SECTION 1 5th Revised Sheet No. 1 Cancels 4th Revised Sheet No. 1 MESSAGE TOLL TELEPHONE SERVICE TARIFF

GENERAL REGULATIONS

P.U.C.O. No. 7

A. APPLICATION OF TARIFF

- 1. This tariff applies to intraLATA Message Toll Telephone service furnished or made available by The Ohio Bell Telephone Company, hereinafter, referred to as the Telephone Company and for intraLATA or interLATA Message Toll Telephone Service furnished or to be furnished by other connecting carriers concurring in this tariff. Message Toll Telephone Service includes Message Toll Mobile Telephone Service as defined in Section 5 of this tariff and IntraLATA 1+ Service as defined in Section 8 of this tariff.
- 2. Where reference is made in this tariff to regulations, rates and charges specified in other tariffs of the Telephone Company, such tariffs as they now exist, or as they may be revised, added to or supplemented, are hereby adopted and made a part of this tariff.

B. REGULATIONS

1. Definition

Message Toll Telephone Service provides for the furnishing of facilities, other than facilities for exchange service as defined in the Exchange and Network Service Tariff and other than facilities for mobile telephone service as defined in the Ameritech Competitive Services Catalog, for telephone communication between local service areas, or between a local service area and a mobile service area, or between two mobile service areas, in accordance with the regulations and system of charges specified in this tariff.

2. Abuse or Fraudulent Use of Service

See Section 2 of Exchange and Network Services Tariff

3. Advance Payments

See Section 2 of Exchange and Network Services Tariff

- 4. Authorized Attachments or Connections
 - a. Customer-provided equipment and facilities may be attached to or connected with facilities furnished by the Telephone Company for message toll service, subject to the provisions of Section 4 of Exchange and Network Services Tariff.
 - b. Where customer-provided equipment or facilities are involved in the transmission or reception, or both, of a toll call, the regulations and rates for each call are those applicable for message toll telephone customer-dialed, operator-handled or conference service, according to the connection established, as set forth in this tariff.
- 5. Construction Charges

See Section 2 of Exchange and Network Services

January 6, 1995 Issued:

Effective: January 9, 1995

In accordance with Order No. 93-487-TP-ALT, dated November 23, 1994 and Commission Entry in Case No. 93-487-TP-ALT, dated January 5, 1995.

 (\mathbf{T})

2nd Revised Sheet No. 3

P.U.C.O. No. 7 2nd MESSAGE TOLL TELEPHONE SERVICE TARIFF

GENERAL REGULATIONS

- B. REGULATIONS (Cont'd)
 - 10. Local Service Area

See Section 2 of Exchange and Network Services Tariff.

11. Mobile Service Area

See the Ameritech Competitive Services Catalog.

- 12. Obligation of Customer
 - a. The calling party shall establish his identity as often as may be necessary in the course of any communication.
 - b. The calling party shall be solely responsible for knowing the identity of the person or persons with whom connection is made at the called station or stations.
- 13. Payment for Service

See Section 2 of Exchange and Network Services Tariff.

14. Priority of Service

In case a shortage of facilities exists at any time, either for temporary or protracted periods, the establishment of local and message toll telephone service shall take precedence over all other services, except as the public interest shall otherwise require.

- 15. Transfer of Toll Charge Service
 - a. Regulations
 - Transfer of toll charge service provides an arrangement in connection with message toll telephone service whereby a customer's patrons have the privilege of calling him without the payment of a charge for a message toll call and without having to request specific reversal of this charge.
 - (2) This service is available only to customers having PBX service, Centrex service, or non-residence or residence individual line service, except semi-public telephone service.
 - (3) A customer selects the exchanges in which he desires such service to be furnished, subject to the approval of the Telephone Company. Each exchange selected includes all of the other Telephone Company exchanges within its local service area. The Telephone Company assigns and lists in the alphabetical directory serving the local service area of each of the selected exchanges, a special telephone number designation for the use of patrons.

Issued: January 6, 1995

Effective: January 9, 1995

GENERAL REGULATIONS

B. REGULATIONS (Cont'd)

19. Emergency Calls Offered at No Charge

Message toll telephone calls, to governmental emergency service agencies as set forth in a. following, having primary or principal responsibility with respect to the provision of emergency services to persons and property in the area from which the call is made, meeting the definition and criteria of an emergency call as set forth in b. following, are offered at no charge to customers.

- a. Governmental fire fighting, police, Ohio State Highway Patrol and emergency squad service (as designated by the appropriate governmental agency) qualify as governmental emergency service agencies provided they answer emergency service calls on a personally attended (live) twenty-four (24) hour basis, 365 days a year, including holidays.
- b. An emergency is an occurrence or set of circumstances in which conditions pose immediate threat to human life and/or property and necessitate that prompt action be taken. An emergency call is an originated call of short duration to a governmental emergency service agency in order to seek assistance for such an emergency.
- c. If a call from a locality to an emergency agency is included in a functioning 911 system, then calls from that locality to that emergency agency will be excluded from the provisions of this Paragraph 19.
- 20. Use of Service

The Telephone Company will permit resale or sharing of message toll telephone service under the terms and regulations of Paragraph 2.1.C.3.a (C) of Section 2 of the Exchange and Network Services Tariff and subject to the provisions of this tariff.

A. TWO POINT SERVICE (Cont'd)

- 3. Customer-Dialed service is that service where the person originating the call, dials the telephone number desired without the assistance of the telephone company operator, or when facilities are not available for dial completion, gives to a telephone company operator the telephone number of the desired telephone, private branch exchange system, or private branch exchange station which is reached directly rather than through a private branch exchange attendant; or gives the telephone number assigned to the MCC for interconnected service.
- 4. Operator-Handled service is that service requested of a telephone company operator, by the person originating a call, which is in addition to the customer-dialed service specified in A-3 preceding.
 - a. Station-to-Station calls are those calls where the person originating the call specifies to a telephone company operator a particular telephone number to be reached.
 - b. Person-to-Person calls are those calls where the person originating the call specifies to a telephone company operator a particular person to be reached, a particular mobile station to be reached through a MCC operator, or a particular station, department or office to be reached through a private branch exchange attendant.
 - (1) When, after the telephone, MCC operator, or private branch exchange system called has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other person or mobile station to be reached through a MCC, or to any other station, department or office to be reached through a private branch exchange attendant, the call is charged for as person-to-person.
 - (2) Where the person originating the call wishes arrangements made in advance with a particular party or station for the establishment of a connection at a specified time (appointment call), the call is charged for as person-to-person.
 - (3) When at the request of the calling party the Telephone Company employs a messenger or other means to bring the called party to a telephone (messenger call), the call is charged for as person-to-person, and in addition to the charges for the message, a charge is made for the exact amount expended, if any, for messenger service.
 - c. Third Number Billed calls are those calls where the person originating the call specifies to a telephone company operator to bill the call to an authorized station, as determined by the Telephone Company, other than the station originating the call, or the station where the call is terminated.

