OHIO POWER SITING BOARD

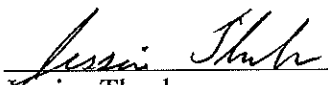

In The Matter Of:)	
The Application of American Transmission)	Case No. 11-2754-EL-BSB
Systems, Incorporated for a Certificate of Environmental)	
Compatibility and Public Need for the Construction)	
of the Clinic Hospital Substation)	
)	

AFFIDAVIT OF PROOF OF MAILING OF NOTICE LETTERS

Pursuant to Ohio Administrative Code Rule 4906-5-08(C)(3), the undersigned states that the notification letter required by this section has been sent to each individual identified in that section and that a copy of the mailing list of such individuals receiving the notification letter was sent to each public official entitled to service of the application pursuant to rule 4906-5-06.

The undersign states that the notification letters required by Ohio Administrative Code Rule 4906-5-08(C)(3) were mailed first class mail on October 12, 2012. The undersign also states that the mailing list required by Ohio Administrative Code Rule 4906-5-08(C)(3) to be sent to each public official entitled to service of the application was mailed first class mail on October 12, 2012.

Copies of the notification letters, the letters of the officials, the mailing list and a list of such government officials receiving such mailing list is also attached.

Jessica Thacker

Clinic Hospital Substation Project
Application for Certificate of Environmental Compatibility and Public Need
OPSB Case No. 11-2754-EL-BSB

Dear Property Owner,

American Transmission Systems, Incorporated (ATSI), a subsidiary of FirstEnergy Corp., is proposing to construct the Clinic Hospital Substation Project ("CH Substation" or "Project"). This letter briefly describes the Project, the Ohio Power Siting Board (OPSB) certification process, and provides you with a notice of the OPSB's date and location of the upcoming public hearing on the proposed Project.

ATSI proposes to construct the Project, a new utility facility, in an Application submitted to the Ohio Power Siting Board for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located in the City of Cleveland in Cuyahoga County, Ohio. The Cleveland Electric Illuminating Company (CEI) is a FirstEnergy Corp. operating company that provides local electric service. ATSI owns FirstEnergy Corp.'s Ohio transmission lines. CEI is planning improvements to its electric distribution system that supplies the Cleveland Clinic's main campus. These improvements will provide enhanced reliability with sufficient capacity for future growth and development. The proposed CH Substation will be connected to ATSI's transmission lines and supply CEI's planned distribution improvements for the Cleveland Clinic. The CH Substation will transform or change the voltage from 138 kV to 36 kV and will be connected to ATSI's transmission lines via two new loops to ATSI's existing nearby 138 kV transmission lines. The substation will supply a new 36 kV distribution network to be installed by CEI that will supply four new Cleveland Clinic substations. CEI and ATSI have carefully studied the general area of the Project to identify potentially sensitive areas and land uses, and have proposed the most appropriate locations for the Preferred and Alternate locations for the CH Substation. The general location of the Preferred and Alternate sites for the substation are shown on the accompanying map of the area.

In order to construct, operate and maintain the Project, ATSI submitted an application to, and must obtain approval from, the OPSB. The OPSB requires the submittal of a preferred and alternate site for substation projects. The OPSB considers many aspects of the project and ultimately decides if the project is needed, and, if needed, on which proposed site it should be constructed. The OPSB approval is provided in the form of a Certificate of Environmental Compatibility and Public Need. On June 15, 2012 ATSI submitted the necessary application to the OPSB. The OPSB reviewed the application and found on September 15, 2012 that the

application filings were complete and addressed all necessary filing requirements. More information on the OPSB's review process can be found on their website at <http://www.opsb.ohio.gov/opsb.cfm> including an electronic copy of ATSI's applications for the Project. The OPSB has assigned Docket No. 11-2754-EL-BSB to the application, which you should refer to in any correspondence about the Project. A copy of the application for the Project has been provided for public review at:

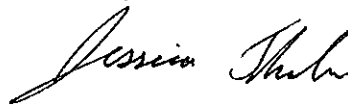

Martin L. King, Jr. Cleveland Public Library, 1962 Stokes Boulevard, Cleveland, Ohio 44106

Section 4906-5-08(C)(3) of the Ohio Administrative Code requires the applicant to send a letter describing the facility to each property owner and affected tenant within or contiguous to the planned site of the proposed facility and to each property owner who may be approached by the applicant for any additional easement necessary for the construction, operation, or maintenance of the facility. The information in this letter is being provided to you as a property owner or affected tenant on or contiguous to the proposed Preferred or Alternate site.

The public will be given an opportunity to comment verbally or in writing on the proposed facility at a local public hearing being held by the OPSB. The local public hearing is scheduled for Wednesday November 14, 2012, at 6:00 p.m., at the Cleveland City Hall, Council Chambers, 2nd Floor - Room 216, 601 Lakeside Avenue, Cleveland, Ohio 44114.

