In the Matter of the Long-Term Forecast)	
Report of Columbus Southern Power)	Case No. 10-502-EL-FOR
Company and Related Matters.)	

**MOTION TO TAKE ADMINISTRATIVE NOTICE OR IN THE ALTERNATIVE TO
REOPEN THIS PROCEEDING OR IN THE ALTERNATIVE TO SUPPLEMENT THE
RECORD AND REQUEST FOR EXPEDITED TREATMENT OF
INDUSTRIAL ENERGY USERS-OHIO**

The Industrial Energy Users-Ohio ("IEU-Ohio") hereby moves the Public Utilities Commission of Ohio ("Commission") to take administrative notice or in the alternative to reopen this proceeding or in the alternative to supplement the record to include the data described in the Affidavit of Kevin M. Murray and provided in IEU-Ohio Supplemental Exhibit 1 ("Exhibit 1"). Exhibit 1 contains a summary of Ohio-based solar renewable energy resource certificates ("Solar Resource Certificate") issued by the Commission during 2012.¹ Although the costs associated with Turning Point Solar ("Turning Point") are not eligible for non-bypassable recovery as a matter of law,² Ohio Power Company ("AEP-Ohio") and Commission Staff have claimed that the current pace of development

¹ Exhibit 1 contains a list of Ohio-based Solar Resource Certificates issued from January 1, 2012 through December 10, 2012.

² IEU-Ohio maintains that a determination of need, as is relevant to Section 4928.143(B)(2)(c), Revised Code, cannot be made in a long-term forecast report proceeding.

of solar resources in Ohio is an important consideration to the Commission's "need" determination in this proceeding.

To that end, Staff testified that Turning Point is "needed" because, in the absence of the construction of a 10-12 megawatt ("MW") facility each year, only 8 MWs of solar resources will be constructed in Ohio.³ 2012 has come to an end and reality shows that Staff's testimony was incorrect.

The purpose of taking administrative notice or reopening this proceeding or supplementing the record is to provide accurate statistics regarding the amount of solar resources that have been developed in Ohio without Commission intervention (by the market). Exhibit 1 provides a list of approved Solar Resource Certificates and the MW production capability of each solar resource. The data contained in Exhibit 1 summarizes information contained in the Commission's own docket, the data was compiled by Commission Staff, and Exhibit 1 was stored on a public portion of the Commission's website.⁴ Staff's own data compilation demonstrates that the market developed in excess of 32 MWs of Ohio-based solar resources during 2012.⁵ The validity of the information contained in Exhibit 1 is not in dispute—Exhibit 1 summarizes the Commission's own findings, and the information contained in Exhibit 1 is easily verifiable through the Commission's Docketing Information System ("DIS").

³ Staff Exhibit 1 at 4-5 (Figure 1). See also Post-Hearing Brief of Ohio Power Company at 9 (Apr. 25, 2012).

⁴ Staff provided a compilation, in a sortable Excel spreadsheet, of all approved applications for certification as a renewable energy resource. See <http://www.puco.ohio.gov/puco/index.cfm/puco-forms/renewable-energy-resource-generating-facility-application-for-certification/> (Last viewed on January 7, 2013).

⁵ IEU-Ohio Supplemental Exhibit 1.

At the time of the hearing in this proceeding, on March 28, 2012, the information contained in Exhibit 1 was not available because many of the applications for certification had not been approved; thus Exhibit 1 could not have, with reasonable diligence, been presented during the hearing. For the reasons stated in this Motion and more fully in the Memorandum in Support, IEU-Ohio requests that the Commission take administrative notice of Exhibit 1 or in the alternative reopen the proceeding to receive additional evidence or in the alternative supplement the record. IEU-Ohio requests expedited treatment of this Motion.

Respectfully submitted:

MEMORANDUM IN SUPPORT

Staff and AEP-Ohio have claimed that the Commission should find that there is a “need” for Turing Point to ensure that electric distribution utilities (“EDUs”) and electric service companies throughout the state can satisfy the solar benchmark requirements contained in Section 4928.64, Revised Code.⁶ Their claim is based on the assumption that the market will produce only 8 MWs of Ohio-based solar resources in the absence of the construction of Turning Point.⁷ Staff did not make this conclusion based on the most recently data; rather, Staff’s testimony was based on information compiled in 2010 and 2011.⁸

Staff has since compiled statistics from the Commission’s dockets that sheds valuable light on the state of the Ohio solar market. Staff’s data compilation shows that

⁶ Staff Exhibit 1 at 4-5 (Figure 1); Post-Hearing Brief of Ohio Power Company at 9 (Apr. 25, 2012).