Issued: January 6, 1995

A. TWO POINT SERVICE (Cont'd)

- 5. Collect Call (Reversed Charge), or Calling Card
 - a. Subject to the provisions in A-6 following, station-to-station and person-to-person calls (including messenger charges, if applicable) may, upon request, be:
 - Collect, i.e., charged against the called telephone number provided the charges are accepted at the called telephone number, and completed to other than public or semi-public telephones;
 - (2)
 - (3) Calling Card, i.e., calls placed using a billing arrangement by which a call may be charged to an authorized Telephone Company calling card number.
- 6. Initial Minute, Additional Minutes, Service Charges and Discounts
 - a. Two point message toll service rates are quoted in terms of initial minute, additional minutes and service charges in the Schedule of Rates in A-10 following.
 - (1) Initial Minute

Initial minute rates are for connections of one minute or any fraction thereof.

(2) Additional Minutes

Additional minute rates are for each additional minute or any fraction thereof that the connection continues beyond the initial minute.

(3) Customer Dialed Station-to-Station

Only initial minute and additional minute rates apply.

(4) Automated Calling Card Station-to-Station, Customer Dialed Operator Assisted - Calling Card Station-to-Station, Operator
 Handled Station-to-Station and Person-to-Person.

Initial minute and additional minute rates apply in addition to a service charge.

TWO POINT SERVICE

A. TWO POINT SERVICE (Cont'd)

- 6. Initial Minute, Additional Minutes, Service Charge and Discounts (Cont'd)
 - c. Discounts for the Evening and Night & Weekend reduced rate periods in the Schedule of Rates are expressed as a percent reduction of the charge calculated at the rates for initial minute and additional minutes, and are applied to that portion of the messages occuring within the rate discount periods stated in the Schedule of Rates.
 - (1) For all classes of service the discount is applied only to the sum of the initial minute and additional minute charges. The discount is computed separately for charges in each rate period and the results are then totaled.
 - (2) When application of the discount results in a fractional charge, the amount will be rounded down to the lower cent.
- 7. Timing of Messages
 - a. With respect to customer-dialed, automated calling card station-tostation, customer-dialed operator assisted and operator-handled station-to-station and third number billed calls, a message is considered as starting at the time telephone communication is established between the calling station and the called telephone number, MCC operator, PBX system, or PBX station reached directly rather than through a PBX attendant.
 - b. With respect to operator-handled person-to-person calls, a message is considered as starting at the time telephone communication is established between the person calling and (1) the particular person called, (2) another party acceptable to the person calling, (3) the PBX station reached through a PBX attendant, or (4) the particular MCC mobile station called, or another MCC mobile station acceptable to the calling party.
 - c. Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Telephone Company operator.
 - d. Chargeable time does not include time lost because of faults or defects in the service.

Issued: January 6, 1995

10. Schedule of Rates (Cont'd)

a. All Classes of Service - Schedule A, B and C (Cont'd)

- (1) For customer dialed station-to-station calls, only initial minute and additional minute rates apply.
- (2) Schedule A rates apply to calls terminating or originating in an Independent Telephone Company exchange (unless Schedule B rates are available for such Independent Telephone Company exchange), all operator handled/assisted calls and all sent-paid public and semi-public calls.
- (3) Schedule B rates apply for customer-dialed station-to-station calling and automated calling card station-to-station calls.
- (4) Schedule C is available only to customers who subscribe to Minute Line Service as set forth in Section 5 of the Exchange and Network Services Tariff and only for customer-dialed station-to-station calling.
- (5) The minimum rates for two-point Message Toll Telephone Service (MTTS) are those which would produce aggregate revenues commensurate with the costs incurred by the Company in providing two-point MTTS service at the minimum rates. For the purposes of this regulation, the Company's costs will be measured by its access payments where applicable, and its intrastate access rates (as set forth in its Access Service Tariff), except where the PUCO has deemed the Company's intrastate access service to be competitive for certain customers and/or geographic areas.
- (6) Schedules B and C are available only between designated exchange areas as set forth in the Pricing List.
- (7) Schedule B and C will be furnished only where facilities and conditions permit.
- (8) Total charge for calls collected at Coin Telephones will be computed to the nearest multiple of \$.05.

A. REGULATIONS

- 1. General
 - a. Message Toll Mobile Telephone Service is a communication service through a base station between a mobile unit and a wire telephone located outside the mobile service area associated with such base station, or between two mobile units served through base stations having different rate centers.
 - b. Message Toll Mobile Telephone Service also includes service through a base station between a wire telephone or a mobile unit, and another unit which is authorized by the Federal Communications Commission to communicate with the base station, or between two such other units.
 - c. In the application of regulations and rates, units other than mobile units which are authorized by the Federal Communications Commission to communicate with a base station are considered as mobile units.
 - d. Message Toll Mobile Telephone Service is available to mobile units when within range of a base station through which such service is furnished, and subject to transmission, atmospheric and like limitations.
 - e. Calls may be filed either to a specified person or to a specified telephone.
 - f.

(D)

(D)

 Message toll mobile telephone is available through the base stations of the mobile service areas where the Telephone Company has arranged its facilities for such service.

Other carriers which concur in this tariff are:

MESSAGE TOLL TELEPHONE SERVICE TARIFF DIRECTORY LISTINGS AND SERVICES

P.U.C.O. No. 7

A. DIRECTORY ASSISTANCE SERVICE

Directory Assistance Service shall not be construed to be a part of Message Toll Telephone Service for the purpose of concurrences by other companies as set forth in A-1 of Section 1 of this tariff except such other companies as shall have a Directory Assistance Service charging plan approved by The Public Utilities Commission of Ohio.

