohio to delay its move to a competitive market. Regulators had a good reason to do so -- it kept electricity prices lower than what they would have been in the competitive market. Now that market rates are below AEP Ohio's rates, the utility has agreed to your request to move to a competitive market.

Other utilities in Ohio were allowed a multi-billion-dollar, multi-year transition plan. I ask you to support AEP Ohio's request for a three-year transition plan. This transition will ensure robust competition between strong competitors while fairly compensating AEP Ohio for assets currently dedicated to customers, but used by competitors for their own profit. Denying AEP Ohio an appropriate transition period is neither fair nor in the spirit of the deregulation legislation enacted by the Ohio General Assembly.

Sincerely,
Eugene McPeck