⁷ See *id.* According to Mr. Bellamy’s testimony, there must be approximately 250 MWs of solar constructed in Ohio by 2025. Since there was 40 MWs of solar completed at the end of 2011, then there must be 210 MWs developed over the next 14 years. Staff Exhibit 1 at 5 (Figure 1); AEP-Ohio Exhibit 1 at 11. Thus, the average development target is 15 MWs per year. These projections ignore the Commission’s ability to modify the solar renewable benchmark requirements upon a showing that compliance requirements cannot be reasonably satisfied.

⁸ Staff Exhibit 1 at 4-5.

more than 32 MWs of new solar facilities received Solar Resource Certificates from the Commission in 2012. The actual quantity of solar resource development that occurred in 2012 greatly exceeds the quantity modeled in Staff's testimony, and demonstrates that Turning Point is a completely unneeded waste of ratepayer dollars. These statistics are contained in Exhibit 1. The information contained in Exhibit 1 was compiled by Commission Staff and stored on a public portion of the Commission's website.⁹ The validity of the information contained in Exhibit 1 is not in dispute. Because the record in this matter is incomplete, dated, and inaccurate, the Commission should take administrative notice¹⁰ of its dockets (summarized in Exhibit 1) or in the alternative reopen this proceeding or supplement the record to include statistics related to solar development in 2012.

Initially, the Commission should take administrative notice of information contained in Exhibit 1. Practice and the rules of evidence shall be the same as in civil actions.¹¹ Evidence Rule 201 pertaining to judicial notice, states:

(A) Scope of rule. This rule governs only judicial notice of adjudicative facts; i.e., the facts of the case.

(B) ***Kinds of facts. A judicially noticed fact must be one not subject to reasonable dispute in that it is either (1) generally known within the territorial jurisdiction of the trial court or (2) capable of accurate and ready determination by resort to sources whose accuracy cannot reasonably be questioned.***

(C) When discretionary. A court may take judicial notice, whether requested or not.

⁹ See <http://www.puco.ohio.gov/puco/index.cfm/puco-forms/renewable-energy-resource-generating-facility-application-for-certification/> (Last viewed on January 7, 2013).

¹⁰ During the hearing, the Attorney Examiner took administrative notice of several applications to obtain a Solar Resource Certificate. Tr. Vol. 1 at 62-64. IEU-Ohio Supplemental Exhibit 1 contains a list of Solar Resource Certificates issued by the Commission in 2012.

¹¹ Section 4903.22, Revised Code.

(D) When mandatory. A court shall take judicial notice if requested by a party and supplied with the necessary information.

(E) Opportunity to be heard. A party is entitled upon timely request to an opportunity to be heard as to the propriety of taking judicial notice and the tenor of the matter noticed. In the absence of prior notification, the request may be made after judicial notice has been taken.

(F) Time of taking notice. Judicial notice may be taken at any stage of the proceeding.

(G) Instructing jury. In a civil action or proceeding, the court shall instruct the jury to accept as conclusive any fact judicially noticed. In a criminal case, the court shall instruct the jury that it may, but is not required to, accept as conclusive any fact judicially noticed.

The information contained in Exhibit 1 satisfies the standard for judicial notice.¹²

The information contained in Exhibit 1 is already in the possession of the Commission and it is stored on the Commission's website; thus, the information is generally known.

The information contained in Exhibit 1 is capable of verification and cannot be disputed because each Solar Resource Certificate is viewable on the Commission's website.

Finally, judicial notice may be taken at any time during the proceeding.¹³ Under these circumstances, administrative notice is mandatory.¹⁴

The Commission's rules and precedent also support reopening this proceeding or in the alternative permitting IEU-Ohio to supplement the record. Rule 4901-1-34, Ohio Administrative Code ("OAC"), allows the Commission to reopen a proceeding for good cause at any time before the issuance of a final order:

¹² The Commission's rules are based upon the Ohio Rules of Evidence; thus, the standard for taking administrative notice parallels the standard for taking judicial notice.

¹³ The Supreme Court of Ohio has held that administrative notice may be taken even on rehearing so long as no party is prejudiced. *Cincinnati Bell Telephone v. Pub. Util. Comm.*, 12 Ohio St. 3d 280, 284-285 (1984).

¹⁴ In the event that AEP-Ohio or Staff opposes the Motion, they are entitled to an "opportunity to be heard." IEU-Ohio does not oppose such an opportunity. Neither AEP-Ohio nor Staff, however, can demonstrate that taking administrative notice of Exhibit 1 would cause prejudice because the information is not disputed and Exhibit 1 merely provides an up-to-date list of Solar Resource Certificates and their MW output.

(A) The commission, the legal director, the deputy legal director, or an attorney examiner may, upon their own motion or upon motion of any person for good cause shown, reopen a proceeding at any time prior to the issuance of a final order.

(B) A motion to reopen a proceeding shall specifically set forth the purpose of the requested reopening. If the purpose is to permit the presentation of additional evidence, the motion shall specifically describe the nature and purpose of such evidence, and shall set forth facts showing why such evidence could not, with reasonable diligence, have been presented earlier in the proceeding.