1. Regulations

- a. The Telephone Company will offer Directory Assistance Service on an interim basis, subject to P.U.C.O. alteration or cancellation.
- b. The regulations and rates set forth in this paragraph A apply to calls placed to directory assistance for the purpose of obtaining telephone numbers of services located outside the local service area but within the same numbering plan area. The number of such telephone numbers furnished on each call shall be limited to two.
 - (1) A numbering plan area, as set forth above, is the territory which shares a common area code.
- c. Except as otherwise specified in (3)-(b)-(iii) following, the following are not subject to the regulations and rates set forth in A-1 and 2:
 - (1) Service furnished to hospitals and skilled nursing homes.

For the purpose of this paragraph, the term "skilled nursing homes" applies to those nursing homes that provide around-the-clock professional nursing care.

- (2) Public, semi-public and Customer-Owned, Coin-Operated Telephones (COCOT).
- (3) Services furnished to the handicapped.
 - (a) Impaired persons
 - (i) For purposes of this tariff, the definition of impaired refers to those persons with communication impairments, including those hearing impaired, deaf, deaf/blind, or speech impaired persons who have an impairment that prevents them from communicating over the telephone without the aid of a telecommunications device for the deaf.

Issued: January 6, 1995

SECTION 7 6th Revised Sheet No. 2 Cancels 5th Revised Sheet No. 2

P.U.C.O. No. 7 5th Revised Sheet No. 2 MESSAGE TOLL TELEPHONE SERVICE TARIFF OPTIONAL OFF-PEAK TOLL SERVICE

B. RATES

- 1. Monthly rates for off-peak toll service are based on distance and are determined on a per line basis for the first hour and each additional fifteen minutes of use. Unless otherwise requested by the customer, where off-peak toll is furnished on two or more services of the same class, grade (T) and type on a given premises, the initial time period will be the product of one hour multiplied by the number of services; the additional period (T) will be the sum of the accumulated measured times of such services in (T) excess of that product.
- 2. Each message will be counted as at least one minute in duration.
- 3. Rates for off-peak toll service are as follows:

Option	Miles	Maximum Rate First Hour or Fraction Thereof	Maximum Rate Each Additional 15 Minutes or Fraction Thereof	(C)
1	0 - 10	\$6.30	\$1.50	ļ
2	0 - 16	7.50	1.80	1
3	0 - 22	8.30	2.10	(ċ)

- Note: The Ohio Bell Telephone Company will only offer a single service covering 0-22 miles but other concurring telephone companies may elect shorter distances in various exchange areas.
- 4. When off-peak is ordered on an existing service, the change charge set forth (T) in Section 3 of the Exchange and Network Services Tariff or the appropriate concurring telephone company's tariff will apply.
- 5. A minimum service period of one month is applicable and applies only to toll messages after the service is instituted. In no case will it apply to toll messages made before ordering the service.
 - a. The minimum service period of one month begins the day following completion of establishment of the service.
 - b. The minimum charge applicable in event a customer terminates off-peak toll service prior to one month is the charge for the first hour.

P.U.C.O. No. 2 PRIVATE LINE SERVICE TARIFF

2. REGULATIONS (Cont'd)

2.2 Use

- 2.2.1 Private line services are furnished only
- A. For the transmission of communications in which the customer, authorized user or joint user has a direct interest.
- B. For the transmission of communications to, from, within and between air carriers, where the customer is an aeronautical communications company licensed under the Aviation Services rules of the Federal Communications Commission to operate stations in the aeronautical mobile and fixed services.
- C. Where the customer is a composite data service vendor, for the transmission of switched data (non-voice) communications for its patrons when such communications relate directly to the business of such patrons.
- 2.2.2 Private line service shall not be used for an unlawful purpose.
- 2.2.3 The Telephone Company will permit resale or sharing of private line service under the terms and regulations of Paragraph 2.1.C.3.a of Section 2 of the Exchange and Network Services Tariff and subject to the provisions of this tariff.

- 2. REGULATIONS (Cont'd)
- 2.4 Payment Arrangements and Credit Allowance (Cont'd)
- 2.4.8 Allowance for Interruptions (Cont'd)
- A. Series 1000, 2000, 3000 and 6000 Channels and High Capacity Transport Service, Basic Digital Service and Direct Digital Service (Cont'd)
 - Service between exchange areas, but excluding such service as is included with the scope of 1. preceding (Cont'd)
 - e. Direct Digital Service

No credit is allowed for interruptions to service if such service is restored within 24 consecutive hours after said interruption. In the event that the service is not restored within the time specified, the customer is credited with the proportionate part of the monthly charge for the entire period of interruption.

2.4.9 Refusal to Furnish Service

The Telephone Company may refuse an application for service

- A. if the applicant is indebted to the Telephone Company for a service previously rendered or furnished, or
- B. upon objection to the furnishing thereof made by or on behalf of any governmental authority.
- 2.4.10 Minimum and Maximum Level Pricing
- A. For certain items offered under the provisions of this tariff the rates and charges are identified as maximum level. The present applicable rates and charges are covered in a pricing list furnished to the Public Utilities Commission of Ohio (P.U.C.O.) by the Telephone Company.
- B. The Telephone Company will furnish to the P.U.C.O. a new list reflecting changed rates and charges on one day's notice.

2. REGULATIONS (Cont'd)

- 2.4 Payment Arrangements and Credit Allowance (Cont'd)
 - 2.4.10 Minimum and Maximum Level Pricing (Cont'd)
 - B. (Cont'd)

The provisions of this paragraph 2.4.10 apply to the following:

Alternate Use Arrangements Ameritech Base Rate Service Ameritech DS1 Service Ameritech DS3 Service Ameritech OC3 Service Ameritech OC12 Service Ameritech OC3 Dedicated Ring Service Ameritech OC12 Dedicated Ring Service Basic Digital Service (BDS) Channel Conditioning Direct Digital Service (DDS) High Capacity Transport Service

All series 1000, 2000, 3000 and 6000 interexchange, interoffice, local and local service area channels which originate and terminate in the central office areas set forth in Paragraph 2.9, including miscellaneous channel arrangements, services and facilities.

These provisions do not apply to 1001, 1002A, 1002AA and 3001 channels.

2.4.11 Promotional Offerings

The Telephone Company may from time to time offer special promotions of various services offered under this tariff in order to attract new customers and/or increase existing customer awareness of the specially-promoted tariff service.

Waiver or reduction of recurring or nonrecurring charges during such special promotions shall be for a limited time, not exceeding 90 days for any single customer. Notification of promotional offerings will be provided on one day's notice to the Public Utilities Commission of Ohio as an addendum to this tariff.

