 Dear Chairman Snitchler:

11-346-EL-SSO

As a customer of AEP, I urge you to reject its proposal to limit my ability to save money on my electric bill by switching to another electric supplier.

By imposing excessive capacity fees on other suppliers, AEP's proposed Electric Security Plan would harm competition so it can protect its profits on the backs of customers like me. While nearly 2 million Ohioans are shopping every month with competitive retail suppliers, AEP is the only utility in Ohio that wants to place artificially inflated capacity charges on suppliers, reducing savings for customers.

We all know competition works. That's why we always shop for lower prices. We should let competition work for electricity too.

Please reject or modify AEP's revised Electric Security Plan and preserve my right to shop to save money on my electric bill.

QUESTION DESCRIPTION:

THis is in referrence to Docket No. 11-0346=EC-530. I am once again without power. I complained to PUCO before, but nothing has been done, PUCO on its own website says in recent years it has granted AEP rate increases of 7, 8, and 7% far above the inflation rate. A court foubd that some of AEPs rate increases were not only too high but unreasonable. PUCO granted AEP an increase but then rescinded it because of its affect on rates. You would have thought that one thing PUCO would consider before raising rates would be the actual effects on rates. Just sayin'. AEP seems to sponsor every charitable endeavor there is (no doubt passing it along to customers wth a fee) but it canot pronide iexpensive reluablr service. My questio is: Does the PUCO actually regulate AEP or is it just its puppet?
