Dear Chairman Snitchler:

As a customer of AEP, I urge you to reject its proposal to limit my ability to save money on my electric bill by switching to another electric supplier.

By imposing excessive capacity fees on other suppliers, AEP's proposed Electric Security Plan would harm competition so it can protect its profits on the backs of customers like me. While nearly 2 million Ohioans are shopping every month with competitive retail suppliers, AEP is the only utility in Ohio that wants to place artificially inflated capacity charges on suppliers, reducing savings for customers.

We all know competition works. That's why we always shop for lower prices. We should let competition work for electricity too.

Please reject or modify AEP's revised Electric Security Plan and preserve my right to shop to save money on my electric bill.

COMMENT DESCRIPTION:

We are an all electric home and once again if you pass this electric bill to raise my costs you will trash the price of my home which will lower my taxes and my city. I and 500 others in this one development have no other power to change over to. In about 18 to 24 months gas will be in our development. Hold off till then please.

COMPLAINT DESCRIPTION:

ESP3 or Case # 12-1230-EL-SSO Iam the owner of an all electric home. It is time that the guarantees I was given as an owner of an all electric home are upheld. It is a constant issue that the rates are continually being increased. I will be unable to maintain my home and/or sell it if the rates are not upheld.

COMMENT DESCRIPTION:

Case # 12-1230-EL-SSO: Pleaae do not pass this. We are on a fixed income and are stuggling to stay in our homes. My husband is in a wheelchair and I am fighting cancer and have to have knee surgery. We went all electric as we had it before and love it but we are being forced out of our home by everything going up. They are jacking up everything. The Ohio Edison part of my bill is higher then the Duke part and that is uncalled for. I beg you please do not vote for this. Thank you, Cora Neill

COMMENT DESCRIPTION:

Requesting that the proposed rate hike for electric distribution rates not be passed. As an all electric homeowner and senior citizen we have all had to cut corners. Unfortunately, we cannot just request more payments from Social Security or pension plans when we need more money - First Energy needs to not foist unfair and disproportional increases to all elec home owners.

COMPLAINT DESCRIPTION:

The proposal by AEP to increase the fee for use of an alternate supplier for electric is totally illogical. This is equal to a billion dollar bailout of AEP. I am totally against this increase in fees for use of an alternate supplier. If AEP can not sell electric at a competitive rate they should let those who can sell at a competitive rate have the business. This proposed fee for those using an alternate supplier for electric is a fee for "doing nothing". Please hold public hearings for this proposal.