* Also cancels Pricing List Sheet No. 49.

 - 3.2.10 Ameritech Base Rate, Ameritech DS1 and Ameritech DS3 Services (Cont'd)
 - C. Regulations (Cont'd)
 - 2. (Cont'd)
 - (d) Termination Charge
 - Customers requesting termination of service prior to the expiration date of the VTPP term will be liable for a termination charge. The termination charge for all VTPP terms for Ameritech Base Rate, DS1 and DS3 (excluding Service Packages), will be calculated as follows:

The dollar difference between the appropriate monthly or VTPP rate currently obtainable for the number of months the service was actually in service and the customer's current VTPP rate for each month the service was provided.

For example, a customer subscribed to a 60 month VTPP term and disconnected service during the 37th month. The customer's termination charge would be:

[36 month VTPP Rate - 60 month VTPP rate] \times 37 = Termination Charge.

The 36 month VTPP rate would have been obtainable for a service for 37 months - 36 months at the 36 month VTPP rate and a one month extension (as described in (c)(1) preceding). (T)

All termination charges will be based on the VTPP rates in effect at the time of termination.

Termination Liability charges for all VTPP terms that have been initiated prior to the effective date of this tariff may, at the customer's request, be charged as described above or pay a percentage of the monthly charges for the remainder of the term as indicated below:

Terms in Months	Termination Percentage
12	85

- 3.2 Classification and Rates (Cont'd)
- 3.2.11 Ameritech OC-3 and Ameritech OC-12 Services
- A. Basic Channel Description
 - 1. General

Ameritech OC-3 channels and Ameritech OC-12 channels provide high speed synchronous optical fiber-based full duplex data transmission capabilities. These services provide optical data transmission with the following characteristics:

- Ameritech OC-3 Service provides channels operating at the terminating bit rate of 155.52 Mbps; and,
- Ameritech OC-12 Service provides channels operating at the terminating bit rate of 622.08 Mbps.

Ameritech OC-3 and Ameritech OC-12 channels may be used to connect:

- a customer-designated premises to another customer-designated premises with add/drop multiplexing capability (channelized) at a wire center location between the two premises, or a customer-designated premises to another customer-designated premises without the add/drop multiplexing capability (non-channelized).
- a customer-designated premises to a Telephone Company location where add/drop multiplexing, add/drop functions and/or cross-connections are performed.

Ameritech OC-3 Service and Ameritech OC-12 Service may be connected (1) by using the appropriate OC-3 or OC-12 add/drop multiplexer (mux) along with the add/drop function to an Ameritech DS1 and/or Ameritech DS3 at suitably equipped wire centers associated with the customer's premises (customer's serving wire center plus one distant wire center), or (2), by using the full bandwidth (non-channelized) premises to premises.

Where appropriate facilities are not immediately available, negotiated intervals may apply.

(N)

(N)

Issued: January 6, 1995

Effective: January 9, 1995

In accordance with Order No. 94-1822-TP-ATA, dated January 5, 1995, and Order No. 93-487-TP-ALT, dated November 23, 1994 and Commission Entry in Case No. 93-487-TP-ALT, dated January 5, 1995, and by virtue of Order No. 84-944-TP-COI, issued by The Public Utilities Commission of Ohio, April 9, 1985.

Original Sheet No. 101.16

(N)

(N)

- 3. CHANNELS (Cont'd)
- 3.2 Classification and Rates (Cont'd)
 - 3.2.11 Ameritech OC-3 and Ameritech OC-12 Services (Cont'd)
 - A. Basic Channel Description (Cont'd)
 - 1. General (Cont'd)

Ameritech OC-3 Service and Ameritech OC-12 Service based on customer requirements can be configured in any of the following ways:

- OC-3 three STS-1s (synchronous transport signals) each with DS3
 payload mapping
 - three STS-1s each with DS1 payload mapping
 - three STS-1s mixed, with DS3 and DS1 payload mapping
 - a single non-channelized (concatenated) STS-3C signal, without respect to payload content

OC-12 - twelve STS-1s each with DS3 payload mapping

- twelve STS-1s each with DS1 payload mapping
- twelve STS-1s mixed, with DS3 and DS1 payload mapping.
- four STS-3Cs, each without respect to payload content
- from one to three STS-3Cs, each without respect to payload content, mixed with from three to nine STS-1s, each containing either DS1s or DS3s, subject to utilization of the total OC-12 capacity
- a single non-channelized (concatenated) STS-12C signal without respect to payload content.

The customer is responsible via the ordering process to identify what STS signal configuration is to be contained in each OC-3 and OC-12 service connection and each STS-1 payload content. This information is needed for routing and connection purposes in the network.

- B. Channel Configuration
- 1. Ameritech OC-3 and Ameritech OC-12 Local Distribution Channels

Ameritech OC-3 and Ameritech OC-12 Channels consist of Local Distribution Channels (LDCs), interoffice transport, and optional features and functions.

Ameritech OC-3 and Ameritech OC-12 Local Distribution Channels provide optical interconnection between the Telephone Company Serving Wire Center (SWC) and the customer premises.

Issued: January 6, 1995

Effective: January 9, 1995

In accordance with Order No. 94-1822-TP-ATA, dated January 5, 1995, and Order No. 93-487-TP-ALT, dated November 23, 1994 and Commission Entry in Case No. 93-487-TP-ALT, dated January 5, 1995, and by virtue of Order No. 84-944-TP-COI, issued by The Public Utilities Commission of Ohio, April 9, 1985.

Original Sheet No. 101.17

- 3. CHANNELS (Cont'd)
- 3.2 Classification and Rates (Cont'd)
 - 3.2.11 Ameritech OC-3 and Ameritech OC-12 Services (Cont'd)
 - B. Channel Configuration (Cont'd)

The following types of LDCs are available:

	Data Transmission				
Terminating Bit Rate	Loop Format	Format	Interface		
155.52	4 fiber	Synchronous	FC B		
622.08	4 fiber	Synchronous	FC D		

When Ameritech OC-3 Service and Ameritech OC-12 Service is provided, the customer is responsible for providing the Optical Line Termination (OLT) at the customer's premises. The OLT supplied at the customer premises must be compatible with the OLT used by the Telephone Company in the Serving Wire Center. The Telephone Company will work cooperatively with the customer to select compatible OLTs which conform to the requirements set forth in Technical Reference Publication AM-TR-NIS-000111.