If you have questions regarding this letter or the project, you may contact us through a toll-free information line at 1-800-589-2837.

Sincerely,

Cleveland, Ohio 44106
Parcel No. 119-25-046

Clinic Hospital Substation Project
Application for Certificate of Environmental Compatibility and Public Need
OPSB Case No. 11-2754-EL-BSB

Dear Property Owner,

American Transmission Systems, Incorporated (ATSI), a subsidiary of FirstEnergy Corp., is proposing to construct the Clinic Hospital Substation Project ("CH Substation" or "Project"). This letter briefly describes the Project, the Ohio Power Siting Board (OPSB) certification process, and provides you with a notice of the OPSB's date and location of the upcoming public hearing on the proposed Project.

ATSI proposes to construct the Project, a new utility facility, in an Application submitted to the Ohio Power Siting Board for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located in the City of Cleveland in Cuyahoga County, Ohio. The Cleveland Electric Illuminating Company (CEI) is a FirstEnergy Corp. operating company that provides local electric service. ATSI owns FirstEnergy Corp.'s Ohio transmission lines. CEI is planning improvements to its electric distribution system that supplies the Cleveland Clinic's main campus. These improvements will provide enhanced reliability with sufficient capacity for future growth and development. The proposed CH Substation will be connected to ATSI's transmission lines and supply CEI's planned distribution improvements for the Cleveland Clinic. The CH Substation will transform or change the voltage from 138 kV to 36 kV and will be connected to ATSI's transmission lines via two new loops to ATSI's existing nearby 138 kV transmission lines. The substation will supply a new 36 kV distribution network to be installed by CEI that will supply four new Cleveland Clinic substations. CEI and ATSI have carefully studied the general area of the Project to identify potentially sensitive areas and land uses, and have proposed the most appropriate locations for the Preferred and Alternate locations for the CH Substation. The general location of the Preferred and Alternate sites for the substation are shown on the accompanying map of the area.

In order to construct, operate and maintain the Project, ATSI submitted an application to, and must obtain approval from, the OPSB. The OPSB requires the submittal of a preferred and alternate site for substation projects. The OPSB considers many aspects of the project and ultimately decides if the project is needed, and, if needed, on which proposed site it should be constructed. The OPSB approval is provided in the form of a Certificate of Environmental Compatibility and Public Need. On June 15, 2012 ATSI submitted the necessary application to the OPSB. The OPSB reviewed the application and found on September 15, 2012 that the application filings were complete and addressed all necessary filing requirements. More information on the OPSB's review process can be found on their website at

<http://www.opsb.ohio.gov/opsb.cfm> including an electronic copy of ATSI's applications for the Project. The OPSB has assigned Docket No. 11-2754-EL-BSB to the application, which you should refer to in any correspondence about the Project. A copy of the application for the Project has been provided for public review at:

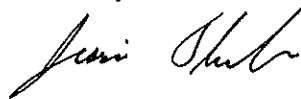

Martin L. King, Jr. Cleveland Public Library, 1962 Stokes Boulevard, Cleveland, Ohio 44106

Section 4906-5-08(C)(3) of the Ohio Administrative Code requires the applicant to send a letter describing the facility to each property owner and affected tenant within or contiguous to the planned site of the proposed facility and to each property owner who may be approached by the applicant for any additional easement necessary for the construction, operation, or maintenance of the facility. The information in this letter is being provided to you as a property owner or affected tenant on or contiguous to the proposed Preferred or Alternate site.

The public will be given an opportunity to comment verbally or in writing on the proposed facility at a local public hearing being held by the OPSB. The local public hearing is scheduled for Wednesday November 14, 2012, at 6:00 p.m., at the Cleveland City Hall, Council Chambers, 2nd Floor - Room 216, 601 Lakeside Avenue, Cleveland, Ohio 44114.

If you have questions regarding this letter or the project, you may contact us through a toll-free information line at 1-800-589-2837.

