COMMENT DESCRIPTION:

In regards to case 12-2637, please do NOT institute deregulation of natural gas!!! I have lived in Georgia and experienced that deregulation... it was a mess, confusing, extra expense to communicate and bottomline, was more expensive to consumers. It brings out fraud and scams, contract issues with marketers and poor customer service. Just puts more people in the middle which offers nothing but additional expense and extra processes to be misunderstood. If this begins, why have the PUCO or any of it's employees that are there for the consumer! Don't let these middleman sell you on this idea. Do the right thing, stop this mess of any consideration.