1. Ameritech OC-3 and Ameritech OC-12 Local Distribution Channels (Cont'd)

All LDCs comprising a channel must have the same terminating bit rate unless multiplexing is performed at a Telephone Company Hub location.

2. Interoffice Transport

Interoffice Transport facilities comprised of Channel Mileage Termination (CMT), and Channel Mileage (CM), described in Section 3.2.10(B) preceding, provide the transmission paths between Serving Wire Centers associated with two customer-designated premises or between a Serving Wire Center associated with a customer premises and a Telephone Company Hub location. Two interoffice transport types are available. OC-3 which supports bit rate of 155.52 and OC-12 transport at the 622.08 bit rate.

Ameritech OC-3 LDCs are interconnected to OC-3 transport and Ameritech OC-12 LDCs are interconnected to OC-12 transport.

Issued: January 6, 1995

Effective: January 9, 1995

In accordance with Order No. 94-1822-TP-ATA, dated January 5, 1995, and Order No. 93-487-TP-ALT, dated November 23, 1994 and Commission Entry in Case No. 93-487-TP-ALT, dated January 5, 1995, and by virtue of Order No. 84-944-TP-COI, issued by The Public Utilities Commission of Ohio, April 9, 1985.

- 3. CHANNELS (Cont'd)
- 3.2 Classification and Rates (Cont'd)
- 3.2.11 Ameritech OC-3 and Ameritech OC-12 Services (Cont'd)
- B. Channel Configuration (Cont'd)
- 3. Optional Features and Functions

The following optional features and functions are available: Add/Drop Multiplexing, Add/Drop Function, 1+1 Protection, 1+1 Protection with Cable Survivability, 1+1 Protection with Route Survivability and OC-3 and OC-12 cross-connects.

(a) OC-3 and OC-12 Add/Drop Multiplexing

An arrangement that allows an Ameritech OC-3 or Ameritech OC-12 channel operating at a terminating speed of 155.52 Mbps and 622.08 Mbps, respectively, to add/drop a lower speed channel by using this feature along with the add/drop function as stated in (b) following.

(b) Add/Drop Function

The Ameritech OC-3 Service and Ameritech OC-12 Service are able to add or drop lower level signals as shown in the matrix following. The add/drop function is offered at a circuit level. For example, if a customer wants to drop one Ameritech DS3 signal from an Ameritech OC-12 service, they would pay one add/drop charge for the DS3, plus the OC-12 add/drop multiplexing charge.

An Ameritech OC-3 and Ameritech OC-12 is only able to add/or drop the services that have been identified by payload content (mapped) within the bandwidth. DS1 mapped STS-1 signals are only able to connect to an Ameritech DS1, and DS3 mapped STS-1 signals are only able to connect to an Ameritech DS3. If a change is required it may be accomplished by the customer's CPE or through the current asynchronous environment for multiplexing of Ameritech DS3 and Ameritech DS1 services stated in Section 3.2.10.

The options in (a) and (b) above cannot be used with Ameritech OC-3 or OC-12 Service configured by the customer to contain a single non-channelized (concatenated) STS-3C or STS-12C signal, respectively.

Ī				DS1			DS3	·	OC3

- 3.2.11 Ameritech OC-3 and Ameritech OC-12 Services (Cont'd)
- B. Channel Configuration (Cont'd)
 - 3. Optional Features and Functions (Cont'd)
 - (c) OC-3 and OC-12 Cross-Connect

An arrangement to cross-connect Ameritech OC-3 Service or Ameritech OC-12 Service to another service or to an add/drop function of the same speed at a wire center for the same or for a different customer on a per circuit basis. The customer must purchase service to the wire center from his designated premises. One charge applies per service cross-connected.

(d) 1+1 Protection

The base Ameritech OC-3 Service and Ameritech OC-12 Service are offered with four fibers in the same cable, but the protection card will only be activated when this option is ordered. This will allow customers to order protection if their CPE can accommodate it.

(e) 1+1 Protection with Cable Survivability

This option will provide 1+1 protection and additional loop survivability with the working fiber pair and protect fiber pair placed in separate cables within the same conduit.

(f) 1+1 Protection with Route Survivability

This option will provide 1+1 protection and offer additional protection from fiber cable cuts by routing the working fiber pair via the primary route and the protect fiber pair via a physically diverse alternate route. The protect fiber will be charged on a distance sensitive basis, based on quarter route miles, from the customer premises to the serving wire center.

Issued: January 6, 1995

Effective: January 9, 1995

In accordance with Order No. 94-1822-TP-ATA, dated January 5, 1995, and Order No. 93-487-TP-ALT, dated November 23, 1994 and Commission Entry in Case No. 93-487-TP-ALT, dated January 5, 1995, and by virtue of Order No. 84-944-TP-COI, issued by The Public Utilities Commission of Ohio, April 9, 1985.

- 3.2.11 Ameritech OC-3 and Ameritech OC-12 Services (Cont'd)
- B. Channel Configuration (Cont'd)
- 3. Optional Features and Functions (Cont'd)
- f. 1+1 Protection with Route Survivability (Cont'd)

This option will also assure 100 percent availability of the service. Any service interruption will result in a credit equal to one month's bill for the circuit involved. If the interruption occurs on a Local Distribution Channel without this option, normal terms and conditions for out of service credits as stated in 3.2.11.C.4 following will apply. An interruption period will start when an inoperative service is reported to the Telephone Company and end when the service is operative. In any month, as a result of an interruption, the total credit per rate element of the interrupted service may not exceed 100 percent of the monthly charge for that particular rate element. All other terms and conditions for Credit Allowances as stated in 3.2.11.C.4 following will apply.

Prior to confirming an order for service, the Telephone Company will provide a proposed route diagram to the customer. The diagram will include the number of quarter route miles and method used to support the number needed to provide the alternate route. In order to avoid compromising Route Survivability information, the Telephone Company will provide this information only to the ordering customer.

Installation of the 1+1 protection with Route Survivability option will not begin until the customer has accepted the proposed routing by the Telephone Company.

- C. Regulations
 - 1. The regulations specified herein are in addition to the applicable regulations specified in this and other tariffs of the Telephone Company.
- 2. There are two types of rates and charges. These are monthly rates and nonrecurring charges. The rates and charges are described as follows:
 - (a) Monthly Rates

Monthly rates are flat recurring rates that apply each month or fraction thereof that a Special Access Service is provided. For billing purposes, each month is considered to have 30 days.