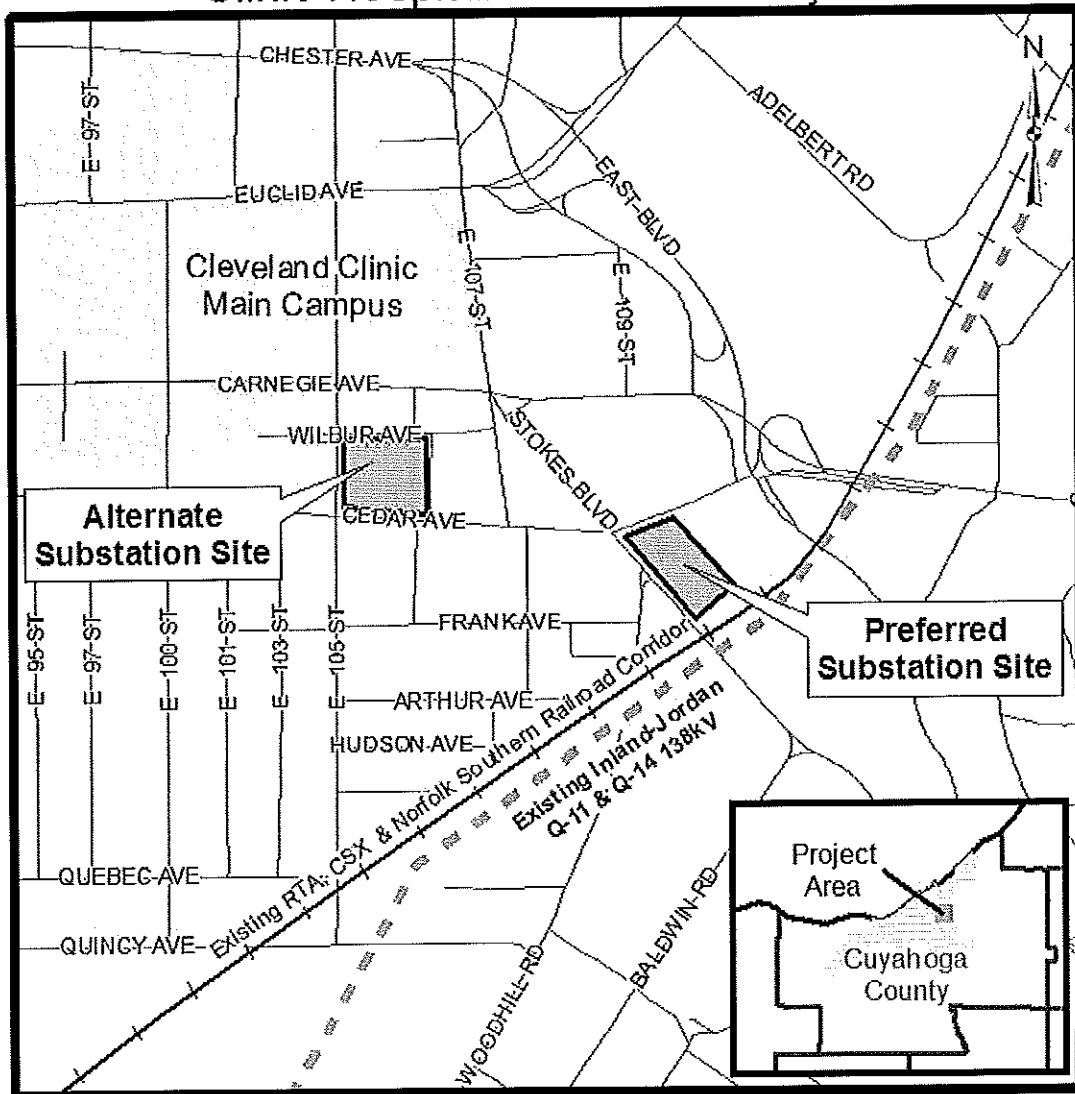

Sincerely,

Jessica Thacker

Clinic Hospital Substation Project
Application for Certificate of Environmental Compatibility and Public Need
OPSB Case No. 11-2754-EL-BSB

Dear Property Owner,

American Transmission Systems, Incorporated (ATSI), a subsidiary of FirstEnergy Corp., is proposing to construct the Clinic Hospital Substation Project ("CH Substation" or "Project"). This letter briefly describes the Project, the Ohio Power Siting Board (OPSB) certification process, and provides you with a notice of the OPSB's date and location of the upcoming public hearing on the proposed Project.

ATSI proposes to construct the Project, a new utility facility, in an Application submitted to the Ohio Power Siting Board for a Certificate of Environmental Compatibility and Public Need. The proposed Project is located in the City of Cleveland in Cuyahoga County, Ohio. The Cleveland Electric Illuminating Company (CEI) is a FirstEnergy Corp. operating company that provides local electric service. ATSI owns FirstEnergy Corp.'s Ohio transmission lines. CEI is planning improvements to its electric distribution system that supplies the Cleveland Clinic's main campus. These improvements will provide enhanced reliability with sufficient capacity for future growth and development. The proposed CH Substation will be connected to ATSI's transmission lines and supply CEI's planned distribution improvements for the Cleveland Clinic. The CH Substation will transform or change the voltage from 138 kV to 36 kV and will be connected to ATSI's transmission lines via two new loops to ATSI's existing nearby 138 kV transmission lines. The substation will supply a new 36 kV distribution network to be installed by CEI that will supply four new Cleveland Clinic substations. CEI and ATSI have carefully studied the general area of the Project to identify potentially sensitive areas and land uses, and have proposed the most appropriate locations for the Preferred and Alternate locations for the CH Substation. The general location of the Preferred and Alternate sites for the substation are shown on the accompanying map of the area.

