THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Application of The Dayton)	
Power and Light Company for Authority to)	Case No. 12-2281-EL-AAM
Modify its Accounting Procedures For Certain)	
Storm-Related Service Restoration Costs)	

**AMENDED APPLICATION OF THE DAYTON POWER & LIGHT COMPANY
FOR AUTHORITY TO MODIFY ITS ACCOUNTING PROCEDURES FOR
CERTAIN STORM-RELATED RESTORATION COSTS**

1. The Dayton Power and Light Company ("DP&L" or "the Company") is a public utility and electric light company as defined by Sections 4905.02 and 4905.03(A)(3) of the Ohio Revised Code ("O.R.C"), an electric distribution utility as defined by O.R.C. §4928.01(A)(6) and is subject to the jurisdiction of the Public Utilities Commission of Ohio ("PUCO" or "Commission").

2. DP&L filed its original Application in this proceeding on August 10, 2012 in which it asked that the Commission, pursuant to O.R.C §4905.13, grant the accounting authority to permit DP&L to defer costs that were incurred as a result of damage caused by the storms taking place during the final weekend of June 2012. DP&L incorporates, as if fully rewritten herein, its initial Application, except to the extent modified by this Amended Application.

3. Specifically, DP&L amends paragraph 2 of the initial Application to clarify that DP&L requests authority to defer as a regulatory asset the total distribution-related Operation and Maintenance ("O&M") expenses associated with restoring electric service to its customers that were incurred as a result of the destructive storms taking place the final weekend of June 2012. The deferral of these costs should not be reduced

by the three-year average service restoration O&M expense associated with non-major events as outlined in the original application.

WHEREFORE, for the foregoing reasons, DP&L respectfully requests the Commission approve the Application, as amended by this filing, for DP&L's request to recover costs associated with storms taking place during the final weekend of June 2012.

Respectfully submitted,