(b) Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for specific work activity (i.e., installation of new services and rearrangements of installed services). The nonrecurring charges that apply for Ameritech OC-3 and Ameritech OC-12 Services are described as follows.

(1) Administrative Charge

The Administrative Charge applies any time a customer initiates an order for service. This charge applies once per customer order. Administrative Charges for Ameritech OC-3 and Ameritech OC-12 Services are as set forth in the Pricing List.

(2) Design and Central Office Connection Charge

The Design and Central Office Connection Charge applies to each service installed, and is charged once per circuit. The nonrecurring charges for design and central office connection are as set forth in the Pricing List.

(3) Customer Connection Charge

The Customer Connection Charge applies to each service installed, and is charged once per Local Distribution Channel. The nonrecurring charges for customer connection are as set forth in the Pricing List.

- 3.2.11 Ameritech OC-3 and Ameritech OC-12 Services (Cont'd)
- C. Regulations (Cont'd)
- 3. (Cont'd)
 - (c) Renewal Options
 - (1) Renewal of VTPP

At the expiration of the VTPP term and if the customer wishes to continue Ameritech OC-3 or OC-12 Service, the customer may select a new VTPP at the prevailing VTPP rate. If a customer does not wish to renew the VTPP at the expiration of the term, the customer's service will automatically convert to the month-to-month or Ameritech DS3 Monthly Extension rates.

(d) Termination Charge

Customers requesting termination of service prior to the expiration date of the VTPP term will be liable for a termination charge. The termination charge for all VTPP terms for Ameritech OC-3 and Ameritech OC-12 will be calculated as follows:

The dollar difference between the appropriate monthly or VTPP rate currently obtainable for the number of months the service was actually in service and the customer's current VTPP rate for each month the service was provided.

For example, a customer subscribed to a 60 month VTPP term and disconnected service during the 37th month. The customer's termination charge would be:

[36 month VTPP Rate - 60 month VTPP rate] x 37 = Termination Charge.

The 36 month VTPP rate would have been obtainable for a service for 37 months - 36 months at the 36 month VTPP rate and a one month extension (as described in C.3. preceding).

All termination charges will be based on the VTPP rates in effect at the time of termination.

Issued: January 6, 1995

Effective: January 9, 1995

In accordance with Order No. 94-1822-TP-ATA, dated January 5, 1995, and Order No. 93-487-TP-ALT, dated November 23, 1994 and Commission Entry in Case No. 93-487-TP-ALT, dated January 5, 1995, and by virtue of Order No. 84-944-TP-COI, issued by The Public Utilities Commission of Ohio, April 9, 1985.

- C. Regulations (Cont'd)
- 2. (Cont'd)
 - (b) Nonrecurring Charges (Cont'd)
 - (4) Service Rearrangements
 - (a) If a change involves the rearrangement of an Ameritech OC-3 or Ameritech OC-12 from point-to-point (non-channelized) service to an arrangement with an add/drop multiplexer and an Add/Drop function or vice-versa, an Administrative Charge, Design and Central Office Connection Charge and Customer Connection Charge will apply.
 - (b) If a change is made in payload mapping within an Ameritech OC-3 or Ameritech OC-12 package, this change will require a redesign of the Ameritech OC-3 or Ameritech OC-12, and an Administrative Charge and Design and Central Office Connection Charge will apply.
- 3. Ameritech OC-3 and OC-12 Services are offered under the Variable Term Payment Plan (VTPP) as specified in Section 2 of the Exchange and Network Services Tariff. All conditions and regulations pertaining to the VTPP are included in Section 2 of the Exchange and Network Services Tariff, except as modified in the following paragraphs:
 - (a) Contract Periods

Allows the customer to pay a fixed rate for specific Ameritech OC-3 and OC-12 Services over a 12, 36 or 60 month period.

(b) Price List Changes

During the term of the selected VTPP, Telephone Company initiated price list changes (increases or decreases) will automatically be applied to the monthly payments for the remaining months of the current VTPP term. But in no case will any rate change cause the " monthly rate during the VTPP term to exceed the rates in effect at the beginning of the customer's VTPP term.

Issued: January 6, 1995

Effective: January 9, 1995

In accordance with Order No. 94-1822-TP-ATA, dated January 5, 1995, and Order No. 93-487-TP-ALT, dated November 23, 1994 and Commission Entry in Case No. 93-487-TP-ALT, dated January 5, 1995, and by virtue of Order No. 84-944-TP-COI, issued by The Public Utilities Commission of Ohio, April 9, 1985.

- 3.2.11 Ameritech OC-3 and Ameritech OC-12 Services (Cont'd)
- C. Regulations (Cont'd)
- 3. (Cont'd)
 - (d) Termination Charge (Cont'd)

Termination Liability charges for all VTPP terms that have been initiated prior to the effective date of this tariff may, at the customer's request, be charged as described above or pay a percentage of the monthly charges for the remainder of the term as indicated below:

Terms in Months	Termination Percentage
10	95
12	85
36	75
60	60

(e) Conversion of service to New VTPP or Higher Speed

During a customer's VTPP term, conversion may be made to a new VTPP term of the same or different length or to a higher speed service. If the expiration date for the new service or VTPP term is beyond the end of the original VTPP term, the remaining VTPP charges for the original term will not apply. If no physical changes are made to the service, the Administrative Charge, the Design and Central Office Connection Charge and the Customer Connection Charge will not apply.

(f) Commission approval of the above termination liability language for VTPP contracts is not intended to indicate that the Commission has sanctioned any particular legal result should a dispute arise between the parties. In the event of dispute signators to such contracts may pursue whatever legal remedies they deem appropriate to resolve the dispute.

- 3.2.11 Ameritech OC-3 and Ameritech OC-12 Services (Cont'd)
- C. Regulations (Cont'd)
- 4. Credit Allowance for Service Interruptions

For Ameritech OC-3 and Ameritech OC-12 Local Distribution Channels, Channel Mileage Terminations and Channel Mileage; no credit shall be allowed for an interruption period of less than 30 minutes. An interruption period starts when an inoperative service is released by the customer to the Telephone Company for testing/repair and ends when the service is operative. The customer must make the circuit available for testing by the Telephone Company and provide access as needed. Suspension of the calculated interruption period will occur when access to the customer premises cannot be gained or the customer does not release the circuit experiencing trouble.

