Docketing Case No.: 12-1682-EL-AIR & 12-1687-GA-AIR

Notes:

Please, do NOT permit Duke Energy hike their gas & electric rates! I've seen their investors' statements. They're making a nice projected profit already and it appears they're trying to make up for the costs of what I consider a poor merger with a company that was seeing an investor loss. Now they're wanting everyone to get on board and help their investors because of their opportunistic business deal.

When a company has enough profits to pay their shareholders a healthy return already (see their projections on their own website), then they don't need to continually gouge consumers more than they're already gouging us! Geez, they ought to consider REDUCING their rates and giving us poorer working folks a break! I am voicing my request to DENY their rate hike!

Please docket the attached in the case number above.