The Commission recently permitted AEP-Ohio to file Supplemental Reply Comments related to its GridSmart Application, out-of-time, over the objections of the Office of the Ohio Consumers' Counsel ("OCC"), because AEP-Ohio had provided the Commission with more comprehensive and latest information:

The Commission grants AEP-Ohio's requests to supplement its reply comments and the request for expedited ruling in this case. Although the supplemental reply comments are not timely, *the additional information contradicts a claim of the Staff and, in point of fact, substantiates the comments of OCC as to the CES program.* We note that the Staff does not oppose the claims made by the Company in its supplemental reply comments. The additional information presented by the Company facilitates a Commission decision based on the latest and best information available.¹⁵

Thus, the Commission has reopened the proceeding to accept additional evidence when the evidence provides valuable information relevant to the Commission's determination. Moreover, the Commission has granted motions to supplement the record when necessary information was not available at the time of the hearing.¹⁶

¹⁵ *In the Matter of the Application of Ohio Power Company to Update its GridSmart Rider*, Case No. 12-509-EL-RDR, Finding and Order at 9 (Oct. 3, 2012); see also Entry (Sep. 5, 2012); see also *In the Matter of the Application of Duke Energy Ohio, Inc. for an Energy Efficiency Cost Recovery Mechanism and for Approval of Additional Programs for Inclusion in its Existing Portfolio*, Case No. 11-4393-EL-RDR, Entry at 2 (Mar. 21, 2012) (reopening the record for the limited purpose of receiving additional information).

¹⁶ *In the Matter of the Petition of Al Shomaker and Numerous Other Subscribers of the Utica-Homer Exchange of United Telephone Co.*, Case No. 85-1283-TP-PEX, Supplemental Opinion and Order at 5 (Jul. 6, 1988); see also *In the Matter of the Petition of Duane M. Miller, Judith Holmes, and Numerous*

The purpose of reopening this proceeding or supplementing the record is to provide the Commission with accurate statistics regarding the amount of solar resources that have been developed in Ohio without Commission intervention (by the market). Specifically, Exhibit 1 demonstrates that over 32 MWs of solar resources were developed in Ohio during 2012—more than double the amount that Staff claimed must be constructed each year to ensure that the Ohio solar benchmarks are satisfied. The information contained in Exhibit 1 was compiled by Commission Staff and stored on a public portion of the Commission's website.¹⁷

The hearing occurred in March of 2012. Exhibit 1 provides statistics related to the total amount of Solar Resource Certificates issued in 2012, many of which were issued after the hearing occurred. Therefore, the information contained in Exhibit 1 could not have been provided, with reasonable diligence, during the hearing. Good cause exists for granting the Motion because the Exhibit 1 is relevant to Staff's and AEP-Ohio's claims, and it provides the most up-to-date evidence with respect to the current state of the Ohio solar market. IEU-Ohio requests that the Commission reopen the record in this proceeding or in the alternative supplement the record to accept the evidence contained in Exhibit 1 into the record.

For the reasons stated herein, IEU-Ohio requests that the Commission grant the relief requested in this Motion.

Other Subscribers of the Kidron Exchange of United Telephone Company of Ohio, Case No. 95-252-TP-PEX, Entry (Nov. 16, 1995).

ATTORNEY EXAMINER

AFFIDAVIT OF KEVIN M. MURRAY

State of Ohio : S.S.

County of Franklin :

I, Kevin Murray, Executive Director for the Industrial Energy Users-Ohio ("IEU-Ohio"), being first duly sworn, depose and say:

1. That, on January 7, 2013, I visited the Commission's website, <http://www.puco.ohio.gov/puco/index.cfm/puco-forms/renewable-energy-resource-generating-facility-application-for-certification/>, and downloaded an Excel spreadsheet report containing a sortable list of renewable energy resource generating statistics (approved REN cases).
2. That the Excel spreadsheet report contained a list of total renewable energy capacity in megawatts, the date each renewable energy facility was certified as a renewable energy resource, and the docket number for each case. The Excel spreadsheet report was updated through December 10, 2012.
3. That I sorted the Excel spreadsheet report to show Ohio-based solar energy facilities that were certified as a renewable energy resource during 2012. I determined that, from January 1, 2012 to December 10, 2012, the Commission certified 32.6379 megawatts of new Ohio-based solar facilities as renewable energy resources.
4. That I printed the sorted Excel spreadsheet report and directed that it be labeled as Supplemental Exhibit 1.
5. That the data contained in Supplemental Exhibit 1 contains an accurate and verifiable subset of the data contained in the Commission's Excel spreadsheet report.

Kevin M. Murray

Sworn before me and subscribed in my presence this 7th day of January 2013.

Notary Public
State of Ohio