In order to construct, operate and maintain the Project, ATSI submitted an application to, and must obtain approval from, the OPSB. The OPSB requires the submittal of a preferred and alternate site for substation projects. The OPSB considers many aspects of the project and ultimately decides if the project is needed, and, if needed, on which proposed site it should be constructed. The OPSB approval is provided in the form of a Certificate of Environmental Compatibility and Public Need. On June 15, 2012 ATSI submitted the necessary application to the OPSB. The OPSB reviewed the application and found on September 15, 2012 that the

application filings were complete and addressed all necessary filing requirements. More information on the OPSB's review process can be found on their website at <http://www.opsb.ohio.gov/opsb.cfm> including an electronic copy of ATSI's applications for the Project. The OPSB has assigned Docket No. 11-2754-EL-BSB to the application, which you should refer to in any correspondence about the Project. A copy of the application for the Project has been provided for public review at:

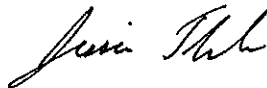

Martin L. King, Jr. Cleveland Public Library, 1962 Stokes Boulevard, Cleveland, Ohio 44106

Section 4906-5-08(C)(3) of the Ohio Administrative Code requires the applicant to send a letter describing the facility to each property owner and affected tenant within or contiguous to the planned site of the proposed facility and to each property owner who may be approached by the applicant for any additional easement necessary for the construction, operation, or maintenance of the facility. The information in this letter is being provided to you as a property owner or affected tenant on or contiguous to the proposed Preferred or Alternate site.

The public will be given an opportunity to comment verbally or in writing on the proposed facility at a local public hearing being held by the OPSB. The local public hearing is scheduled for Wednesday November 14, 2012, at 6:00 p.m., at the Cleveland City Hall, Council Chambers, 2nd Floor - Room 216, 601 Lakeside Avenue, Cleveland, Ohio 44114.

**Application for Certificate
Clinic Hospital Substation Project
OPSB Case No. 11-2754-EL-BSB**

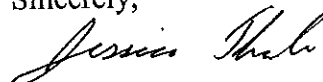

Dear Mr. FitzGerald:

As you may recall, in June 2012 we served you a copy of American Transmission Systems, Incorporated's Application for a Certificate of Environmental Compatibility and Public Need for the Clinic Hospital Substation Project. As a part of the Public Notice provisions for this project under Section 4906-5-08(C)(3) of the Ohio Administrative Code, we have sent letters describing the facility to each property owner within or contiguous to the planned site or right-of-way of the proposed facility and to each property owner who we may approach for any additional easement necessary for the construction, operation, or maintenance of the facility. The letters briefly describe the certification process, the Clinic Hospital Substation Project and provide the date and location of the public hearing.

We are also required to submit the name and address of each landowner on the mailing list for these letters to each public official entitled to service of the Application, which we are doing with this letter to you. The subject mailing list is attached and was developed by reviewing the on-line records and contacting the of Cuyahoga County Auditor's office.

Please contact me at (330) 384-5955 or your FirstEnergy Area Manager Chad Self at (216) 295-5244, if you have any questions about the project or if you become aware of any inaccuracies on the mailing list, a property owner who should be on the list, or any other property owner who would like to receive written notification about the project.

Sincerely,

Jessica Thacker

**Application for Certificate
Clinic Hospital Substation Project
OPSB Case No. 11-2754-EL-BSB**

Dear Ms. Britt:

As you may recall, in June 2012 we served you a copy of American Transmission Systems, Incorporated's Application for a Certificate of Environmental Compatibility and Public Need for the Clinic Hospital Substation Project. As a part of the Public Notice provisions for this project under Section 4906-5-08(C)(3) of the Ohio Administrative Code, we have sent letters describing the facility to each property owner within or contiguous to the planned site or right-of-way of the proposed facility and to each property owner who we may approach for any additional easement necessary for the construction, operation, or maintenance of the facility. The letters briefly describe the certification process, the Clinic Hospital Substation Project and provide the date and location of the public hearing.

We are also required to submit the name and address of each landowner on the mailing list for these letters to each public official entitled to service of the Application, which we are doing with this letter to you. The subject mailing list is attached and was developed by reviewing the on-line records and contacting the of Cuyahoga County Auditor's office.

Please contact me at (330) 384-5955 or your FirstEnergy Area Manager Chad Self at (216) 295-5244, if you have any questions about the project or if you become aware of any inaccuracies on the mailing list, a property owner who should be on the list, or any other property owner who would like to receive written notification about the project.

Sincerely,

Jessica Thacker