In any month, as a result of the interruption, the total credit per rate element of the interrupted service may not exceed 100 percent of the monthly charge for that particular rate element.

Credit Allowance Schedule

Interruption Period	Applicable Credit				
More than 30 minutes, but less than 2 hours	1/1440th per 30 minute interval				
Interruption Period Credit Per Interruption	Interruption Period Credit Per Interruption				
2 Hours to 4 Hours OC-3 LDC 50.00 OC-3 CMT 50.00 OC-3 CM 25.00 OC-12 LDC 150.00 OC-12 CMT 50.00 OC-12 CM 25.00	Over 4 Hours 100.00 OC-3 LDC 100.00 OC-3 CMT 100.00 OC-3 CM 50.00 OC-12 LDC 300.00 OC-12 CMT 100.00 OC-12 CM 25.00				
	or 1/1440th per 30 minute				

5. Minimum Periods

The minimum service period for Ameritech OC-3 and Ameritech OC-12 Services is 12 months. After the minimum period is satisfied, the monthly rate will apply unless a VTPP is selected.

Issued: January 6, 1995

Effective: January 9, 1995

interval, whichever is greater

(N)

- 3. CHANNELS (Cont'd)
 - 3.2 Classification and Rates (Cont'd)
 - 3.2.12 Ameritech OC-3 and Ameritech OC-12 Dedicated Ring
 - A. Basic Channel Description
 - 1. General

Ameritech OC-3 and Ameritech OC-12 Dedicated Ring provides a customer a dedicated custom network. The network is in a ring architecture designed to provide increased reliability and functionality connecting multiple customer-designated locations and specified Telephone Company Central Offices (COs) via self healing network designs. Dedicated Ring will provide 50 millisecond protection switching to assure 100 percent availability of the services on the ring. Dedicated Ring is provided where appropriate SONET facilities are available. Where facilities are not available, Special Construction may apply.

Dedicated Ring is an alternative to Ameritech OC-3 and Ameritech OC-12 point-to-point service between multiple customer locations. Rate elements include nodes, ports, mileage between nodes, regenerators and Optical to Electrical DS1 add/drop capability. Rates are specified in the Pricing List.

Existing customers with point-to-point Ameritech OC-3 and Ameritech OC-12 may upgrade to Dedicated Ring without termination liability.

Dedicated Ring will not be offered on a Shared Network basis.

A service interruption will result in a credit equal to one month's bill for the individual port-to-port connection involved. An interruption of service will start when an inoperative service is reported to the Telephone Company and end when the service is operative. In any month, as a result of an interruption, the total credit per rate element of the interrupted service may not exceed 100 percent of the monthly charge for that particular rate element.

- B. Dedicated Ring Configuration
- 1. Nodes

The ring will provide connectivity to multiple customer-designated locations (nodes). However, a ring must have a minimum of three nodes. At least one node must be a Telephone Company CO and one must be a customer premises. A maximum of 16 nodes including regenerators will be allowed per ring.

Issued: January 6, 1995

Effective: January 9, 1995

In accordance with Order No. 94-1822-TP-ATA, dated January 5, 1995, and Order No. 93-487-TP-ALT, dated November 23, 1994 and Commission Entry in Case No. 93-487-TP-ALT, dated January 5, 1995, and by virtue of Order No. 84-944-TP-COI, issued by The Public Utilities Commission of Ohio, April 9, 1985.

- 3. CHANNELS (Cont'd)
 - 3.2 Classification and Rates (Cont'd)
 - 3.2.12 Ameritech OC-3 and Ameritech OC-12 Dedicated Ring (Cont'd)
 - B. Dedicated Ring Configuration (Cont'd)
 - 1. Nodes (Cont'd)

The Telephone Company reserves the right to determine the order of the nodes on the ring.

When a customer premises node is located in the same building as a CO node, there will be no diversity between the two nodes.

The customer will be billed time and material for any additional charges incurred by the Telephone Company in locating Company equipment at the customer premises.

2. Ports

The ring capacity will be either Ameritech OC-3 or Ameritech OC-12. Lower speed channels are accessible at nodes via port terminations.

Accepted interfaces are as follows:

OC-3 Node

OC-12 Node

DS1 Ports	х	(Maximum	84/Node)	Х*	(Maximum	84/0C-3	Port)
DS3 Ports	Х	(Maximum	3/Node)	х	(Maximum	12/Node)	
OC-3 Ports				х	(Maximum	4/Node)	

By using the existing Ameritech OC-3 Service and cross-connection capability, Ameritech OC-3 point-to-point service may connect to an OC-3 port of an OC-12 ring node located in a Company CO.

As described in Section 3.2.11 for Ameritech OC-3 Service, an OC-3 port will permit the connection of STS-1 channels to other STS-1 channels across the OC-12 Dedicated Ring Service subject to the overall ring capacity limits described in (6) following. Also an STS-1 channel with DS1 payload mapping accessing an OC-12 Dedicated Ring using an OC-3 port may be connected to the Optical to Electrical DS1 add/drop capability for the purpose of connecting to up to 28 DS1 ports. An STS-1 channels with DS3 payload mapping accessing the OC-12 Dedicated Ring using an OC-3 port may individually connect to a DS3 port.

(N)

(N)

* Optical to Electrical DS1 add/drop capability as shown in Paragraph B.4. following is needed along with an OC-3 port.

Issued: January 6, 1995

Effective: January 9, 1995

In accordance with Order No. 94-1822-TP-ATA, dated January 5, 1995, and Order No. 93-487-TP-ALT, dated November 23, 1994 and Commission Entry in Case No. 93-487-TP-ALT, dated January 5, 1995, and by virtue of Order No. 84-944-TP-COI, issued by The Public Utilities Commission of Ohio, April 9, 1985.

(N)

- 3. CHANNELS (Cont'd)
- 3.2 Classification and Rates (Cont'd)
- 3.2.12 Ameritech OC-3 and Ameritech OC-12 Dedicated Ring (Cont'd)
- B. Dedicated Ring Configuration (Cont'd)
 - 2. Ports (Cont'd)

DS1 ports, DS3 ports and STS-1 channels within OC-3 ports may not connect to any other ports within the same node. All other port-to-port connections are allowable except for DS3 port to DS1 port connections. If a DS3 to DS1 connection is required, it may be accomplished by the customer's CPE or through the current multiplexing environment of Ameritech DS3 and Ameritech DS1 Services described in Section 3.2.10. preceding.

