II. CUSTOMER RIGHTS AND OBLIGATIONS RELATING TO TRANSFER OF SERVICE.

- A. It is the Customer's responsibility to notify the Water Company for termination of service.
- B. The Company will send an application for service to the new customer either directly or through the closing agent.
- C. Water service shall not be supplied unless an application has been completed on the form provided by the Company. All parties agree that water service is supplied for use on the premises of the customer only. Once an owner notifies the Company of his/her departure and departs from the system, the Company will hold the owner responsible for new bills until such time as the Company is notified of a new occupant.

III. PAYMENT OF BILLS

- A. To keep charges as low as possible, monthly bills are not rendered. It is the customer's responsibility to mail the current monthly flat rate charge on or before the first of each month; payments not received by the 15th day of each month are subject to a \$5.00 late payment charge. - C. When the financial institution returns a check that has been received as payment for service unpaid, a charge of eight dollars (\$8.00) will be assessed to cover the cost of processing this transaction, provided that the Company properly processes the customer's check.

IV. RIGHT TO VIEW RATES, RULES AND REGULATIONS.

The Company's rates, rules and regulations (Tariff) are available for review during normal business hours upon request by any customer or prospective customer. This tariff is also available from the Public Utilities Commission of Ohio.

V. WATER CONSERVATION AND USE RESTRICTIONS

For the benefit of all, we encourage all customers to exercise conservation measures, including, but not limited to, the following:

1. watch for and fix leaks as they occur;
2. turn water on and off as needed rather than letting water run through entire process of washing hands or brushing teeth;
3. put a toilet tank water conserver in place to reduce amount of water needed for flushing;
4. run dishwasher and washing machine for full loads only
5. keep refrigerator water on hand to avoid long running time to obtain cold tap water.

Drought or systems malfunction conditions may necessitate the Company to impose restrictions on the use of water to ensure that the supply is adequate for public fire service and basic human needs. Such restrictions will be on three levels as follows:

1. Partial ban on all lawn watering.
2. Complete ban on all lawn watering, car washing, and pool filling.
3. Ban on all nonessential uses of water.

VI. MINIMUM STANDARDS

The Public Utilities Commission has adopted a comprehensive set of minimum standards for waterworks companies as set forth in Chapter 4901:1-15 of the Ohio Administrative Code, which is available from the Company or from the PUCO for review upon request.
