Per the Commission's Finding and Order of November 28, 2012, Norfolk Southern Railway Company confirms that it has initiated contact with American Electric Power toward ensuring that electric service will be available during the construction and cut-in phases of this project – more specifically, Norfolk Southern's representative discussed this matter in mid-

December of 2012 with AEP's representatives, and has since followed via email, thereby providing preliminary supporting information.

Respectfully submitted,