3. Mileage

Mileage is the total airline distance between the serving wire center of each node involved on the ring. A one mile minimum will be billed between nodes.

4. Optical to Electrical DS1 Add/Drop Capability

This option allows an electrical DS1 to be derived from an optical OC-12 ring by using this capability to add/drop the electrical DS1 from an OC-3 port.

5. Dedicated Ring Regenerator

Regenerators provide essential detection and retransmission of SONET Optical 155.52 Mbps and 622.08 Mbps signals between nodes. Regenerators will only be provided as required by the Telephone Company when actual fiber facility distances between customer-designated nodes exceed inter-nodal design limits (typically 20 to 25 miles). Regenerators will be located exclusively in Telephone Company COs and do not allow ports to access customer service connections.

Issued: January 6, 1995

Effective: January 9, 1995

In accordance with Order No. 94-1822-TP-ATA, dated January 5, 1995, and Order No. 93-487-TP-ALT, dated November 23, 1994 and Commission Entry in Case No. 93-487-TP-ALT, dated January 5, 1995, and by virtue of Order No. 84-944-TP-COI, issued by The Public Utilities Commission of Ohio, April 9, 1985.

- 3. CHANNELS (Cont'd)
 - 3.2 Classification and Rates (Cont'd)
 - 3.2.12 Ameritech OC-3 and Ameritech OC-12 Dedicated Ring (Cont'd)
 - B. Dedicated Ring Configuration (Cont'd)
 - 6. Dedicated Ring Connection Capacity

Maximum transport capacity of Ameritech OC-3 and Ameritech OC-12 Dedicated Ring Service is characterized by the total quantity of individual port-to-port connections allowed between all nodes on the ring.

For Ameritech OC-3 Dedicated Ring Service, the maximum ring capacity will be equal to one of the following combinations:

DS3 Port t Port Conne 		DS1 Fort to DS1 Port Connections
Three	and	None
Тwo	and	Up to 28
One	and	Up to 56
 None 	and	Up to 84

For Ameritech OC-3 Dedicated Ring Service, individual DS1 port-to-DS1 port and DS3 port-to-DS3 port connections capacities may be incrementally distributed between nodes on the ring in any manner.

Issued: January 6, 1995

Effective: January 9, 1995

In accordance with Order No. 94-1822-TP-ATA, dated January 5, 1995, and Order No. 93-487-TP-ALT, dated November 23, 1994 and Commission Entry in Case No. 93-487-TP-ALT, dated January 5, 1995, and by virtue of Order No. 84-944-TP-COI, issued by The Public Utilities Commission of Ohio, April 9, 1985.

- 3. CHANNELS (Cont'd)
 - 3.2 Classification and Rates (Cont'd)
 - 3.2.12 Ameritech OC-3 and Ameritech OC-12 Dedicated Ring (Cont'd)
 - B. Dedicated Ring Configuration (Cont'd)
 - 6. Dedicated Ring Connection Capacity (Cont'd)

For Ameritech OC-12 Dedicated Ring Service, the maximum ring capacity will be equal to one of the following combinations:

DS3 Port to Port Conne		DS1 Port to DS1 Port Connections
Twelve	and	None
Eieven	and	One Group of 28
Ten	and	Two Groups of 28 (56)
Nine	and	Three Groups of 28 (84)
Eight	and	Four Groups of 28 (112)
Seven	and	Five Groups of 28 (140)

Six	and	Six Groups of 28 (168)
Five	and	Seven Groups of 28 (196)
Four	and	Eight Groups of 28 (224)
Three	and	Nine Groups of 28 (252)
Two	and	Ten Groups of 28 (280)
One	and	Eleven Groups of 28 (308)
None	and	Twelve Groups of 28 (336)

For Ameritech OC-12 Dedicated Ring Service, individual DS1 port-to-DS1 port connection capacities may be distributed only in incremental groups of 28 between any two nodes on the ring. Individual DS3 port-to-DS3 port connection capacities may be incrementally distributed between nodes on the ring in any manner.

Ameritech OC-12 Dedicated Ring Service will also provide capability for node-to-node connection of STS-1 channels using OC-3 ports on the OC-12 ring. Each STS-1 to STS-1 channel connection or STS-1 channel to DS3 port connection requested by the customer will reduce the remaining ring capacity by the equivalent of one DS3 port-to-DS3 port connection or 28 DS1 port-to-DS1 port connections.

 - C. Regulations
 - 1. The regulations specified herein are in addition to the applicable regulations specified in this and other tariffs of the Telephone Company.
 - 2. Dedicated Rings are available for either 36 month or 60 month periods under the Variable Term Payment Plan (VTPP). Monthly recurring charges apply for the nodes, ports and mileage between nodes. If a customer does not wish to renew the VTPP at the expiration of the term, the customer's service will automatically convert to monthly extension rates. All other VTPP rules and regulations as specified in Section 3.2.11 preceding apply as appropriate.
 - 3. All nonrecurring charges for the initial installation of the Dedicated Ring will be included in the monthly rates except for the actual ring design for which an Administrative Charge and Design and Central Office Connection Charge will be applied once for the entire ring (circuit).

P.U.C.O. No. 2 PRIVATE LINE SERVICE TARIFF

- 4. MISCELLANEOUS SERVICE AND FACILITIES (Cont'd)
 - 4.6 Power Fault Protection
 - A. Description
 - 1. Power Fault Protection is required where other company services are provided on facilities that extend to a high voltage environment, as determined by I.E.E.E. standards, requiring high voltage protection whenever hazardous voltage may appear on those facilities due to Ground Potential Rise (GPR) or induction caused by faults in the customer's electric power system. The purposes of high voltage protection are:
 - a. to minimize electrical hazards to personnel engaged in the construction, operation, and maintenance of the telecommunications system;
 - b. to prevent electrical damage to telecommunications equipment, cable, or wire facilities;
 - c. to provide the required service continuity of telecommunications transmission as specified by the customer;
 - d. to minimize interruptions of operating channels connecting customer-provided equipment and false operation of the customer-provided equipment by extraneous voltages resulting from lightning, ground return faults or other abnormal conditions on the power system.
 - 2. Power Fault Protection is available to all customers of the Telephone Company including interexchange carriers.
 - 3. Power Fault Protection may be used with exchange services, Feature Groups or dedicated services.
